

BRAIDED AND BLACK VINYL HIGH EFFICIENCY (H.E.) CLUTCH CABLES

- Low effort, maximum efficiency cable design meets or exceeds all OEM specifications for fitment, construction and endurance requirements
- Cables feature chrome-plated fittings, stainless-steel braided or black vinyl outer casings, tempered-steel inner wire and a nylon inner sleeve for smooth operation
- Braiding is coated with a non-yellowing clear coating for abrasion resistance
- High-performance cables use the latest technology of longitudinally winding the outer housing lengthwise rather than spirally so cable bends in a more natural arc and eliminates spring and compression
- Available in undersize/standard/oversize lengths for most models

HOW TO MEASURE CLUTCH CABLES

NOTE: Late-style cables are measured with the adjuster completely collapsed.

NOTE: Adjuster measured from bottom of cable.

STOCK LENGTH CLUTCH CABLES

| FITS MODEL | BRAIDED PART # | BLACK VINYL PART # | HOUSING LENGTH | ADJUSTER LOCATION FROM TRANS | INNER CABLE TRAVEL | OEM PART # |
