

Armored Land Rover Discovery L462 SE SDV6 3.0L AWD in CEN B6

PRESS-RELEASE

Armored Land Rover Discovery L462 SE SDV6 3.0L AWD in CEN B6

The all-new Police undercover armored SUV is based on the Land Rover Discovery 5th generation L462 SE SDV6 3.0L AWD has been developed, engineered and manufactured for Police special forces specially. No doubt that this SUV is one of the most perfect and suitable middle size SUVs with a sport character for this purpose. Therefore there are not a deep changes to technical and dynamic characteristics of the converted vehicle inspite of the increased weight after an armoring.

All original SUV's mechanicals are mostly unchanged during conversion except specially re-engineered suspension and brake system elements to transport an increased weight and armed crew.

The all-new discreetly armored SUV has identical appearance to keep confidentiality and doesn't stand out the general traffic flow while driving through the streets. In the body construction principal changes were made inside: There the seats layout 2+2: 2 individual seats in front and two 360 degrees swivel seats in rear for special tactical purposes of anti-terror units during the operations. All interior dimensions are almost as the standard serial Land Rover Discovery L462 excluding luggage compartment volume due to fixed armored bulkhead with door and window for special purposes.

The rear split seats are replaced: sporty style 360 degrees swivel seats for special forces armed fighters. There is an option of roof integrated escape hatch with two manually openable covers. Also there a wide range of included security features as standard and many of them as extra options on request. All four doors are fitted with electrically operable windows (15cm) included into standard armoring package. The vehicle passenger compartment on perimeter is armored up to CEN B6 in accordance to European standards DIN EN 1063 (BR) и DIN EN 1522/1523 (FB) and VR7 in accordance to European directive VPAM PM 2007! The floor and roof are protected against a different weapon ammunitions and blasts. The protection is made with the latest generation of certified ballistic opaque and transparent materials. Armored SUV is offered is traditional armoring package, which includes: 20" four Run-Flat tyre system, two-ways Intercom system for inside/outside communication, fuel tank protection, heavy-duty door hinges etc. The vehicle shown on photos has SE package and fitted by Sd6 3.0L V6 Turbodiesel engine, 306hp. The armored vehicle could be ordered with both Diesel and Petrol engines and different packages on request. The manufacturer provides all warranty and post-warranty maintenance and other services including the option of our teams deployment.
