Inoa

Our wine cabinets

In order for your wines to mature and reach their potential, a wine cabinet must meet 5 basic criteria.

# #1 A constant temperature

*In a natural cellar...*  
The thick walls made of stone and earth ensure a constant temperature of 10 - 14°C.

*EuroCave's solution...*  
The walls (6 cm thick cellular insulant) and the Twin Process thermal regulation system guarantee a constant temperature of 10 - 14°C.

# #2 Suitable humidity levels

*In a natural cellar...*  
The rough stone walls and ceilings capture humidity in the air, guaranteeing an ideal humidity level of above 50%. Excess humidity is controlled and evacuated via the gravel floor.

*EuroCave's solution...*  
The exclusive humidity preservation system combined with the aluminium walls guarantee an ideal humidity level of above 50%.

# #3 thermal insulation, U.V. protection

*In a natural cellar...*  
The thick walls provide excellent thermal insulation. The darkness of the cellar protects the wine from harmful U.V. rays, in this way preventing premature deterioration of your wine.

*EuroCave's solution...*  
The walls constitute an optimal thermal barrier. What's more, EuroCave cabinets protect the wine from light thanks to their solid doors or U.V.-screened glass doors.

# #4 An anti-vibration system

*In a natural cellar...*  
The thickness of the walls and the location of the cellar constitute an excellent defence against external vibration.

*EuroCave's solution...*  
The original VES (Vibration Exclusion System) is designed to absorb vibrations which disturb wine's maturing process.

# #5 A permanent ventilation system

*In a natural cellar...*  
Constant circulation of air is obtained by the difference in pressure between a door held ajar and an air vent.

*EuroCave's solution...*  
A constant, slow flow of filtered air is obtained by the difference in pressure between two holes in the cabinet.

## The five basic criteria

# Choose your cabinet according to your requirements

## 1 Type of use

**Maturing cabinets**  
(single temperature) for maturing wine.

**Multi-function cabinets**  
(2 or 3 temperature) for maturing, cooling and bringing wine to room temperature.

**Wine serving cabinets**  
(multi-temperature) for serving wine at an ideal temperature.

## 2 Size

\* Depending on the interior layout

## 3 The door

10 types of door are available\*, to allow you to choose the door suited to your interior. Reversible\*\*, you also choose the direction in which your cabinet door opens.

\* See the possibilities according to the models \*\* according to the ranges – Photo of technical door not available

## 4 Interior layout

**Order**  
Sliding shelves facilitate individual access to bottles and allow you to display, on one row, 7 – 12 bottles depending on the model.

**Store**  
Always fixed, these storage shelves are designed to store the maximum amount of bottles, whilst ensuring their complete stability.

**Display**  
Designed to vertically display bottles, these display shelves allow you to offer “service by the glass”.

See all the layout possibilities page 45

## 5 Colour or covering

According to the range selected, EuroCave offers a wide range of colours and coverings (Leather or Stainless steel) to allow your cabinet to fit in perfectly in your living area or garage.

### Classic colours

### Stainless steel cladding

### Collection Range Colours

### Leather cladding

## 6 Premium optional extras\*

Add a strip of light all around your cabinet, to bathe your bottles in an amber halo (U.V.-free light).

Choose the front of your shelf: Light oak or Glossy black.

Opt for sliding shelves fitted with a soft-close device, to allow the shelves to close slowly and silently.

\* equipment as standard for the Revelation range, optional extras only available for the Pure range

## Our wine cabinet ranges

### *Tête à Tête*

Small wine serving cabinet which also preserves 2 open bottles.

### *Première*

An easy to use range which meets all the essential criteria for maturing wine.

### *Compact*

Space-saving and flush-fitting in the kitchen guaranteed.

### *Pure*

A comprehensive range designed for multiple uses.

### *Revelation*

A luxury range that offers incomparable ergonomics in terms of interior layout.

### *Collection*

A creative range which you can clad with your choice of textured coloured panels.

### *ShowCave*

ShowCave is unique. This exceptional range enhances and dramatically displays your wine bottles.

## Tête à Tête

**To have your best bottles ready whatever the circumstances**

Tête à Tête is a 12 bottle wine serving cabinet which offers you the possibility of preserving two open bottles of wine, for up to 10 days\*.

\*according to the wine and its vintage

*Tête à Tête,  
Precision, preservation and design*

**Preserves 2 open bottles**  
EuroCave's exclusive air vacuum system prevents wine from oxidising and preserves 2 open bottles of wine for up to 10 days\*.

\*according to the wine and its vintage

**“Main du Sommelier” bottle support**  
Holds and protects your bottles.

**Original storage**  
10 horizontal bottles,  
2 vertical bottles.

**User-friendly touch screen**  
To accurately set the temperature of the cabinet, activate vacuum sealing and lighting.

**Design**  
A Full Glass door and glass top cover for an elegant finish  
—  
Amber lighting to highlight your bottles.

# Première

## Simply expert

A range of wine maturing cabinets with a wide choice of modern, stylish finishes.

Its secret is a skilful combination of tradition and modernity...

Tradition, because cabinets in the Première range observe the essential criteria for optimal wine maturing, recreating a protective environment. Modernity, because these cabinets successfully combine aesthetics and technology.

## One function

**Wine maturing cabinets** recreate the same conditions found in a natural cellar, by meeting the criteria essential for storing wine.

## Compact

### Flush-fitting and space saving

This range of wine serving and maturing cabinets is available in two versions. In the free-standing version, the cabinets ideally meet space constraints. In the flush-fitting version, they fit perfectly into the kitchen. The dimensions of cabinets in the Compact range are designed to meet the requirements of kitchen designers.

### *Two functions*

**Wine maturing cabinets** recreate the same conditions found in a natural cellar, by meeting the criteria essential for storing wine.

**Wine serving cabinets** offer up to ten temperature zones (temperature graduated from 5 - 22°C), and allow you to store, in one same cabinet, several types of wine (rosé, white, red), at an ideal serving temperature.

## Compact, Flush-fitting and space saving

**2 cabinet sizes**  
To offer capacity for  
up to 167 bottles

**“Front-vented” system**  
Ventilation at the front and an  
air vent allow you to place the  
cabinet under a work surface,  
with no need to make holes in  
the work surface.\*

# Pure

## Allow your wine to mature in optimal conditions

Maturing, serving and multi-function (maturing and serving) wine cabinets, the Pure range respects the environment.

It has elegant finishes to allow it to complement all living areas.

## Three functions

**Wine maturing cabinets** recreate the same conditions found in a natural cellar, by meeting the criteria essential for storing wine.

**Wine serving cabinets** offer up to ten temperature zones (temperature graduated from 5 - 22°C), and allow you to store, in one same cabinet, several types of wine (rosé, white, red), at an ideal serving temperature.

**Multi-function cabinets with 3 temperatures** they have three separate temperature zones: 1 zone for maturing wine (9-15°C), 1 chilling zone at the bottom (6-10°C) and 1 zone at the top for bringing wine to room temperature (15-22°C).

# ShowCave

## Showcases your best bottles

Well made from high quality materials, ShowCave has given the wine cabinet a facelift: innovative and decidedly modern, it perfectly combines design and advanced technology.

The ShowCave range is available as a wine serving or maturing cabinet.

## Two functions

**Wine maturing cabinet**  
ShowCave is set at 12°C and recreates the same conditions found in a natural cellar, by meeting the criteria essential for storing wine.

**Wine serving cabinet**  
ShowCave is set from 6 to 20°C, allowing you to store all of your bottles at an ideal serving temperature, according to the type of wine and the temperature setting selected.

## ShowCave, Design, elegance and dramatic display

### Elegant finishes

Side walls in tempered glass and a reflective back wall

### Gentle lighting

LEDs placed along the walls diffuse gentle, amber light

### Full Glass door

to showcase your bottles

### One bottle deep shelves

EuroCave's patented bottle support, Main du Sommelier, stores all types of bottles, and allows you to easily change from storage to display version.

### 1 cabinet size

Up to 180 bottles

1 size

Full Glass door

One bottle deep shelves

ShowCave

### Has a shallow depth and can be flush-fitted

ShowCave is designed to fit in perfectly in all environments.

More than just a wine cabinet, ShowCave adds character to your interior, whether traditional or contemporary. Its multiple assembly combinations mean that you can give free rein to your imagination and make it a decorative element in its own right.

Gentle lighting

Elegant finishes

# Our shelves

## Extremely flexible storage!

Standard or Premium equipment offers you a wide choice of layouts, according to the number of bottles and your storage requirements.

Standard equipment which allows you to easily:

order

store

display

Thanks to 3 types of shelf

sliding  
up to 12 bottles

storage  
up to 77 bottles

display  
up to 32 bottles

The space between the shelves is designed to ensure that bottle labels remain intact.

## Premium equipment available as an optional extra... the luxury of added features

Our Premium shelves offer the advantage of a new generation interior layout, for increased ergonomics and user-friendliness.

You can choose your own front cover: do you prefer the warmth of Light oak or Glossy black?

Epoxy-coated steel shelf labels fit onto the shelf, allowing you to easily write the name of your wines. An erasable white marker pen is supplied.

A soft-close device mounted on each sliding shelf ensures quiet handling and slows its movement when closing.

Premium shelves only

## Main du Sommelier

This structure in two materials combines a rigid structure to support the bottle and a more flexible elastomer edge which adapts to the shape of the bottle and protects it from vibration.

Both of these models are detachable so that you can adapt your shelf storage to suit the shape of the bottles and also the amount of bottles.

patented design

## The Premium model\*

has a reworked aesthetic finish and is more user-friendly in terms of positioning the bottle.

patented design

\*Equipment as standard for the Revelation and Show-Cave ranges, available as an optional extra for the Pure range

C9**	1,905x2,275x760	234 kg	Large and small capacity	yes	 Unvarnished

\*Weight of the unit without the cabinet. \*\*For modules C4-C7-C8-C9, two small capacity cabinets cannot be positioned one on top of the other. The upper section can only be used in Bar mode.

Our “Wine serving”

range

# Wine Art

## Reveals the flavours of your wine

Wine Art preserves open bottles for up to 10 days\* and brings wine to an ideal serving temperature.

\*according to the wine and its vintage

## Wine Art, Clever & practical

Brings wine to an ideal serving temperature

User-friendly

2 separate compartments

Wine Art

### Preserve your open bottles

Thanks to the air vacuum system, once opened, your bottle is protected from any risk of oxidation for up to 10 days\* (effectiveness scientifically proven by CESEO, Cellule d'Expertise Scientifique En Cœnologie – œnology scientific expertise unit, of Institut Universitaire de la Vigne et du Vin – wine and vine university institute - in Dijon, France).

\*according to the wine and its vintage

### Store your wine at an ideal serving temperature

Two separate compartments bring your bottles of red, white and/or rosé wine to the correct serving temperature.

### Technical features

2 colour combinations:

Black/Silver

Black/White

Weight: 5.48 kg

Power supply: external

Power consumption: 70W

Operating ambient temperature range: 18 - 30°C\*\*

Noise level dB(A): 38

\*\*with a maximum humidity level of 50 %

Our cellar layouts

## Cellar conditioners and storage systems

### *Modulo | cube*

Easily create a wine storage area with beech folding racks.

### *Modulo | rack*

Store your bottles directly in their cases.

### *Modulo | steel*

Assemble steel modules in infinite ways and give your cellar a contemporary feel.

### *Modulo | thèque*

Create a customised piece of furniture in solid oak that adapts to the lines of your natural cellar.

### *Inoa*

Condition and thereby transform any room into a wine cellar.

# Modulo | cube

## A simple, adaptable storage system

Modulo|cube is a solid beech folding rack, supplied ready to assemble, which allows you to very easily store your bottles.

## Modulo | cube, Simple and adaptable

### Optimal bottle storage

Designed in solid beech to ensure maximum strength, Modulocube allows you to effectively create an area dedicated to wine.

It is specially designed to store all types of bottles (Bordeaux, Burgundy, Champagne...).

Two options are available: store your bottles all together, or store them individually by adding up to 6 rows of shelves.

Modulocube in storage version  
Up to 50 bottles

Width  
660 mm

Height  
660 mm

Depth  
235 mm

Modulocube with 6 shelves  
Up to 36 bottles

Up to 146 bottles

Up to 199 bottles

Up to 367 bottles

\*If assembling modules higher than the 2<sup>nd</sup> level, modules must be fastened to the wall.

### A modular system

From one module of this functional system, you can build the storage space you need. Each module of Modulocube allows you to store, in one single depth, all types of bottles (up to 50 Bordeaux bottles).

Completely modular, Modulocube allows you to increase your storage capacity by assembling up to three heights\* of modules and change layouts according to your requirements, whilst guaranteeing maximum stability.

### An attractive price

Modulocube ensures ideal wine storage at an attractive price.

## Modulo | rack

### The best solution for storing wine cases

Stores your bottles directly in their cases.

## Modulo | rack, A sliding shelf system

### Easy access to your bottles

Based on the principle of sliding shelves used in wine cabinets, Modulorack is fitted with a sliding shelf system\* for storing wine cases, in this way making it easier for you to access your bottles.

\*Supplied without the wooden cases

### Clever modular storage

- Modulorack is designed to withstand the weight of two twelve bottle cases.
- Several Moduloracks can be assembled to increase storage capacity.

Fastened to the ground, they form a strong, practical storage system. In this way, you can create an effective and stylish area for storing bottles in their original cases.

## Modulo | steel

### The contemporary storage system that can be customised in endless ways!

Easy to fit modules, which can be fastened to each other in endless ways. A new product with clean, modern lines for a decidedly contemporary style.

## Modulo | steel, Contemporary and customisable

### An adaptable modular design

Customisable, Modulosteel can be assembled in endless ways thanks to its modules which are attached to each other side by side. Adjustable to mid-height, it can also adapt to low or vaulted ceilings!

Single depth storage  
Material: Black painted steel  
Epoxy coated to protect it from moisture

1 unit  
Up to 136 bottles

1 mid-height unit  
Up to 72 bottles

1 storage unit  
Up to 72 bottles

### A strong structure

The structure is designed to be easy to assemble. Three fastening systems ensure complete stability.

- 4 adjustable cylinder bases
- 1 screw system in the top of each post. To be fastened directly to the wall using an alignment washer

### Optimised storage

2 types of storage: “storage” and/or “display” mode”. Simply move the steel tubes and fasten the Main du Sommelier supports in the desired position.

### A choice of optional extras

A choice of finishes to optimise your wine storage space and give it a warmer feel according to your requirements, 2 optional extras are available:

#### 1. A storage unit with 6 sliding shelves

Increase your storage capacity by 72 bottles

#### 2. A finishing top cover

Is easily mounted on top of the central storage section. At mid-height, this top cover is ideal for storing a wine case, bottles or any other accessory (glasses, decanters, corkscrews...).

**Technical features**

# Modulo | thèque

## Luxury storage for your finest wines

Its concept, original and innovative, is based on the assembly of different modules, to create YOUR own personal storage system.

Adaptable, Modulothèque can be added to as the number of your bottles increases.

### An almost tailor-made product

Thanks to a choice of 15 modules, Modulothèque adapts to the requirements of the room to be fitted out (sloping roof, corner of a room, vaulted ceiling...)

Easy to assemble, the modules can be dismantled if you want to move them or change the layout of your Modulothèque.

The width, height and storage capacity vary according to the number of modules installed and shelves chosen: the layout possibilities for Modulothèque are endless!

Low ceiling  
H1,336 x W2,426 x D584 mm

Vaulted ceiling  
H2,008 x W2,426 x D584 mm

Sloping roof  
H2,008 x W1,842 x D584 mm

Around a pillar  
Ø1,800 mm H2,060 mm

Corner of a room  
1<sup>st</sup> section of wall: L2,215.7 mm  
2<sup>nd</sup> section of wall: H2,008 x W1,631.7 mm x D584 mm

## Technical features

- 1 Pedestal module (MV2/MV17)**  
Thanks to its 4 adjustable feet<sup>1</sup>, it offers excellent stability on any floor surface. Also available in pedestal corner module version.

*MV2: H162 x W584 x D584 mm – 6.50 kg*  
*Available in 40 cm width.*

*MV17: H162 x W584 x D698 mm – 4.20 kg*

- 2 Basic module (MV1/MV16)**  
Store up to 99 bottles<sup>2</sup> in one same module. The basic module can be fitted with shelves of your choice. Optimise your space by storing 44 bottles<sup>2</sup> in the corner basic module version.

*MV1: H587 x W584 x D584 mm – 11.60 kg*  
*Available in 40 cm width.*

*MV16: H587 x W584 x D698 mm – 13.50 kg*

- 3 Bar module (MV6)**  
The bar module<sup>3</sup> is fitted with a sliding shelf and glass holder. It is the perfect module to ensure drinking your wine is an enjoyable experience.

*H70 x W540 x D540 mm – 11.30 kg*

- 4 Cross module (MV18)**  
This cross-shaped module<sup>3</sup> option attractively and practically stores up to 72 bottles<sup>2</sup>.

*4.40 kg*

- 5 Rack module (MV8)**  
The rack module<sup>3</sup> allows you to easily access bottles stored in their original cases (cases not supplied), thanks to the sliding shelf system. Also equipped with a drawer to store various items and 3 Magnum bottle holders. Total capacity: 24 bottles + 3 magnums on the side

*H582 x W543 x D543 mm – 20.20 kg*

- 6 Superior finishes (MV3)**  
Safely store up to 27 bottles on top of your storage system.

*H85 x D20 mm – 0.90 kg*

- 7 Shelf module (MV7)**  
This module vertically displays your bottles.

*H20 x W550 x D120 mm – 1.78 kg*

- 8 Vertical bottle holder shelf (MV4)**  
Safely and easily handle 4 open bottles.

*H20 x W550 x D120 mm – 1.30 kg*

- 9 Swinging bottle holder (MV211)**  
This wire bottle holder allows you to vertically display your bottles.

*H270 x W85 x D105 mm – 0.24 kg*

- 10 Horizontal bottle holder (MV5)**  
This module, which gives direct access to your bottles, allows you to store 4 magnums or 8 bottles lying flat.

*H640 x W122.7 x D584 mm – 7.20 kg*

- 11 The shelves**  
Fit your Modulothèque with storage or sliding shelves in an oak finish.

1- Pedestal module supplied with 2 feet. Two extra feet (MV19) must be added for the latest module. 2- Traditional Bordeaux bottles. 3- Module fits into the basic module.

# Inoa

The principle of EuroCave cellar conditioners is to transform any type of room (garage, store room...) into a real wine cellar. Control of temperatures, maintaining humidity, air circulation... EuroCave cellar conditioners recreate the conditions essential for storing wine and make your everyday life easier.

## Inoa, The cellar conditioner

### Attractive and practical

EuroCave conditioners are single-piece and therefore easy to fit: they contain the evaporator and condenser in one same unit. In this way, they require no gas charging or welding. All you need is a wall socket!

Designed to be aesthetically pleasing, Inoa conditioners are fitted with a very discreet front cover in galvanised steel, to be positioned, according to your preference, inside or outside your cellar.

### Remote control

Radio remote control (wired sensor supplied for installation of the remote control outside the cellar)

### Automatic operation

As is the case for wine cabinets, EuroCave's cellar conditioner is fitted with a refrigerating unit: an evaporator forces cold air inside the room and a condenser expels warm out outside. Given the volume to be conditioned, the evaporator and condenser are ventilated. The fan of the evaporator operates continuously to ensure constant mixing of the air and optimal uniformity of temperatures, according to the speeds adjusted automatically according to requirements.

### Insulation recommended to ensure optimal performance

EuroCave cellar conditioners are designed to store your wine in optimal temperature conditions, whilst guaranteeing minimum power consumption. Since traditional building materials are very poor insulators, it is essential, in most cases, to insulate the room to be conditioned. In this way, the power consumption of your appliance remains low and the insulation allows optimal performance of your conditioner.

**A thermal assessment is required before any installation.  
Not insulating increases threefold the power required to condition your room.**

### EuroCave Service +

Contact your dealer for a free thermal assessment of your cellar!

### EuroCave patented technology for multiple advantages

Natural humidity levels retained: this unique technology is based on an evaporation temperature of above 0°C and automatic adjustment of fan speeds. In this way, the relative humidity level is above 50% and the air in the cellar does not dry out.

Uniformity of temperature is guaranteed regardless of the temperature outside the room. Equipped with a heating function, in addition to conditioning, Inoa conditioners automatically adapt their temperature if the room varies by half a degree in relation to the set temperature.

The quietest conditioner on the market. Respects the environment.

Product exclusively designed for wine cellars or rooms which are not lived in (store room, garage)

## Our services

To fuel your passion for wine even more, EuroCave has made available two completely free services.

### *The EuroCave mobile application*

**A free virtual wine cellar book for smartphones and tablets.**

Manage your wine cabinet with ease from your mobile or tablet! List all of your bottles, create wine sheets, organise your cabinet, keep a record of the wines you have drunk, be alerted when your bottles have reached their prime, share your favourite wines with friends, benefit from professional advice about your cabinet or print out your cellar board...

**100% FREE OF CHARGE**

For all wine cabinet owners,  
regardless of the brand.

Available in 7 languages:  
**English, French, German,  
Dutch, Russian, Chinese  
and Japanese.**

Indulge your passion for wine, visit  
[app.eurocave.com](http://app.eurocave.com) or scan this code

### *3D product selector*

Thanks to EuroCave's 3D software, available from your dealer, you can carry out a customised simulation of the layout of your future wine cellar and create its interior layout.

**Contact your nearest dealer.**

Available in 7 languages: **English,  
French, German, Dutch, Russian,  
Chinese and Japanese.**
