GB Vehicle Fitting Information

The Joie infant child restraint base is approved to ECE-Regulations R44.04 (Class "Semi Universal") and R129.00. This base can be installed using ISOFIX connectors.

It is suitable to fix into seat positions in most cars. The numbers on the diagram below correspond with the vehicle fitting positions listed in the following pages.

Seat positions in other cars may also be suitable to accept the base. If in doubt, consult either the infant child restraint manufacturer or the retailer.

ALWAYS give priority to the rear seats of your vehicle.

Don't use it on front seat with active airbag when installed in rear facing mode.

If your infant child restraint can be fitted, it is marked with •

If your infant child restraint cannot be fitted, it is marked with ✗

Electric or hybrid vehicles are marked with ⚡

i-Size vehicles are marked with 

If your vehicle is not listed in this manual or it is not marked with either a • or ✗ then please refer to your vehicle's handbook or contact the manufacturer for further information.

If the vehicle is equipped with underfloor storage boxes, these positions are marked with !

Vehicles equipped with a storage box in floor compartment are marked with **SB!**. In this case please contact the vehicle manufacturer for further details as proper base installation may not be given even though seat position might be approved in this list.
