Est. 1972

WITH THE ACQUISITION OF THE FISCHER TENNIS & RACKET DIVISION, a new union was created becoming one brand: PACIFIC. Introduced late in 2009, PACIFIC has expanded and evolved into a complete tennis product company.

The esteemed FISCHER TECHNOLOGY, long associated as a global leader in racket innovations, joins together with the equally renowned PACIFIC TECHNOLOGY. Now combined, they bring more than 70 years of cutting-edge & technical know-how in the design/development and manufacturing of racket sports equipment.

The addition of successful and proven FISCHER TECHNOLOGY is incorporated into the new PACIFIC Racket Line, assuring the continuation of quality and innovative design. A unique production process, aggressive investments into additional new research & development, German engineering and the heritage of established quality products are the foundation for continued future successes.

A FAMILY OWNED & OPERATED GERMAN COMPANY

Beginning officially in 1972, they have become the world's leading brand in the developing and manufacturing of racket sports products. Company owned production facilities from Germany (Hochdorf) to New Zealand (Mānaia/Taranaki) are the key reasons that PACIFIC leads the way in producing the highest-quality strings for all racket sports. Being the official ATP partner in 2007 - 2012 for strings, grips and stringing service, PACIFIC continues its active presence at numerous ATP World Tour events assisting the professional players, as well as gaining feedback from the world's best players to better assist us with continuing to be the leading company in the development of new product innovations.

ON SITE STRINGING SERVICE

PACIFIC support Staff attend nearly every ATP World Tour Event – from organizing official distribution of Products, to serving as an event's 'Official Stringing Service'. The focus is always on professionally taking care of the numerous and often unique needs of the players. Flexibility is key - a working day has no common hours – as we proudly perform the duties being one of the industry's leading product manufacturer.

COMPLETE TENNIS AND RACKET SPORTS BRAND

Now with our vision and efforts to become a complete tennis and racket sports brand a reality, the next steps are to introduce this message worldwide. Aggressive major investments into new R&D Projects, a continued focus on manufacturing only the highest-quality goods, detailed technical service & dedicated support services to all levels of players, will quickly launch PACIFIC into the leading brand for racket sports.

The PACIFIC focus: **#1 in Performance**

THE NEXT GENERATION OF BASALT FIBERS

THE NEXT GENERATION OF BASALT FIBERS.

While nature is constantly evolving and changing, the elements of the earth remain consistent and reliable resources. Basalt fibers have been used since the late 1940's. While originally 'crude' in their applications, they were recognized as having amazing potential in enhancing products.

THIS NEW AND NEXT GENERATION DELIVERS:

20%

lighter in overall fiber weight

30%

more basalt fibers within the same material

28%

stronger

20%

more vibration damping

Evolution is defined as: "A positive growing in development ..." Thus, Basalt fibers have evolved! Today, they are being used in highly technical products from aerospace to tennis rackets, proving their versatility and benefits in numerous applications.

ASA-TEC, the leader in basalt fiber production, together with PACIFIC, have developed the next generation of basalt fibers, called: BXT™

TOUR PROFESSIONAL TOURNAMENT SERIES

X FORCE SERIES

THE ESTABLISHED X FORCE SERIES means performance at the highest level of competition. The Racket Series favored by touring professionals – available to everyone. The X Force Series features rackets focused at players with established techniques seeking greater 'feel' and accuracy. The technical variations between models offered in the X Force Series, makes it easy for any serious players to find their own personal racket.

ON TOUR

TO PERFORM YOUR BEST, a player must first start with proper preparation. The esteemed heritage of PACIFIC Service know-how combined with top-quality Products, delivers the best in performance to any level of player.

PACIFIC - the complete Brand delivering performance perfection to everyone.

Item No.:	PC-0065-15	Headsize:	98 sq. in.
Length:	685 mm	Weight:	320 g
Balance:	310 mm	Frameheight:	25/23/20
Grip:	2-5	String Pattern:	16/20
Stiffness:	63	SSI:	6.6

THE TOURNAMENT RACKET FOR PROFESSIONALS

The 320-gram racket designed for the professional level delivering maximum power and precise control. BasaltX[®] is used in strategic important areas for more dampening and a perfect feel. ZERO Tolerance[™] by PACIFIC guarantees the highest precision and quality during the manufacturing production by using the patented and unique Fischer Vacuum Process. The Patented Speed++Zone[™] System also increases maneuverability and delivers improved ball speed.

Item No.:	PC-0067-15	Headsize:	98 sq. in.
Length:	685 mm	Weight:	295 g
Balance:	325 mm	Frameheight:	25/23/20
Grip:	1-5	String Pattern:	16/20
Stiffness:	63	SSI:	6.2

THE TOURNAMENT RACKET

The racket focused on the tournament level player. Technically/visually similar to the: X Force[®] Pro[™] model, yet weighing in at a lighter 295-grams for added maneuverability.

Item No.:	PC-0072-15	Headsize:	98 sq. in.
Length:	685 mm	Weight:	305 g
Balance:	315 mm	Frameheight:	25/23/20
Grip:	2-5	String Pattern:	16/20
Stiffness:	64	SSI:	6.2

A PROVEN FAVORITE ON THE PROFESSIONAL TOUR

Boasting the heritage of numerous Grand Slam Titles to its credit. Ageless in design - the new PRO No.1 welcomes the return to start another chapter of proven success. The personal racket choice of: Marcos Baghdatis.

Item No.:	PC-0074-15	Headsize:	98 sq. in.
Length:	685 mm	Weight:	270 g
Balance:	325 mm	Frameheight:	25/23/20
Grip:	1-4	String Pattern:	16/20
Stiffness:	62	SSI:	5.5

252 LT

Equally serious as the PRO No.1 yet with more maneuverable lighter weight - making the LT version a savvy option without sacrificing the proven performance of this exclusive (frame) design.

PROFESSIONAL PERFORMANCE

PACIFIC TENNIS – INTRODUCING A PERFORMANCE RACKET

for today's serious tournament players - X Tour PRO 97 delivers just that and does so with attitude!

DEVELOPED TOGETHER WITH THE ASSISTANCE OF ACTUAL TOUR PLAYERS, the X Tour PRO.97 focuses on providing less outwardly cosmetic 'frills' – instead, constructed & 'tuned' for more playing performance 'thrills'!

Clearly a no-nonsense approach aimed at bringing to the serious player, a greater chance for tournament level success.

X TOUR PRO 97

THE X TOUR PRO 97

Built on the successful heritage associated with Fischer Technologies, combined with today's efforts of the PACIFIC Tennis Design & Development Team, a serious new player frame has been created!

Standard in overall length, head-light in balance – designed with a stiffer feel to guarantee maximum controlled power.

P3S

Item No.:	PC-0056-15	Headsize:	97 sq. in.
Length:	685 mm	Weight:	315 g
Balance:	310 mm	Frameheight:	21/21/22
Grip:	1-5	String Pattern:	16/20
Stiffness:	64	SSI:	6.6

Precise Grip System

High Tech Injection Molding

Unlike all Competitors using low density & cost effective foam-molded handles, the PGS System insures that every Racket Handle is 80% stronger than foam, plus being exact in all actual size dimensions.

Exact
Handle Size

Exact
Weight

Absolutely no shrinkage or deformation

Thanks to the most accurate & costly production process possible, PACIFIC takes the lead with creating PGS.

Precise Grip System Inside

Look for the PGS logo the mark of perfection & top-quality!

Guaranteed to provide you with the precise, exact grip size & feel.

Only from PACIFIC

X FAST SERIES

THE PROVEN FAST PERFORMER

Recently updated X FAST PRO continues to be the trend leader among today aggressive player. The newly crowned "Test Winner" by GER Tennis Mag, (January 2015) proves this racket has earned a place among the most elite players. Anyone eager to advance his or her own game to the next level can do so with X Fast PRO.

F.A.S.T.

FULL ACCELERATION SHAFT TECHNOLOGY

As the frame geometry transitions upwards from the shaft/throat, a reduction in the 'rounder' cross-section adds the 'cupping' of the ball on the string-bed required to hit with maximum and 'heavy' spin.

PACIFIC XFAST TOUR RACKET LINE

XFAST^{PRO}

PRO
310 g

Item No.	PC-0060-17

Length	685 mm	Grip	0-3
Weight	260 g	String Pattern	16/19
Balance	335 mm	Stiffness	68

Based upon the global success of current X FAST rackets, PACIFIC now adds an ultralight version. Focused at those players either transitioning from a junior racket, or the adult player seeking an extremely lightweight racket for exceptional maneuverability.

XFAST^{TEAM PRO JR}

TEAM PRO JR
245 g

Item No.	PC-0146-15		
Headsize	98 sq.in.	Frameheight	22
Length	680 mm	Grip	0-1
Weight	245 g	String Pattern	16/20
Balance	320 mm	Stiffness	59

The junior version of the X Fast PRO - developed exclusively for the aggressive hard-hitting younger player seeking all the performance benefits of the adult version.

TOURNAMENT TEAM PLAYERS

THE RACKET SERIES DEVELOPED WITH THE FOCUS TO BE ON THE AMBITIOUS CLUB AND TOURNAMENT TEAM PLAYERS. Designed with the successful, and proven FISCHER TECHNOLOGY™. Bringing together more power with greater control, and maximum comfort. The newly developed and exclusive BasaltX® Technology is strategically incorporated for perfect control. The Speed++Zone™ System optimizes ball speed. The Patented Air Damping™ Grip System delivers optimum damping and provides maximum comfort. In this Series ambitious Club and tournament players looking for a professional racket, will find it easy to select their perfect model.

HIGH PERFORMANCE TOURNAMENT SERIES

TO PLAY YOUR BEST

at any level requires quality equipment – products focused in design to enhance your abilities and provide added enjoyment while competing. Together with enhanced designs, exclusive technologies like: SpeedZone, AirDamp, PSS, add forgiveness with additional controllable power and maximizing comfort.

HIGH PERFORMANCE TOURNAMENT SERIES

RAPTOR

Item No.:	PC-0114-15	Headsize:	102 sq. in.
Length:	695 mm	Weight:	285 g
Balance:	330 mm	Frameheight:	24
Grip:	1-5	String Pattern:	16/19
Stiffness:	67	SSI:	4,9

THE TOURNAMENT RACKET,
YET ALSO WITH AN ENHANCED
FRAME PROFILE FOR EASE OF PLAY!

Energetic and ambitious club players seeking a challenge on the court, now with their equipment will find success with the Raptor. A wider/constant 24mm frame profile delivers excellent stability combined with enhanced comfort & arm protection. A consistent, positive response with added ball speed is also a major benefit. Anyone with an aggressive playing attitude is a Raptor player. Modern high-tech tennis production is at its best and it is spelled: Raptor!

SPEED

Item No.:	PC-0123-15	Headsize:	107 sq. in.
Length:	695 mm	Weight:	275 g
Balance:	340 mm	Frameheight:	25
Grip:	1-5	String Pattern:	16/20
Stiffness:	67	SSI:	4,1

THE NIMBLE &
QUICK VERSATILE RACKET*

Light in weight yet packed with power! This defines the highly maneuverable, yet very comfortable Speed racket. With a larger hitting zone & precision weighting, additional power is achieved. Combined with the patented "Air Damping System" for maximum arm protection. The forgiving PACIFIC Stability System (PSS) increases the sweet spot and reduces instability for off-center hits.

THE PREMIUM RACKET

NEXUS

NEXUS – THE EXCLUSIVE SERIES FOR THE MOST SELECTIVE AND DEMANDING TENNIS PLAYING CONSUMER. This racket features an overly generous sweet spot, is extremely forgiving and provides maximum ball speed with minimal user effort. This ultra-exclusive series finds all of our top-quality technologies incorporated together in creating the ultimate performance possible within an ultra-light weight racket.

Item No.:	PC-0136-17	Headsize:	102 sq. in.
Length:	695 mm	Weight:	260 g
Grip:	1-4	Frameheight:	24
Stiffness:	66	String Pattern:	16/19
	67		

Item No.:	PC-0133-15	Headsize:	118 sq. in.
Length:	705 mm	Weight:	225 g
Balance:	375 mm	Frameheight:	25/27/25
Grip:	1-5	String Pattern:	16/20
Stiffness:	65	SSL:	2.1

NEXUS IS SPECIFICALLY DESIGNED

to be ultra-light in weight, overall longer in length and with an oversized hitting area. The PACIFIC Flagship – Nexus, uses the highest percentage of BasaltX® Fibers to optimize the performance. The patented Air Dampening System reduces shock & vibration, thus assuring maximum arm protection and unmatched comfort. This ultra-light racket provides excellent forgiveness for off-center shots plus effortless power with minimal user effort.

JUNIOR PROFESSIONAL TOURNAMENT SERIES

DEVELOPED TECHNOLOGIES FOR DEVELOPING PLAYERS

Quality and performance are as equally important to younger players as to the tour professional. Having the best racket suited for their current ability, will help them to advance faster to the next level. Tomorrow's champions are being created today.

ON THE WAY TO THE TOP

TECHNOLOGY FOR BEGINNING PLAYERS combined in a 'cool' and trendy package. Look your best, play your best!

A younger player doesn't need a racket that is just a lighter & shorter version - they need equipment specifically designed for their needs of today. X Force Team and Finesse Team, are rackets created exclusively to best suit the performance of the younger player – allowing them to improve their game today with the focus to become tomorrow's serious adult player. Comfort, arm-protection, and easy of play are the main design functions found in these models.

Item No.:	PC-0144-15	Headsize:	98 sq. in.
Length:	660 mm	Weight:	245 g
Balance:	320 mm	Frameheight:	22
Grip:	0-1	String Pattern:	16/20
Stiffness:	60		

THE JUNIOR TOURNAMENT RACKET

A professional racket developed for up & coming junior players. Designed with the same technologies found in the X Force™ tournament racket - differing only with being shorter in length, and lighter in weight - perfectly meeting the needs of the younger/smaller player. The X Force Team 1.45 is the perfect racket for those serious younger players who are not quite ready for a full sized adult racket, but demand the same quality and performance found in the adult version.

Item No.:	PC-0146-17	Headsize:	98 sq. in.
Length:	660 mm	Weight:	245 g
Balance:	320 mm	Frameheight:	22
Grip:	0-1	String Pattern:	16/20
Stiffness:	59		

SERIOUS PERFORMANCE WITH F.A.S.T. ATTITUDE!

The junior version of the X Fast PRO - developed exclusively for the aggressive hard-hitting younger player seeking all the performance benefits of the adult version.

STAGE 1 130-140cm

Item No.:	PC-0153	Headsize:	98 sq. in.
Length:	635 mm	Weight:	232 g
Balance:	295 mm		

THE QUALITY KIDS RACKETS

PACIFIC introduces a quality racket line specifically designed with a youthful & fun focus. This unique racket range consists of: Stage #1 (1.35), #2 (1.25) and #3 (1.15). Each of these unique rackets have been specifically designed. To complete the ease of play, PACIFIC is helping kids to really enjoy tennis with special (ITF approved) tennis balls, each being color-coded to the differing stage model's ball compression! All PACIFIC junior and youth racket lines are designed with Fischer Racket Technology, delivering the performance characteristics and proven learning concepts as designed under the: ITF "PLAY + STAY" Tennis Teaching Philosophy.

STAGE 2 120-130cm

Item No.:	PC-0154	Headsize:	94 sq. in.
Length:	590 mm	Weight:	215 g
Balance:	265 mm

THE ENGINE OF THE RACKETS

To receive maximum performance from any racket, quality and correctly selected strings are the #1 most important decision every player makes. The driving force behind your game comes directly from the strings – they are the 'engine' required for success.

Like any engine, proper care & service are required. PACIFIC recommends that you restring your racket after every 30-hours of play, or at least 3-times per year. Talk with a specialist to learn more about how important proper racket maintenance is.

TENNIS STRINGS

NATURALGUT

Maximum ball-pocket depth helps retain more of the ball's incoming energy due to the ball retaining more of its original shape.

MULTI-FIBER

Deep ball-pocket for power but not as efficient as Gut - ball is 'flatter' thus, losing more energy than Gut.

SOLID CORE

Commonly referred to as: 'synthetic-gut'. The core with outer-wraps, returns less energy to the ball.

POLYESTER

A longer 'dwell-time' (time ball is on the strings) creates maximum 'flattening' of the ball for more control. Energy return is less – allowing Players to use stiffer more powerful racquets for today's game.

NATURAL GUT

PROVIDING MAXIMUM ENERGY RETURN, enhanced feel, and overall performance that is only available with a Natural Gut String, PACIFIC remains the worldwide leader in the precise manufacturing of premium Natural Gut Strings. Exclusive Technologies combined with superior craftsmanship, continue to make PACIFIC the #1 Rated Natural Gut String as voted on by the USRSA.

 **MADE IN NEW ZEALAND**
since 1972

TOURNAMENT PRO™ CLASSIC GUT

As its name implies, Classic Gut brings the classic 'feel' and 'performance' of yesteryear Natural Gut. Combined together with today's manufacturing technology - delivering a high-quality Natural Gut string at a very competitive price.

HYBRID STRINGS

PACIFIC IS KNOWN FOR INVENTING HYBRID STRING COMBINATIONS.

Hybrid stringing consists of using different strings in the main and cross strings of a racket.

Hybrid strings are gaining more & more popularity as players are looking for best characteristics of varying string qualities. By selecting different hybrid combinations of string, players can fine-tune the playability, comfort, durability, liveliness and control offered by the stringbed. For example, a hybrid string combination could use a durable string in the mains (e.g. polyester), while a natural gut or elastic synthetic string could be used in the cross strings to provide desired comfort and feel.

POLY GUT™ BLEND

Focused on playability, delivering the best of both worlds. Combining the benefits of natural gut and the performance of polyester. Poly Gut Blend offers a unique combination of 'power', 'control' and added durability. The #1 most popular string combination found in today's professional tennis.

NXSTM SUPREME

NXSTM SUPREME

A premium multifiber string where speed & comfort are equally combined. Using a unique technology that incorporates more than 1,200 technical fibers joined together by using a new resin that both bonds the fibers, as well as adds additional shock & vibration dampening. A new outer coating is bonded to the string resisting friction & abrasion.

X CITE™

The FAST string! Thanks to a new material developed exclusively by PACIFIC called PolyCite. Unlike other monofilament strings that have only a liner/single molecular chain to equally support the energy in and energy out, PolyCite molecules are arranged in a multi-dimensional chain whereas upon ball impact, some molecules are receiving the energy and others are storing it, resulting in 25% greater energy returned to the ball. Optimal spin potential is an added bonus and the tension maintenance is unmatched.

RACKET GRIPS

BASIC GRIPS

Often called "Replacement or, Main Grips" they are the direct connection between you and the racket handle. Responsible for moisture absorption, as well as shock/vibration reduction, the proper selection and care of this grip equals the importance of proper strings. There are numerous styles available – all designed with special technologies to satisfy any individual preference.

OVER GRIPS

The most popular accessory for rackets today. With easy installation, the ability to add a new or unique feeling to any racket is quickly achieved. Durability is not the focus of an over grip – they should be replaced frequently to offer their best performance.

THE GRIP IS YOUR CONNECTION

RACKET PERFORMANCE BEGINS WITH THE CONNECTION TO THE RACKET.

With more than 40+ years of experience, PACIFIC continues to lead the way in racket sport grips. Innovative, quality, and with the most diverse selection available, makes it the logical choice for any player. From a wide selection of main (base) grips, to the numerous offerings of (over) grips – PACIFIC has the perfect grip for you!

NXSTM PRIME

THE ULTIMATE PREMIUM REPLACEMENT GRIP providing superb moisture absorption and excellent damping comfort. Designed in classy fashion reflecting the highest standards of PACIFIC's NXS Concept.

Color
black ● 1 pc. pack
PC-3250.00.12

SUPREME GRIPTM, 1.80 mm

Ultimate moisture absorption with fast drying thanks to the perforated design and quality PU materials used. Supreme Grip is generously long in length to fit any racket and with an extra 'tacky' feel, assures long-life and top performance.

PRO LEATHER GRIPTM, 1.50 mm

Made from the finest CALFSKIN leather and using a new proprietary tanning process, this traditional PACIFIC grip continues the tradition of presenting players with the finest quality premium leather grip. Extra tacky for excellent grip. Extra long to fit all demands.

Color 1 pc. pack
brown ● PC-3031.00.06
black ● PC-3031.00.12

X DUOTM FEEL, 1.80 mm

Leather is the name given to treated animal skin, most common to originate from cows. Since leather is originally and still is 'skin', it has pores that retain most all of the original properties of when it was living skin. X Duo FeelTM unites the best of natural & synthetic materials to create a grip without compare in feel or performance!

Color 1 pc. pack
white ○ PC-3240.00.11
black ● PC-3240.00.12

X DUOTM COMFORT, 2.10 mm

A new technically superior foam material that is exclusively manufactured with 'Capillary Cell Construction' (CCC), is strategically designed like a sponge. The top of the grip is a top-grade PU covering that remains 'tacky' and with a consistent feel. The base-foam material 'wicks' away and absorbs the moisture - together these 2-new materials work efficiently as a DUO.

Color 1 pc. pack
white ○ PC-3245.00.11
