

## WOODY'S TRAIL RUNNERS

Meet the industry's most powerful family of carbide runners from Woody's. With their ability to create a path on any surface encountered on the trail, the Woody's runner line is versatile and ideal for maneuverability on the snowmobile trail. Woody's manufactures their runners with the finest carbide, steel and aluminum. Extra long mounting bolts and flanged lock nuts allow for fast and easy installation. The rear angle cut prevents catching when reversing or unloading. Woody's quality inspection procedures guarantee a runner that fits. All Carbides have 1" or larger studs to accept ski skins.

## TOP-STOCK HARDWELD RUNNERS

Top-Stock is an economical hardweld runner designed for extreme service or utility applications. The 1/2" host bar with a double pass of hardweld increases the depth of the runner to increase controllability. Recommended for grass racing or deep snow with 48 studs or less installed. Fits OEM Plastic SKIS ONLY

## POLARIS HARDWELD WEAR BARS

Not recommended if track is studded with more than 48 studs.

## WOODY'S DOOLY RUNNERS

PLEASE NOTE: SOLD PER PIECE / ORDER ONE (1) FOR ONE SKI

### DOOLY RUNNER

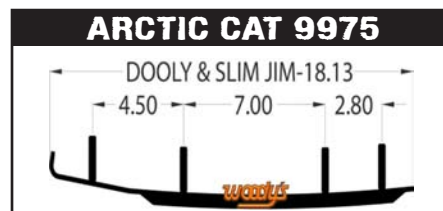

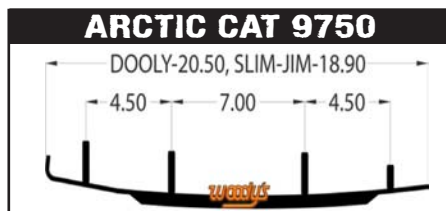

The Dooley™ has two 7/16" Flat-top runners mounted on a plate for each ski. The four contact lines on the snow surface will help decrease darting of your sled as it makes its own groove in the trail. When in a turn, only one of the Dooley™ bars will be in contact with the snow or ice. Therefore, a Dooley™ with 6" of carbide on both runners will have the same turning power as a single runner with 6" of turning carbide. The Dooley™ is available in 4", 6", and 8" of 60° turning carbide for Arctic Cat, Polaris, Ski Doo and Yamaha snowmobiles. Each Dooley™ is packaged individually.

### SLIM JIM™ DOOLY™

Performance Dooley is 31% Lighter and More Aggressive - Woody's new Slim Jim™ Dooley. The original Dooley was designed to reduce the front skis jerking as they hunted for the track of the snowmobiles that had gone before. This reduction in front end darting allowed you to regain confidence in your riding abilities because you could trust your front end control traction. Assertive riders need to be able to read traction as they maneuver through changing trail configurations and ground conditions. The new Slim Jim™ Dooley embodies the anti-dart and adds superb cornering control. The Slim Jim enhanced cornering capabilities allow you to take it to the edge of traction and feel comfortable enough to bring it there and back when and if you want to. That level of riding can only be achieved by those who are able to trust their traction. The Slim Jim™ Dooley is available in 4", 6" and 8" of 60° turning carbide for Arctic Cat, Polaris, Ski-Doo and Yamaha snowmobiles through the Woody's runner line.
