Est. 1972

WITH THE ACQUISITION OF THE FISCHER TENNIS & RACKET DIVISION, a new union was created becoming one brand: PACIFIC. Introduced late in 2009, PACIFIC has expanded and evolved into a complete tennis product company.

The esteemed FISCHER TECHNOLOGY, long associated as a global leader in racket innovations, joins together with the equally renowned PACIFIC TECHNOLOGY. Now combined, they bring more than 70 years of cutting-edge & technical know-how in the design/development and manufacturing of racket sports equipment.

The addition of successful and proven FISCHER TECHNOLOGY is incorporated into the new PACIFIC Racket Line, assuring the continuation of quality and innovative design. A unique production process, aggressive investments into additional new research & development, German engineering and the heritage of established quality products are the foundation for continued future successes.

A FAMILY OWNED & OPERATED GERMAN COMPANY

Beginning officially in 1972, they have become the world's leading brand in the developing and manufacturing of racket sports products. Company owned production facilities from Germany (Hochdorf) to New Zealand (Manaiia/Taranaki) are the key reasons that PACIFIC leads the way in producing the highest-quality strings for all racket sports. Being the official ATP partner in 2007 - 2012 for strings, grips and stringing service, PACIFIC continues its active presence at numerous ATP World Tour events assisting the professional players, as well as gaining feedback from the world's best players to better assist us with continuing to be the leading company in the development of new product innovations.

ON SITE STRINGING SERVICE

PACIFIC support Staff attend nearly every ATP World Tour Event – from organizing official distribution of Products, to serving as an event's 'Official Stringing Service'. The focus is always on professionally taking care of the numerous and often unique needs of the players. Flexibility is key - a working day has no common hours – as we proudly perform the duties being one of the industry's leading product manufacturer.

COMPLETE TENNIS AND RACKET SPORTS BRAND

Now with our vision and efforts to become a complete tennis and racket sports brand a reality, the next steps are to introduce this message worldwide. Aggressive major investments into new R&D Projects, a continued focus on manufacturing only the highest-quality goods, detailed technical service & dedicated support services to all levels of players, will quickly launch PACIFIC into the leading brand for racket sports.

The PACIFIC focus: **#1 in Performance**

THE NEXT GENERATION OF BASALT FIBERS

THE NEXT GENERATION OF BASALT FIBERS.

While nature is constantly evolving and changing, the elements of the earth remain consistent and reliable resources. Basalt fibers have been used since the late 1940's. While originally 'crude' in their applications, they were recognized as having amazing potential in enhancing products.

THIS NEW AND NEXT GENERATION DELIVERS:

lighter in overall
fiber weight

more basalt fibers within
the same material

stronger

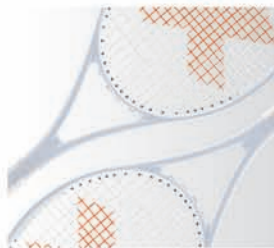

more vibration
damping

Evolution is defined as: "A positive growing in development ...". Thus, Basalt fibers have evolved! Today, they are being used in highly technical products from aerospace to tennis rackets, proving their versatility and benefits in numerous applications.

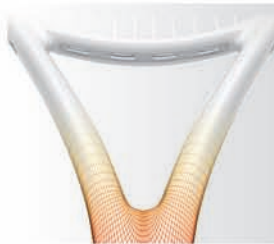

ASA-TEC, the leader in basalt fiber production, together with PACIFIC, have developed the next generation of basalt fibers, called: BXT™

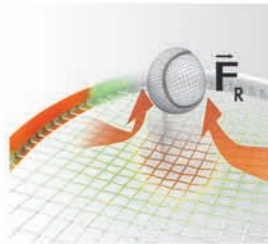

Assured highest quality and precision thanks to exclusive modern production processes, one example being: "Vacuum Technology"® for zero tolerance in production. This guarantees 100% the same and consistently produced rackets, delivering to you and your game perfect precision in racket specifications & racket quality.

ON TOUR

TO PERFORM YOUR BEST,

a player must first start with proper preparation. The esteemed heritage of PACIFIC Service know-how combined with top-quality Products, delivers the best in performance to any level of player.

PACIFIC - the complete Brand delivering performance perfection to everyone.

X FORCE SERIES

THE ESTABLISHED X FORCE SERIES

means performance at the highest level of competition. The Racket Series favored by touring professionals – available to everyone. The X Force Series features rackets focused at players with established techniques seeking greater ‘feel’ and accuracy. The technical variations between models offered in the X Force Series, makes it easy for any serious players to find their own personal racket.

Item No.:	PC-0065-15	Headsize:	98 sq. in.
Length:	685 mm	Weight:	320 g
Balance:	310 mm	Frameheight:	25/23/20
Grip:	2-5	String Pattern:	16/20
Stiffness:	63	SSI:	6.6

THE TOURNAMENT RACKET FOR PROFESSIONALS

The 320-gram racket designed for the professional level delivering maximum power and precise control. BasaltX® is used in strategic important areas for more dampening and a perfect feel. ZERO Tolerance™ by PACIFIC guarantees the highest precision and quality during the manufacturing production by using the patented and unique Fischer Vacuum Process. The Patented Speed++Zone™ System also increases maneuverability and delivers improved ball speed.

Item No.:	PC-0067-15	Headsize:	98 sq. in.
Length:	685 mm	Weight:	295 g
Balance:	325 mm	Frameheight:	25/23/20
Grip:	1-5	String Pattern:	16/20
Stiffness:	63	SSI:	6.2

THE TOURNAMENT RACKET

The racket focused on the tournament level player. Technically/visually similar to the: X Force® Pro™ model, yet weighing in at a lighter 295-grams for added maneuverability.

Item No.:	PC-0072-15	Headsize:	98 sq. in.
Length:	685 mm	Weight:	305 g
Balance:	315 mm	Frameheight:	25/23/20
Grip:	2-5	String Pattern:	16/20
Stiffness:	64	SSI:	6.2

**A PROVEN FAVORITE ON
THE PROFESSIONAL TOUR**

Boasting the heritage of numerous Grand Slam Titles to its credit. Ageless in design - the new PRO No.1 welcomes the return to start another chapter of proven success. The personal racket choice of: Marcos Baghdatis.

Item No.:	PC-0074-15	Headsize:	98 sq. in.
Length:	685 mm	Weight:	270 g
Balance:	325 mm	Frameheight:	25/23/20
Grip:	1-4	String Pattern:	16/20
Stiffness:	62	SSI:	5.5

252 LT

Equally serious as the PRO No.1 yet with more maneuverable lighter weight – making the LT version a savvy option without sacrificing the proven performance of this exclusive (frame) design.

PROFESSIONAL PERFORMANCE

PACIFIC TENNIS – INTRODUCING A PERFORMANCE RACKET

for today's serious tournament players - X Tour PRO.97 delivers just that and does so with attitude!

DEVELOPED TOGETHER WITH THE ASSISTANCE OF ACTUAL TOUR PLAYERS, the X Tour PRO.97 focuses on providing less outwardly cosmetic 'frills' – instead, constructed & 'tuned' for more playing performance 'thrills'! Clearly a no-nonsense approach aimed at bringing to the serious player, a greater chance for tournament level success.

NEW

X TOUR 97

THE X TOUR 97

Built on the successful heritage associated with Fischer Technologies, combined with today's efforts of the PACIFIC Tennis Design & Development Team, a serious new player frame has been created!

Standard in overall length, head-light in balance – designed with a stiffer feel to guarantee maximum controlled power.

Item No.:	PC-0056-15	Headsize:	97 sq. in.
Length:	685 mm	Weight:	315 g
Balance:	310 mm	Frameheight:	21/21/22
Grip:	1-5	String Pattern:	16/20
Stiffness:	64	SSI:	6.6

F.A.S.T.

FULL ACCELERATION SHAFT TECHNOLOGY

As the frame geometry transitions upwards from the shaft/throat, a reduction in the 'rounder' cross-section adds the 'cupping' of the ball on the string-bed required to hit with maximum and 'heavy' spin.

X FAST SERIES

THE PROVEN FAST PERFORMER

Recently updated X FAST PRO continues to be the trend leader among today aggressive player. The newly crowned "Test Winner" by GER Tennis Mag, (January 2015) proves this racket has earned a place among the most elite players. Anyone eager to advance his or her own game to the next level can do so with X Fast PRO.

Item No.:	PC-0060-13	Headsize:	100 sq. in.
Length:	695 mm	Weight:	310 g
Balance:	321 mm	Frameheight:	25/23/22
Grip:	1-5	String Pattern:	16/19
Stiffness:	70	SSI:	7.5

THE EASY TOURNAMENT RACKET

PACIFIC continues the Xtremely successful X FAST Pro story by launching the successor model with providing even better characteristics, based on material enhancement of BX2™ fibers. ‘FAST’ is easily defined as: Full A.cceleration S.haft T.echnology. With a strategically constructed ‘rounder’ shaft/throat region, the racket upon instant impact with the ball remains more rigid and stable allowing maximum energy return to the ball.

Item No.:	PC-0062-13	Headsize:	100 sq. in.
Length:	695 mm	Weight:	288 g
Balance:	322 mm	Frameheight:	25/23/22
Grip:	1-4	String Pattern:	16/19
Stiffness:	64	SSI:	7.5

THE ‘AGGRESSIVE & FORGIVING’ – TOURNAMENT RACKET

X Fast LT - based upon the same performance technologies and features of the X Fast Pro – now in a lighter weight version. Providing easier maneuverability with enhanced Power & Control - thanks to the F.A.S.T. Technology. Designed for the player seeking a “quicker” racket for today’s faster Game.

HIGH PERFORMANCE TOURNAMENT SERIES

TO PLAY YOUR BEST

at any level requires quality equipment – products focused in design to enhance your abilities and provide added enjoyment while competing. Together with enhanced designs, exclusive technologies like: SpeedZone, AirDamp, PSS, add forgiveness with additional controllable power and maximizing comfort.

TOURNAMENT TEAM PLAYERS

THE RACKET SERIES DEVELOPED WITH THE FOCUS TO BE ON THE AMBITIOUS CLUB AND TOURNAMENT TEAM PLAYERS. Designed with the successful, and proven FISCHER TECHNOLOGY™. Bringing together more power with greater control, and maximum comfort. The newly developed and exclusive BasaltX® Technology is strategically incorporated for perfect control. The Speed++Zone™ System optimizes ball speed. The Patented Air Damping™ Grip System delivers optimum damping and provides maximum comfort. In this Series ambitious Club and tournament players looking for a professional racket, will find it easy to select their perfect model.

NEW

THE NEW RAPTOR AND SPEED

THE TOURNAMENT RACKET, YET ALSO WITH AN ENHANCED FRAME PROFILE FOR EASE OF PLAY!

Energetic and ambitious club players seeking a challenge on the court, now with their equipment will find success with the Raptor. A wider/constant 24mm frame profile delivers excellent stability combined with enhanced comfort & arm protection. A consistent, positive response with added ball speed is also a major benefit. Anyone with an aggressive playing attitude is a Raptor player. Modern high-tech tennis production is at its best and it is spelled: Raptor!

RAPTOR

Item No.:	PC-0114-15	Headsize:	102 sq. in.
Length:	695 mm	Weight:	285 g
Balance:	330 mm	Frameheight:	24
Grip:	1-5	String Pattern:	16/19
Stiffness:	67	SSI:	4,9

SPEED

Item No.:	PC-0123-15	Headsize:	107 sq. in.
Length:	695 mm	Weight:	275 g
Balance:	340 mm	Frameheight:	25
Grip:	1-5	String Pattern:	16/20
Stiffness:	67	SSI:	4,1

Item No.:	PC-0123-13	Headsize:	107 sq. in.
Length:	695 mm	Weight:	275 g
Balance:	340 mm	Frameheight:	25
Grip:	1-5	String Pattern:	16/20
Stiffness:	67	SSI:	4,1

THE NIMBLE & QUICK VERSATILE RACKET

Light in weight yet packed with power! This defines the highly maneuverable, yet very comfortable Speed racket. With a larger hitting zone & precision weighting, additional power is achieved. Combined with the patented "Air Damping System" for maximum arm protection. The forgiving PACIFIC Stability System (PSS) increases the sweet spot and reduces instability for off-center hits.

Item No.:	PC-0118-13	Headsize:	102 sq. in.
Length:	695 mm	Weight:	235 g
Balance:	370 mm	Frameheight:	24
Grip:	1-4	String Pattern:	16/19
Stiffness:	66	SSI:	4.2

THE SERIOUS YET STYLISH, GENDER-FOCUSED PERFORMANCE RACKET

Attractive and stylish in appearance – however designed with serious performance and ergonomic advantages. Specifically developed for the exact needs of serious women tennis players. The innovative use of BasaltX® Technology allows the Finesse to be one of the lightest rackets ever produced. For added protection to the wrist, elbow and shoulder, the Patented "Air Damping System" completes this stylish 'weapon'. A more ergonomically focused grip shape provides a more comfortable fit for the female user.

HIGH PERFORMANCE PREMIUM SERIES

NEXUS

NEXUS – THE EXCLUSIVE SERIES FOR THE MOST SELECTIVE AND DEMANDING TENNIS PLAYING CONSUMER.

This racket features an overly generous sweet spot, is extremely forgiving and provides maximum ball speed with minimal user effort. This ultra-exclusive series finds all of our top-quality technologies incorporated together in creating the ultimate performance possible within an ultra-light weight racket.

THE PREMIUM RACKET

NEXUS IS SPECIFICALLY DESIGNED to be ultra-light in weight, overall longer in length and with an oversized hitting area. The PACIFIC Flagship – Nexus, uses the highest percentage of BasaltX® Fibers to optimize the performance. The patented Air Dampening System reduces shock & vibration, thus assuring maximum arm protection and unmatched comfort. This ultra-light racket provides excellent forgiveness for off-center shots plus effortless power with minimal user effort.

Item No.:	PC-0133-13	Headsize:	118 sq. in.
Length:	705 mm	Weight:	225 g
Balance:	375 mm	Frameheight:	25/27/25
Grip:	1-5	String Pattern:	16/20
Stiffness:	65	SSI:	2.1

JUNIOR PROFESSIONAL TOURNAMENT SERIES

DEVELOPED TECHNOLOGIES FOR DEVELOPING PLAYERS

Quality and performance are as equally important to younger players as to the tour professional. Having the best racket suited for their current ability, will help them to advance faster to the next level. Tomorrow's champions are being created today.

ON THE WAY TO THE TOP

TECHNOLOGY FOR BEGINNING PLAYERS

combined in a 'cool' and trendy package.

Look your best, play your best!

A younger player doesn't need a racket that is just a lighter & shorter version - they need equipment specifically designed for their needs of today. X Force Team and Finesse Team, are rackets created exclusively to best suit the performance of the younger player – allowing them to improve their game today with the focus to become tomorrow's serious adult player. Comfort, arm-protection, and easy of play are the main design functions found in these models.

JUNIOR PROFESSIONAL TOURNAMENT SERIES

NEW

NEW

Item No.:	PC-0144-15	Headsize:	98 sq. in.
Length:	660 mm	Weight:	245 g
Balance:	320 mm	Frameheight:	22
Grip:	0-1	String Pattern:	16/20
Stiffness:	60		

THE JUNIOR TOURNAMENT RACKET

A professional racket developed for up & coming junior players. Designed with the same technologies found in the X Force™ tournament racket - differing only with being shorter in length, and lighter in weight - perfectly meeting the needs of the younger/smaller player. The X Force Team 1.45 is the perfect racket for those serious younger players who are not quite ready for a full sized adult racket, but demand the same quality and performance found in the adult version.

Item No.:	PC-0146-15	Headsize:	98 sq. in.
Length:	660 mm	Weight:	245 g
Balance:	320 mm	Frameheight:	22
Grip:	0-1	String Pattern:	16/20

SERIOUS PERFORMANCE WITH F.A.S.T. ATTITUDE!

The junior version of the X Fast PRO - developed exclusively for the aggressive hard-hitting younger player seeking all the performance benefits of the adult version. Ample power is provided by the F.A.S.T. Technology, plus with a focus on comfort and greater maneuverability, are the major benefits. The X Fast Team is the perfect racket for younger players not quite ready for an adult sized frame, yet seek the same quality & performance that their game deserves today!

Item No.:	PC-0148-13	Headsize:	102 sq. in.
Length:	670 mm	Weight:	225 g
Balance:	330 mm	Frameheight:	24
Grip:	0-2	String Pattern:	16/19
Stiffness:	67		

THE YOUNG LADIES TOURNAMENT RACKET

Stylish, yet performance packed! Focused towards the needs of serious, smaller lady players. The Finesse Team offers ultra-light weight, and slightly shorter in length, for a premium performance racket best suited for the developing serious young lady players.

THE ENGINE OF THE RACKETS

To receive maximum performance from any racket, quality and correctly selected strings are the #1 most important decision every player makes. The driving force behind your game comes directly from the strings – they are the 'engine' required for success.

Like any engine, proper care & service are required. PACIFIC recommends that you restring your racket after every 30-hours of play, or at least 3-times per year. Talk with a specialist to learn more about how important proper racket maintenance is.

TENNIS STRINGS

NATURALGUT

Maximum ball-pocket depth helps retain more of the ball's incoming energy due to the ball retaining more of its original shape.

MULTI-FIBER

Deep ball-pocket for power but not as efficient as Gut - ball is 'flatter' thus, losing more energy than Gut.

SOLID CORE

Commonly referred to as: 'synthetic-gut'. The core with outer-wraps, returns less energy to the ball.

POLYESTER

A longer 'dwell-time' (time ball is on the strings) creates maximum 'flattening' of the ball for more control. Energy return is less – allowing Players to use stiffer more powerful racquets for today's game.

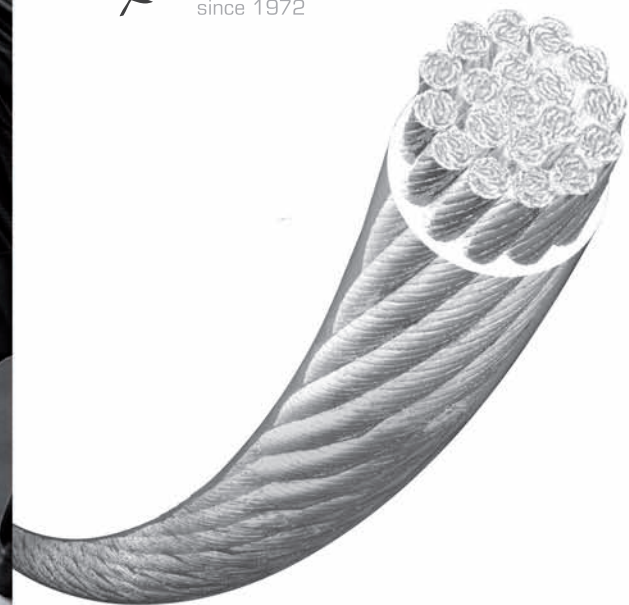

NATURAL GUT

PROVIDING MAXIMUM ENERGY RETURN, enhanced feel, and overall performance that is only available with a Natural Gut String, PACIFIC remains the worldwide leader in the precise manufacturing of premium Natural Gut Strings. Exclusive Technologies combined with superior craftsmanship, continue to make PACIFIC the #1 Rated Natural Gut String as voted on by the USRSA.

MADE IN

HYBRID STRINGS

PACIFIC IS KNOWN FOR INVENTING HYBRID STRING COMBINATIONS.

Hybrid stringing consists of using different strings in the main and cross strings of a racket.

Hybrid strings are gaining more & more popularity as players are looking for best characteristics of varying string qualities. By selecting different hybrid combinations of string, players can fine-tune the playability, comfort, durability, liveliness and control offered by the stringbed. For example, a hybrid string combination could use a durable string in the mains (e.g. polyester), while a natural gut or elastic synthetic string could be used in the cross strings to provide desired comfort and feel.

POLY GUT™ BLEND

Focused on playability, delivering the best of both worlds. Combining the benefits of natural gut and the performance of polyester. Poly Gut Blend offers a unique combination of 'power', 'control' and added durability. The #1 most popular string combination found in today's professional tennis.

MULTI FIBRE STRINGS

WHO BETTER THEN THE NATURAL GUT LEADER PACIFIC

to deliver the best performing multifiber strings! Like natural gut, synthetic multifiber strings rely on combining 'bundles' of independent fibers to deliver maximum comfort and power. The PACIFIC multifiber Series showcases a variety of quality variations – each with their own enhanced performance focus.

With only the best materials used – combined with the knowledge that only PACIFIC can deliver – bringing natural gut like performance more affordable string offerings.

SYNTHETIC TECHNOLOGY

RELYING ON OUR HERITAGE

as a Gut manufacturer, PACIFIC has developed full range of synthetic strings based on their closed to Gut like playing and performance.

Multi Fibre Strings

GET YOUR
SPIN ON

SPIN6™

The new PACIFIC Spin6 textured polyester string provides the ultimate in “spin” – thanks to the unique texture created with ‘Gyration Technology’. This exclusive to PACIFIC manufacturing process, results in unmatched spin-potential resulting in having better placement control, as well as ‘biting’ the ball to the fullest.

BENEFITS:

Actual ‘core’ of string is not compromised (‘stamped’, etc.)

With having a defined / precise twisting along the entire length of the string, consistency in elongation & resiliency is achieved once tensioned is applied

Extremely easy to install – unlike other ‘textured’ strings

Much less friction stress (“burning”) on the racket grommets – as the ‘twist’ is a consistent texture that while being textured, it is not having the excessive friction on the racket grommets as do other textured strings

PERFORMANCE:

Added control – due to the increased ‘bite’ of the ball into the string bed

Added spin – due to an overall increase of area that the string has being ‘twisted’ when contacting the ball

‘twisted’ Spin 6 string provides a greater surface area of contact

String movement is at a minimal – thus more string-to-ball contact is achieved

POLYESTER STRINGS

X CITE™

The FAST string! Thanks to a new material developed exclusively by PACIFIC called PolyCite. Unlike other monofilament strings that have only a liner/single molecular chain to equally support the energy in and energy out, PolyCite molecules are arranged in a multi-dimensional chain whereas upon ball impact, some molecules are receiving the energy and others are storing it, resulting in 25% greater energy returned to the ball. Optimal spin potential is an added bonus and the tension maintenance is unmatched.

THE GRIP IS YOUR CONNECTION

RACKET PERFORMANCE BEGINS WITH THE CONNECTION TO THE RACKET.

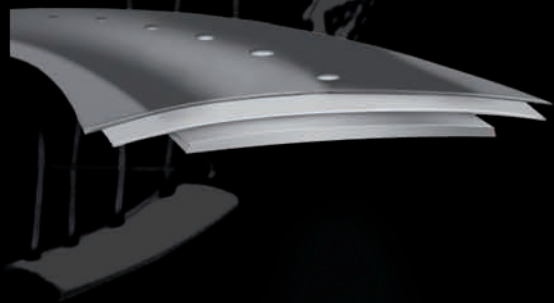

With more than 40+ years of experience, PACIFIC continues to lead the way in racket sport grips. Innovative, quality, and with the most diverse selection available, makes it the logical choice for any player. From a wide selection of main (base) grips, to the numerous offerings of (over) grips – PACIFIC has the perfect grip for you!

RACKET GRIPS

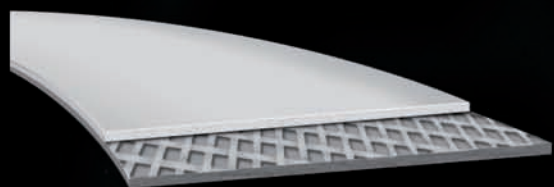

BASIC GRIPS

Often called “Replacement or, Main Grips” they are the direct connection between you and the racket handle. Responsible for moisture absorption, as well as shock/vibration reduction, the proper selection and care of this grip equals the importance of proper strings. There are numerous styles available – all designed with special technologies to satisfy any individual preference.

OVER GRIPS

The most popular accessory for rackets today. With easy installation, the ability to add a new or unique feeling to any racket is quickly achieved. Durability is not the focus of an over grip – they should be replaced frequently to offer their best performance.

NXSTM PRIME

THE ULTIMATE PREMIUM REPLACEMENT GRIP providing superb moisture absorption and excellent damping comfort. Designed in classy fashion reflecting the highest standards of PACIFIC's NXS Concept.

Color	1 pc. pack
black	PC-3250.00.12

SUPREME GRIPTM, 1.80 mm

Ultimate moisture absorption with fast drying thanks to the perforated design and quality PU materials used. Supreme Grip is generously long in length to fit any racket and with an extra 'tacky' feel, assures long-life and top performance.

Color	1 pc. pack
white	PC-3210.00.11
black	PC-3210.00.12
grey	PC-3210.00.15
blue	PC-3210.00.18

NEW

SUPREME GRIPTM PURE, 1.80 mm

A non-perforated version of the extremely popular Supreme Grip. Featuring the same "tacky" feel & performance, with added durability.

Color	1 pc. pack
white	PC-3211.00.11
black	PC-3211.00.12

SUPREME GRIPTM PRO, 1.80 mm

The outer-stitched 'contour' of the Supreme Grip PRO creates an excellent feel on the racket handle. Perforated for better moisture absorption and faster drying, making this the perfect grip for those who prefer a 'contoured' grip feel.

Color	1 pc. pack
black	PC-3200.00.12

SUPREME GRIPTM XT TOUCH, 1.80 mm

Extra soft with deep & stylish embossing. Moisture absorption with an optimum cool feeling plus outstanding vibration dampening, making this grip a must for hot climate players.

Color	1 pc. pack
black	PC-3215.00.12
grey	PC-3215.00.15

**X DUO™ FEEL, 1.80 mm**

Leather is the name given to treated animal skin, most common to originate from cows. Since leather is originally and still is 'skin', it has pores that retain most all of the original properties of when it was living skin. X Duo Feel™ unites the best of natural & synthetic materials to create a grip without compare in feel or performance!

Color	1 pc. pack
white	PC-3240.00.11
black	PC-3240.00.12

**X DUO™ COMFORT, 2.10 mm**

A new technically superior foam material that is exclusively manufactured with "Capillary Cell Construction" (CCC), is strategically designed like a sponge. The top of the grip is a top-grade PU covering that remains 'tacky' and with a consistent feel. The base-foam material 'wicks' away and absorbs the moisture - together these 2-new materials work efficiently as a DUO.

Color	1 pc. pack
white	PC-3245.00.11
black	PC-3245.00.12

**PRO LEATHER GRIP™, 1.50 mm**

Made from the finest CALFSKIN leather and using a new proprietary tanning process, this traditional PACIFIC grip continues the tradition of presenting players with the finest quality premium leather grip. Extra tacky for excellent grip. Extra long to fit all demands.

Color	1 pc. pack
brown	PC-3031.00.06
black	PC-3031.00.12

**MASTERS GRIP™ CLASSIC, 1.80 mm**

An excellent 'tacky' feel with added shock & vibration dampening features. This non-perforated grip focuses on comfort and greater durability. The premium of replacement grips. Featured on the X Force racket line.

Color	1 pc. pack
white	PC-3220.00.11
black	PC-3220.00.12
grey	PC-3220.00.15
blue	PC-3220.00.18

**MASTERS GRIP™ PERFO, 1.80 mm**

Added racket control and extra vibration dampening are featured together with being extra 'tacky' and with a dry feel, thanks to the perforated design. A very technical replacement grip.

Color	1 pc. pack
silver/black	PC-3237.00.78

**POWER TACK™, 1.80 mm**

Special surface treatment provides extreme tack and grip. Excellent vibration and shock absorption. Extra durability and optimum control are the benefits of this quality grip.

Color	1 pc. pack
black	PC-3230.00.12
grey	PC-3230.00.15
blue	PC-3230.00.18

**POWER TACK™ PCP, 1.80 mm**

A special surface treatment provides extreme tack while the perforations allow for greater absorption and faster drying. Excellent shock & vibration dampening in this quality, durable replacement grip.

Color	1 pc. pack
black/orange	PC-3235.00.75

**SMASH GRIP™, 1.50 mm**

Optimum grip feel and control. Good shock and sweat absorption. A favorite of squash players.

Color	1 pc. pack
black	PC-3265.00.12

NXS™ PRO

A BEST-QUALITY OVERGRIP

underlining PACIFIC's philosophy of premium performance products, also in design.

The NXS Overgrip provides best tackiness and grip comfort, longevity & best sweat absorption.

**GRIP-A-ROUND™, 0.45 mm**

For those demanding ultra-thin performance with an extremely 'tacky' surface, Grip-A-Round overgrip is a clear winner. The added exclusive 'Capillary System' acts just like the pores of your skin to quickly 'wick-away' perspiration.
