Art of Nature

Natural ingredients are beautiful

They offer creativity, innovation and solutions that
nourish and protect our body

They enhance our lifestyles with multifunctionality, sustainability
and environmental compatibility

Our technology allows us to produce them with purity, efficacy and
safety in mind providing you with the tools to create new cosmetic products

...transform your ideas into reality and let nature be your art

NATURAL FUNCTIONAL EMOLLIENTS

Product name	Status	INCI	Characteristics
Skin Protector & Semi-transparent Emollients			
Natura-Tec Vegetable Vaseline	 COSMOS APPROVED	Olus Oil (and) Cera Alba	Replicates touch, feel and resistance to oxidation of Petrolatum. Excellent glide and water repellency. Application : make up, skincare, haircare.
Natural Vaseline Type A	 COSMOS APPROVED	Ricinus Communis Seed Oil (and) Hydrogenated Castor Oil (and) Copernicia Cerifera Cera	Natural semi-transparent alternative to Petrolatum. Intensive moisturizer, water resistant properties, matt appearance. Not irritant for oral mucosa. Application : skincare, suncare, baby care.
Natural Vaseline Type B	 COSMOS APPROVED	Ricinus Communis Oil (and) Hydrogenated Castor Oil (and) Copernicia Cerifera Cera (and) Cera Alba	Natural semi-transparent alternative to Petrolatum with a shiny and stringy effect. Application : lipstick, make up, haircare.
Green Silicone Alternatives			
Natura-Tec Plantsil™	 COSMOS APPROVED 	Hydrogenated Ethylhexyl Olivat (and) Hydrogenated Olive Oil Unsaponifiables	Leaves a unique soft sensation and powdery finish. Long lasting silky feel. Creates a satin effect on the skin. Interesting make-up remover performance. Excellent alternative to silicone.
Natura-Tec Plantsil™ Xcite 100 Plantsil™ Xcite 350		Information on request	Natural alternatives to low and medium viscosity dimethicones. Low to high spreadability to create a non-sticky moisture barrier to use in elegant skin protective formulations.
Intensive Moisturizer & Substantive Emollients			
Natura-Tec Plantsoft™ L	 COSMOS APPROVED	Butyrospermum Parkii Butter (and) Glyceryl Rosinate (and) Olea Europaea Oil Unsaponifiables	Natural semi solid alternative to Lanolin. Similar appearance and cosmetic properties. Water absorption, hydration, stabilizer of emulsion systems, protective. Tested not irritant for oral mucosa.
Natura-Tec Plantsoft™ Oil	 COSMOS APPROVED	Ricinus Communis Seed Oil (and) Glyceryl Rosinate (and) Glyceryl Oleate (and) Olea Europaea Oil Unsaponifiables	Viscous and shiny oil. Green alternative to Lanolin Oil. Imparts water resistance to formulations.
Natura-Tec Plantsoft™ Wax	 COSMOS APPROVED	Glyceryl Rosinate (and) Ricinus Communis Seed Oil (and) Hydrogenated Olive Oil	Superior consistency agent with excellent plastic behaviour. Ideal base for hair wax type formulations providing matt, strong hold, substantivity and body.

NATURAL EMULSIFIERS

Product name	Status	INCI	Characteristics
Natura-Tec Ecomuls™ 2 in 1	 COSMOS APPROVED	Glyceryl Oleate (and) Polyglyceryl-3-Polyricinoleate (and) Olea Europaea Oil Unsaponifiables	Viscous liquid, W in O emulsifier. 2 in 1 : emulsifier and moisturizer. Eco emulsifier. Can be used in hot or cold process. HLB = 3±1
Natura-Tec Emulactive™ W	 COSMOS APPROVED	Cetearyl Alcohol (and) Glyceryl Stearate (and) Potassium Palmitoyl Hydrolyzed Wheat Protein	O in W anionic / non ionic emulsifier. Can form fluid emulsions with liquid crystal, lamellar system that helps the delivery of active substances into the skin. HLB = 11±1
Natura-Tec Crystal Cream™	 COSMOS APPROVED	Sucrose Polystearate (and) Cetearyl Alcohol (and) Olea Europaea Oil Unsaponifiables	O in W emulsifier. High dermatological compatibility. Forms liquid crystal structure. Gives light touch to emulsions. HLB = 9±1

ACTIVE INGREDIENTS

Product name	Status	INCI	Characteristics
Microalgae Derived Actives			
Natura-Tec Marine BlueVital C™	 COSMOS APPROVED	Caprylic/Capric Triglyceride (and) Cylindrotheca Fusiformis Extract	Powerful anti-wrinkle active based on microalgae technology, strongly stimulates production of structural skin proteins. Significantly increases collagen synthesis in only 24h. Visibly reducing wrinkle depth and volume and providing plumping effect.
Natura-Tec Marine CellShield AP™	 COSMOS APPROVED	Caprylic/Capric Triglyceride (and) Pavlova Lutheri Extract	Environmental stress defense, anti-pollution shield. Rich in EPA and DHA, it provides targeted action on mitochondrial stress reduction by increasing the energetic metabolism of cells with a global improvement of skin tone homogeneity and dark spot reduction.
Natura-Tec Marine Revitalys HP™	 COSMOS APPROVED	Water (and) Haematococcus Pluvialis Extract	Restructuring and cell revitalizing active. It reduces the apoptosis and ageing process by inhibiting the synthesis of p53 protein induced by free radicals and by physiological chrono ageing.
Natura-Tec Marine OceanMist CL™	 COSMOS APPROVED	Caprylic/Capric Triglyceride (and) Nannochloropsis Oceanica Extract	Major role in repairing and boosting barrier function thanks to the Phytocholesterol action to rebuild the fundamental extracellular lamellar matrix. Suitable for sensitive and atopic skin improving health and condition.
Natura-Tec Marine BlueRevelation 50+™	 COSMOS APPROVED	Triolein (and) Cylindrotheca Fusiformis Extract (and) Nannochloropsis Oceanica Extract	All-in-one powerful cocktail of microalgae for 50+. Reveals the natural glowing beauty of maturity by providing an integrative approach to enhance skin : it moisturizes, nourishes and smoothes ageing skin complexion while acting on cutaneous density and elasticity.
Triglycerides Derived Actives			
Natura-Tec Abysoft™	 COSMOS APPROVED 	Crambe Abyssinica Seed Oil Phytosterol Esters	Multifunctional active. Skincare & Make up : Excellent moisturizer, creates a protective long lasting and velvety film; co-emulsifier, wetting agent for pigments. Haircare : increases hair volume, hair elasticity, hair brightness. Provides excellent heat, UV, seawater and colour protection.
Natura-Tec SeaRenew™	 COSMOS APPROVED	Pouteria Sapota Seed Oil (and) Nannochloropsis Oceanica Extract	A unique concentrate of sustainable Sapote oil enriched in microalgae active to promote and support hair strength and growth.
Natura-Tec SeaPassion™	 COSMOS APPROVED	Hydrogenated Ethylhexyl Olivatate (and) Passiflora Edulis Seed Oil (and) Cannabis Sativa Seed Oil (and) Pavlova Lutheri Extract	Combining the effectiveness of microalgae, the virtues of a super fruit linked to hemp treasures, it fights against inflammation and lipid synthesis dysfunction in skin disorder such as acne vulgaris.
Natura-Tec Liquid Shea – Refined	 COSMOS APPROVED 	Butyrospermum Parkii Oil	Excellent moisturizer thanks to omega 9 and 6, it helps to retain the elasticity of the skin as well as providing a soothing and anti-irritating action.
Natura-Tec Bioliderm		Olea Europaea (Olive) Oil Unsaponifiables	Essential anti-ageing defense. Cost effective radical scavenger and anti-glycation active.
Rice Derivatives			
Natura-Tec Rice Starch	 COSMOS APPROVED FOOD GRADE 	Oryza Sativa Rice Starch	Depending on the process of use : 1/ Cold process : excellent sensorial agent that provides a long lasting powdery matt appearance. 2/ Hot process : aqueous effect and non sticky sensation with a gelifying behavior.

WAXES

Product name	Status	INCI	Characteristics
Wax Bases			
Natura-Tec Argan, Olive, Sweet Almond Massage Candle Wax	 COSMOS APPROVED	Information on request	Melting point : 42 – 47°C. These candles generate a lukewarm liquid oil, that helps the spreadability during the massage. Due to their low melting point these products can be poured directly onto the skin.
Natural BBB – Beauty Balm Base	 COSMOS APPROVED	Information on request	Melting point: 68 – 78°C. Ultra light functional base dedicated for universal use. Rapid and easy use to help develop smooth, matt and non greasy anhydrous formulations.
Natural LIP – Lip Intense Pastilles	 COSMOS APPROVED	Information on request	Melting point: 65 – 75°C. Vegan lip care base in pellet form developed specifically to obtain long lasting, matt, highly stable stick formulations.
Depilatory Wax			
Natura-Tec CristalSoft Wax	 COSMOS APPROVED	Information on request	100% vegetable depilatory wax dedicated for sensitive areas. Its advanced formulation will protect and nourish your skin leaving it glowing and silky smooth.
Natural Waxes			
Natura-Tec Yellow Beeswax	 COSMOS APPROVED	Cera Alba	Drop point : 61 – 66°C. Beeswax is characterized by two principal properties : a visco-elastic behavior and a high compatibility with other oils and waxes that can be translated as a "chemical attraction". Easy to use, Beeswax brings softness and shine in all types of formulation.
Natura-Tec White Beeswax			
Natura-Tec Vegetable Beeswax	 COSMOS APPROVED	Information on request	100% vegetable alternative to the animal derived product that mimics perfectly the original behaviour.
Natura-Tec Beeswax Substitute		Information on request	Natural cost effective substitute to pure Beeswax that brings softness and shine in all types of formulation.
Natura-Tec Carnauba Wax T1		Copernicia Cerifera Cera	Melting point : 80 – 88°C. Carnauba wax is the hardest natural wax available. It can produce a glossy finish and is hypoallergenic.
Natura-Tec Carnauba Wax T3			
Natura-Tec Candelilla Wax		Euphorbia Cerifera Cera	Melting Point : 69 – 73°C. Creates a thin protective film on the skin. Ideal for anhydrous system.
Natura-Tec VCA Wax – Vegetable Candelilla Alternative	 COSMOS APPROVED	Information on request	Melting point : 70 – 80°C. Vegetable alternative to Candelilla wax with an excellent oil binding capacity.
Natura-Tec Rice Bran Wax		Oryza Sativa Bran Cera	Melting point : 75 – 85°C. High melting point vegetable wax. Produces a silky, non-tacky feeling on the skin and improves the spreadability of finished products.
Synthetic Waxes			
Synthetic Beeswax		Synthetic Beeswax	Low cost synthetic Beeswax.
Natura-Tec Microwax 1624		Cera Microcristallina	Microcrystalline Wax.
Plant Oil Waxes			
Natura-Tec Apricot, Avocado, Grape Seed, Olive, Soy, Sunflower, Sweet Almond Wax		Hydrogenated Vegetable Oil (and) "Vegetable Oil"	Melting point : 58 – 72 °C. Medium to high melting point waxes based on hydrogenated vegetable oil. Ideal consistency factor for anhydrous systems.
Natura-Tec OC Wax Natura-Tec Hydrogenated Castor Oil / Olive Oil	 COSMOS APPROVED	Hydrogenated "Vegetable" Oil	Hard waxes obtained by hydrogenation of the vegetable oil.

BUTTERS

Product name	Status	INCI	Characteristics
Natural Butters			
NaturaSoft™ Shea – Refined	 COSMOS APPROVED	Butyrospermum Parkii Butter	Melting point : 40 – 50°C. Skin moisturizer, restores skin flexibility and elasticity. Anti-irritant and anti-inflammatory properties – Soft butter.
NaturaSoft™ Shea W – Refined	 COSMOS APPROVED		Melting point : 28 – 34°C. Skin moisturizer, restores skin flexibility and elasticity. Anti-irritant and anti-inflammatory properties – Hard butter.
NaturaSoft™ Organic Shea – Refined	 COSMOS CERTIFIED		Skin moisturizer, restores skin flexibility and elasticity. Anti-irritant and anti-inflammatory properties.
NaturaSoft™ Cocoa – Refined	 COSMOS APPROVED	Theobroma Cacao Seed Butter	Natural hard and stable butter that melts at body temperature. Excellent emollient with moisturizing properties that helps to keep the skin and hair soft and supple. Enhances the smoothness and softness of the skin.
NaturaSoft™ Organic Cocoa – Natural	 COSMOS CERTIFIED		
NaturaSoft™ Mango – Refined	 COSMOS APPROVED	Mangifera Indica Seed Butter	Natural emollient properties and regenerative activity. Has softening, soothing and moisturizing properties.
Vegetable Butters			
NaturaVelvet™ Argan		“Vegetable Oil” (and) Hydrogenated Vegetable Oil (and) Butyrospermum Parkii Butter (and) Tocopherol	Rich in omega 9 and 6, confers to the skin excellent protective, softening and anti-drying properties.
NaturaVelvet™ Apricot			Moisturizes and soothes the skin. Suitable for mature or sensitive skin.
NaturaVelvet™ Avocado			Natural skin moisturizer, penetrates easily into the epidermis, leaves a pleasant feel on the skin.
NaturaVelvet™ Cherry			Shows soothing properties and improves the elasticity of the skin.
NaturaVelvet™ Grape Seed			Regenerates and restructures the epidermal layers and allows better control of hydration.
NaturaVelvet™ Kukui			Contains a high level of omega 3, 6, 9 in equal proportion and maintains natural moisture balance.
NaturaVelvet™ Macadamia			Presents nourishing, moisturizing, regenerating properties and helps restore suppleness to the skin.
NaturaVelvet™ Olive			Rich in omega 6 and 9, provides a long-lasting shield of moisture.
NaturaVelvet™ Orange			Presents softening, soothing and moisturizing properties.
NaturaVelvet™ Peach			Possesses excellent revitalizing and nourishing properties. Helps to prevent dehydration.
NaturaVelvet™ Fucus			Shows slimming, moisturizing, and mineralizing properties.
NaturaVelvet™ Lotus			Participates in skin protection and has soothing properties resulting in a visibly relaxed, calmed complexion.
NaturaVelvet™ Sweet Almond			Excellent emollient for body applications.

VEGETABLE OILS

Product name	Status	INCI	Characteristics
Natura-Tec Abyssinian Oil – Refined		Crambe Abyssinica Seed Oil	Unique molecular structure : long chain fatty acid. Highly resistant to oxidation, ultra-light and non greasy after feel.
Natura-Tec Apricot Oil – Refined		Prunus Armeniaca Kernel Oil	Reinforces cell membrane structure (omega 6). Acts positively on ageing skin. Revives brightness of the skin.
Natura-Tec Argan Oil – Refined		Argania Spinosa Kernel Oil	Anti-ageing activity, protection against the loss of elasticity. Active molecules : Omega 9, 6. Antioxidant.
Natura-Tec Avocado Oil – Refined		Persea Gratissima Oil	Provides protection against UV damage and ageing. Reinforces the barrier function of the skin.
Natura-Tec Babassu Oil – Refined		Orbignya Oleifera Seed Oil	Melting point : 20 – 30°C. Provides a thin protective film on the skin against environmental aggression. Natural alternative to Dimethicone. Has a non-greasy after feel. Enhances spreadability of finished products.
Natura-Tec Babassu Oil – Organic			
Natura-Tec Blackcurrant Oil – Refined		Ribes Nigrum Seed Oil	Has repairing properties for dry, devitalized, damaged and ageing skin (omega 3, 6).
Natura-Tec Borage Oil – Refined		Borago Officinalis Seed Oil	Extremely rich in omega 6 (GLA), plays an important role in restoring the intracellular moisture barrier.
Natura-Tec Camelina Oil – Refined		Camelina Sativa Seed Oil	Regenerating property, restructures damaged tissues. Balanced composition between omega 3 and 6.
Natura-Tec Camellia Oil – Refined		Camellia Oleifera Seed Oil	Nourish both skin and hair. Moisturizer.
Natura-Tec Castor Oil – Refined		Ricinus Communis Seed Oil	Ideal for make up applications, good pigment wetting properties.
Natura-Tec Cherry Oil – Refined		Prunus Avium Seed Oil	Rich in omega 9 and 6, with soothing properties.
Natura-Tec Cocoa Oil – Refined		Theobroma Cacao Seed Extract	Rich in omega 9, enhances the smoothness and softness of the skin.
Natura-Tec Coconut Oil – Refined		Cocos Nucifera Oil	Soft solid, melts on skin contact. Highly stable. Creates a thin protective film on the skin with significant slip.
Natura-Tec Cottonseed Oil – Refined		Gossypium Herbaceum Seed Oil	Contains linoleic acid (LA), omega 6. Maintains the skin in good health.
Natura-Tec Evening Primrose Oil – Refined		Oenothera Biennis Oil	Rich in omega 6, it is effective in regulating water loss and protecting skin from injury and damage.
Natura-Tec Grape Seed Oil – Refined		Vitis Vinifera Seed Oil	Used for damaged and stressed tissues. Has regenerative and restructuring properties allowing better skin moisturization.
Natura-Tec Hazelnut Oil – Refined		Corylus Avellana Seed Oil	Provides a very light touch to formulations.
Natura-Tec Jojoba Oil – Golden		Simmondsia Chinensis Seed Oil	Unlike other vegetable oils, Jojoba oil is chemically very similar to human sebum. It presents exceptional moisturizing qualities.
Natura-Tec Jojoba Oil – Refined			
Natura-Tec Kukui Nut Oil – Refined		Aleurites Moluccana Seed Oil	Extremely rich in EFA omega 6 and 3. Rejuvenates dry and damaged skin. Appropriate for suncare products.
Natura-Tec Lime Seed Oil – Refined		Citrus Aurantifolia Seed Oil	Balanced composition in omega 3, 6, 9 based on the ratio 1:3:2. Hydrates, restructures, protects the skin.
Natura-Tec Macadamia Oil – Refined		Macadamia Ternifolia Seed Oil / Macadamia Integrifolia Seed Oil	Unique composition of omega 7 and omega 9. Provides a light and dry skin feel with a very fast penetration into the skin.

VEGETABLE OILS

Product name	Status	INCI	Characteristics
Natura-Tec Mango Oil – Refined		Mangifera Indica Seed Oil	Oily to soft solid depending on temperature. Has softening, soothing and moisturizing properties.
Natura-Tec Olive Oil – Refined		Olea Europaea Fruit Oil	High compatibility with the skin due to very similar fatty acids composition. Excellent moisturizing properties.
Natura-Tec Olive Oil – Organic			
Natura-Tec Orange Seed Oil – Refined		Citrus Aurantium Dulcis Seed Oil	Hydrates, restructures, protects the skin.
Natura-Tec Palm Oil LP – Refined		Elaeis Guineensis Oil	Liquid to soft solid bifractionated palm oil.
Natura-Tec Peach Oil – Refined		Prunus Persica Kernel Oil	Nourishing, moisturizing, regenerating properties due to its high content in omega 9 and 6.
Natura-Tec Rapeseed Oil – Refined		Brassica Campestris Oleifera Oil	Rich in omega 3, repairs damaged skin.
Natura-Tec Rice Bran Oil – Refined		Oryza Sativa Bran Oil	Regenerates the cutaneous barrier, helps to soothe the skin.
Natura-Tec Rose Hip Oil – Refined		Rosa Moschata Seed Oil	Regeneration of skin cells and damaged tissues. Extremely rich in omega 3 and 6.
Natura-Tec Sapote Oil		Pouteria Sapota Seed Oil	Has protective properties, improves skin tolerance. Stimulates hair growth and acts on slowing hair loss.
Natura-Tec Satin Oil		Carthamus Tinctorius Seed Oil (and) Crambe Abyssinica Seed Oil	100% cold press vegetable combination, provides an ultra-light velvety and non-greasy after feel.
Natura-Tec Safflower Oil – Refined		Carthamus Tinctorius Seed Oil	Mainly composed of omega 6 it is adapted to the treatment of dry and very dry skins.
Natura-Tec Sesame Oil – Refined		Sesamum Indicum Seed Oil	Rich in polyunsaturated fatty acids and antioxidant. Has protective properties.
Natura-Tec Soybean Oil – Refined		Glycine Soja Oil	Presents skin regenerating, restructuring and moisturizing properties.
Natura-Tec Sunflower Oil – Refined		Helianthus Annuus Seed Oil	Forms a rich film on the skin that helps to nourish and rehydrate the epidermis.
Natura-Tec Sweet Almond Oil – Refined		Prunus Amygdalus Dulcis Oil	Moisturizing, nourishing and soothing properties.
Natura-Tec Sweet Almond Oil – Ph Eu VIII Ed	PHARMA GRADE		
Natura-Tec Veg Mink Oil		Macadamia Ternifolia Seed Oil (and) Gossypium Herbaceum Seed Oil (and) Squalane	Reproduces the luxurious skin feel of animal Mink oil. Prevents dryness and the loss of elasticity.
Natura-Tec Walnut Oil – Refined		Juglans Regia Seed Oil	Rich in omega 3, contributes to skin health.
Natura-Tec Wheat Germ Oil – Refined		Triticum Vulgare Germ Oil	Highly concentrated in omega 6, it confers good moisturizing and cell regenerating properties.

FOOD GRADE VEGETABLE OILS

Product name	Status	INCI	Characteristics
Natura-Tec Avocado Oil – FG		Persea Gratissima Oil	Provides protection against UV damage and ageing. Reinforces the barrier function of the skin.
Natura-Tec Hazelnut Oil – FG	 	Corylus Avellana Seed Oil	Provides a very light touch to formulations.
Natura-Tec Sweet Almond Oil – FG		Prunus Amygdalus Dulcis Oil	Moisturizing, nourishing and soothing properties.

ESTERS

Product name	Status	INCI	Characteristics
Natura-Tec Ultrafeel™ AB		C12-15 Alkyl Benzoate	Liquid, UV filter solubilizer, light and dry feel.
Natura-Tec Ultrafeel™ AL		C12-15 Alkyl Lactate	Emollient with moisturizing properties, it provides a non-oily lubricating thin film.
Natura-Tec Ultrafeel™ CEH		Cetyl Ethylhexanoate	Synthetic, pale yellow liquid.
Natura-Tec Ultrafeel™ CP		Cetyl Palmitate	Solid from vegetable origin, increases the viscosity, dry non greasy feel, result in dense white emulsions.
Natura-Tec Ultrafeel™ DDA		Diisodecyl Adipate	Colorless liquid, plasticizer, skin conditioning agent.
Natura-Tec Ultrafeel™ DEHA		Diethylhexyl Adipate	Creates a thin, non-greasy film. Smooths the skin. Non irritant, non toxic.
Natura-Tec Ultrafeel™ DO		Decyl Oleate	Solvent from vegetable origin, for chemical and physical sunscreens.
Natura-Tec Ultrafeel™ EHO		Ethylhexyl Oleate	Emollient, lubricant, recommended in aerosol products. Ability to reduce the greasy feel.
Natura-Tec Ultrafeel™ IBS		Isobutyl Stearate	Used in formulation containing mineral oil to impart good slip properties and as wetting agent for pigment.
Natura-Tec Ultrafeel™ ININ		Isononyl Isononanoate	Mild emollient with a conditioning effect and silky feel.
Natura-Tec Ultrafeel™ IPM		Isopropyl Myristate	Good spreading, non occlusive. Used in the formulation of perfumes and colognes, bathproducts, aftershave lotions and skin fresheners.
Natura-Tec Ultrafeel™ IPP		Isopropyl Palmitate	Good spreading, non occlusive. Solvents/diluents for cosmetic and fragrance agents.
Natura-Tec Ultrafeel™ ISIS 10-15		Isostearyl Isostearate	Plant-derived, emollient, skin conditioning.
Natura-Tec Ultrafeel™ MCT		Caprylic/Capric triglycerides	Light, non greasy for massage or bath oils. Good vegetable solvent for chemical and wetting agent for physical sunscreens.
Natura-Tec Ultrafeel™ OC		Ethylhexyl Cocoate	Light feel with very good spreading properties.
Natura-Tec Ultrafeel™ OP		Ethylhexyl Palmitate	Carrying agent, pigment wetting agent, fragrance fixative and emollient. Its dry-slip skinfeel is similar to some silicone derivatives.
Natura-Tec Ultrafeel™ OS		Ethylhexyl Stearate	Used in formulation containing mineral oil to impart good slip properties and as wetting agent for pigments.
Natura-Tec Ultrafeel™ PSCM		Ethylhexyl Palmitate (and) Ethylhexyl Stearate (and) Ethylhexyl Cocoate (and) Isopropyl Myristate	Pigment wetting agent, carrying and spreading agent, good slip properties.
Natura-Tec Ultrafeel™ T		Triolein	Emollient from vegetable origin with protective conditioning properties.
Natura-Tec Ultrafeel™ TL		Isotridecyl Laurate	Hair conditioning agent, skin conditioning agent, film forming.
Natura-Tec Ultrafeel™ TO		Isotridecyl Oleate	Emollient recommended for make-up and make-up removers.
Natura-Tec Ultrafeel™ TS		Isotridecyl Stearate	Skin conditioning agent.

HUMECTANT

Product name	Status	INCI	Characteristics
Natura-Tec Glycerin – Organic		Glycerin	Natural humectant. Helps to keep the skin's natural barrier intact. Moisturizes and prevents dryness.

VEGETABLE EXTRACTS

Product name	INCI	Plant extracts	Characteristics
Natura-Tec Water PE Extracts	"Plant Water Extract"	Cabbage Rose Calendula Chamomile Green Tea Hamamelis Lavender Linden Flower Oat Orange Blossom Rose Verbena White Tea	Astringent, Masking, Tonic Soothing, Antiseptic, Anti-inflammatory Soothing, Anti-inflammatory, Refreshing Tonic, Cleansing Astringent, Tonic, Cleansing, Soothing Refreshing, Soothing Soothing, Astringent, Refreshing Moisturizing, Antioxidant Astringent, Anti-wrinkle, Antioxidant Astringent, Tonic Astringent Anti-ageing, Antioxidant, Soothing
