# QUALITY STARTS HERE

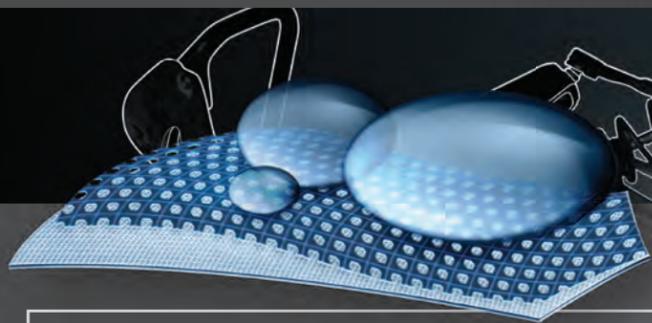

Polaris® engineers existing technologies into all its riding apparel to deliver unparalleled performance in the elements. High-tech treatments and materials combined with Polaris® design and engineering keep you dry when others are wet, and warm when others are cold. Because the elements shouldn't dictate your comfort while on a ride—you should.

**POLARIS®**  
ENGINEERED APPAREL

## STAY DRIER

Trusted around the globe by millions, Gore-Tex® fabric is guaranteed to keep you dry by deflecting moisture and wind without compromising breathability.

**DWR**

## RESIST MOISTURE

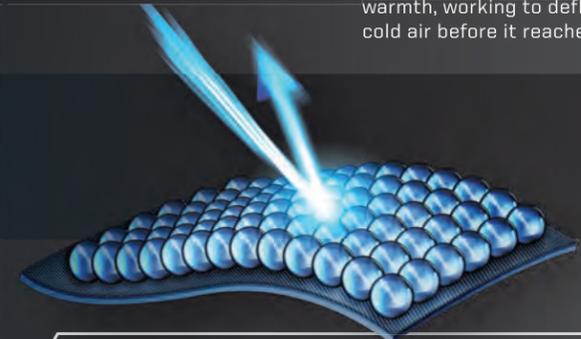

All garments are treated with superior Durable Water Repellency (DWR) to prevent any precipitation from saturating the outer fabric. The DWR causes the water to bead up and run off helping to keep you dry. Tested up to 50 washes.

**3M Thinsulate**  
INSULATION

## BE WARMER

3M™ Thinsulate™ Insulation is the gold standard in high-tech microfiber warmth, working to deflect and diffuse cold air before it reaches your body.

**3M Scotchlite®**  
Reflective Material

## RIDE SAFER

Proven in every weather condition, patented 3M™ Scotchlite™ Reflective Material radiantly bounces light back at its source so you'll always be seen.

**YKK®**  
ZIPPERS

## LAST LONGER

The most trusted name in the industry. Quality construction that doesn't fail.

----- POLARIS®  PROUD -----

**GEAR BEYOND  
EXPECTATIONS**

----- TRY IT. LOVE IT. -----

Every piece we design is rigorously tested so you can buy with confidence knowing that warmth, comfort, mobility, and endurance are dialed in.

POLARIS ENGINEERED APPAREL™

**3 YEAR**  
FACTORY WARRANTY

If your item has a manufacturing defect in its materials or workmanship, you can return it within three years under the standard Polaris® warranty.

# CUSTOMIZE YOUR CLIMATE

Properly preparing for the day's riding conditions is key to staying warm, staying dry, and being as comfortable as possible. It comes down to moisture management, insulating warmth, and protection from the elements.

## LAYERING 101

Choosing the proper mix of outer layers, insulating mid-layers, and base layers next to your skin is essential to staying comfortable on your sled. Many factors come into play when choosing the right options. Considering your personal preference for warmth, breathability, and versatility is critical to making an informed decision.

HOW YOU RIDE	WHERE YOU RIDE	TEMPERATURE REGULATION
<p><b>ACTIVE</b> If you move around on the sled a lot stand often, you need to consider moisture wicking with breathability and being able to move freely. Versatility with multiple venting options is important.</p> <p><b>LAID-BACK</b> If you like riding in a relaxed manner, keeping body heat close to the skin is important. Insulating layers are more important for you.</p>	<p><b>CHANGEABLE</b> Do you ride in areas where the temp varies day to day? Versatility will be important, along with breathability.</p> <p><b>EXTREME COLD</b> If you frequently ride in cold environments and rarely find the need to strip layers, you need to pay close attention to the warmth of your clothes and how well they breathe so you don't get too warm.</p>	<p><b>ALWAYS HOT</b> Warmer people will find heavy base layers to be too much. They will also need breathability and versatility as they change layers throughout the day.</p> <p><b>CHILL EASILY</b> If you find yourself cold often, keeping your core temperature up is important. Insulating layers at each level are key.</p>

BASE

Helps regulate your overall temperature by wicking away moisture. Polyester performs best. Once cotton gets wet, it stays wet.

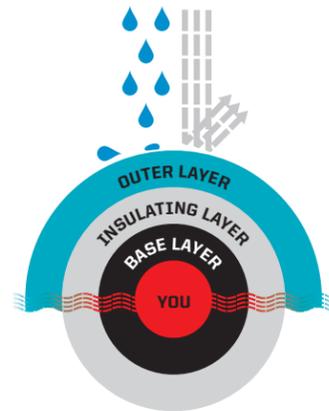

INSULATING

Works to pull moisture away while keeping body heat near the skin. This layer has the most influence on your climate and is adaptable as the day wears on. Polyester and fleece are ideal.

OUTER

Regulates your body temp by venting moisture and blocking out wind, snow, and water. Factors like the breathability and versatility of this layer are important considerations depending on your preferences.

## MAKE AN INFORMED DECISION

We make it easy to choose gear by rating all layering options by three easy-to-understand attributes to help you dial in the perfect balance of comfort and performance for you.

**WARMTH:** This is a combination of all factors that go into the garment, like material construction, insulation material, how well it cuts the wind, and how well it repels water.

**BREATHABILITY:** All Polaris® Gear is breathable to some degree. This rating reflects the material and venting features used in construction.

**VERSATILITY:** How adaptable an item is as the outside climate changes throughout your ride. Includes features such as removable liners and adjustable venting.

ZONAL INSULATION GUIDE: LEAST INSULATION [red bar] MOST INSULATION [red bar]

# FIND YOUR **PERFECT** HELMET

Choosing the right helmet is nearly as important as the choices you made for your Polaris® snowmobile. Choose your helmet depending on your needs and riding style.

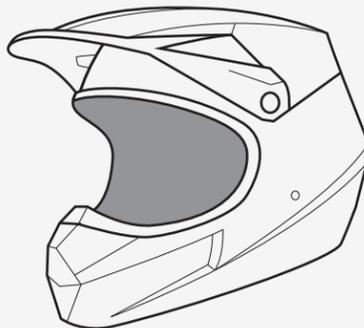

## MODULAR

- All-weather protection
- Versatility with flip-open
- Wide Field of View
- Electric shield optional

## FULL

- Maximum protection from elements
- Full anti-fogging protection
- Wide field of view
- Electric shield optional

## MOTO

- For maximum ventilation and versatility
- Goggle and lens selection
- Convertible for summer use
- 509® Partnership

# 509® FOR POLARIS®

509 goggles and helmets are created together so every combination is guaranteed to make the perfect pair.

## SIZING GUIDE

SIZE	XS	S	M	L	XL	2XL	3XL	4XL	5XL
SIZE CODE	00	02	03	06	09	12	14	15	16 F

## HELMET MATERIALS

### INJECTION MOLDED PLASTIC

High-impact ABS plastic shell bonded to an EPS foam

### TRI-COMPOSITE

A engineered blend of fiberglass, Kevlar®, and carbon fiber

### FIBERGLASS

Rigidity in a lightweight package

### CARBON FIBER

Delivers maximum strength while staying lightweight

## 3 STEPS TO A PERFECT FIT

### 1 INNER LINING

Make sure the inner lining fits snugly around your head without causing pain.

### 2 MOVEMENT

Move the helmet side to side. Your scalp should move with it.

### 3 CHINSTRAP

Check with your finger. If properly fit, your finger shouldn't fit between your chin and the strap.

## SAFETY RATINGS

DOT: Certification from the United States Department of Transportation

Snell®: An independent group, which sets a higher standard for helmets to meet to be certified.

ECE: Standards set by the Economic Commission for Europe; similar to the DOT standards.

# ECLIPSE MODULAR HELMET

OUR MOST SOPHISTICATED AND FEATURE-LADEN HELMET IN A MODULAR DESIGN

## SHELL

- Injection molded plastic

## WEIGHT

- 1850 grams

## FEATURES

- Added chin and neck sealing for comfort and noise protection
- Rubber silicone breath box for a contoured fit
- Patent-pending breath box attachment system for easy conversion
- Push-button air vent
- Steel hook and catch for closing mechanism
- Articulated chin bar with push-button action
- Added visual comfort with lever-activated, scratch-resistant sunshield
- Quick-release Proclip chinstrap
- Interior space for communication speakers
- Washable liner and cheek pads

## OWN THE PERFECT LENS FOR EVERY LIGHT CONDITION

CARRY MULTIPLE GOGGLES  
SO YOU CAN EASILY ADJUST  
FOR LIGHTING

- ROSE + CLEAR**
- Delivers superior low-light visibility
  - Increases contrast in cloudy conditions

- YELLOW + GOLD**
- Enhances flat-light terrain definition
  - Delivers superior depth perception

- SMOKE + BLUE**
- Cut down brightness without distorting color
  - Reduce eyestrain

### LENS COATINGS:

- MIRRORED**
- Reduces glare by reflecting light
  - Maintains visibility of LCD readouts
  - Paired with lighter tints to offset darkening

- POLARIZED**
- Substantially reduces glare and blinding
  - Blocks horizontal light waves
  - Decreases eyestrain

# BOOTS

HIGHLY VISIBLE 3M<sup>®</sup> SCOTCHLITE<sup>™</sup> REFLECTIVE MATERIAL

ICE LOCK<sup>®</sup> SOLE TECHNOLOGY

600 GRAMS OF 3M<sup>®</sup> THINSULATE<sup>™</sup> INSULATION

### BOA SYSTEM VS. LACES

Push to engage. Turn to tighten. Pull for quick release. The BOA lacing system gives a perfect fit with the turn of a knob—even with gloves on.
