A&E Color Card Disclaimer. American & Efid is providing this color card for your convenience. This color card is not a warranty and in no way shall create any legal obligation on the part of American & Efid.

As the conditions of use, washing, dry cleaning, other refurbishing, pressing, pre-washing, oven and other curing technics, etc. are beyond our control, the purchaser and/or user of the thread should determine if the character of the dye and the specific type and size of the thread selected is suitable for the purpose for which it is intended. In addition, color samples displayed are representative of thread produced without bond and without finish. Bond application darkens the original dyed shade and decreases luster. Most sewing threads are lubricated to enhance sewability. This finish application deepens the color and may cause shades to darken depending on percentage applied. Pre-lubricated thread will appear darker than swatches displayed on this card. Lighter shades are affected less than darker shades. During sewing some lubrication is removed and will sew in lighter than originally received. It is the responsibility of the purchaser and/or user to appraise the thread and assure themselves that it is the proper character of dye, thread type, size, etc. for the proposed application. American & Efid does not assume responsibility for any damages arising from your use or reliance on this color card.

Sunstop disclaimer. American & Efid is providing this colour card for your convenience. This colour card is not a warranty and in no way shall create any legal obligation or liability on the part of American & Efid.

As the conditions of use, washing, processing, handling, storage, refurbishing, sewing, etc. are beyond our control, the purchaser and/or user of the thread should determine if SunStop is suitable for the purpose for which it is intended. It is the responsibility of the purchaser and/or user to appraise the thread and assure themselves that it is suitable for the proposed application. American & Efid makes no warranty as to SunStop, including any representation about durability of SunStop from exposure to sunlight, weather, rot, mildew, water, processing, handling, storage, cuts, fires or high temperature exposure.
