**Smart
Citizen**
2020

7 teams selected for the accelerator per year

“Smartups bring about innovations related to activities that consume most of our natural resources, as well as household budgets: housing, mobility, energy and food. They operate at the point where our time, capital and natural resources intersect.”

Demos Helsinki

Startup Accelerator 2018

What do we offer to the teams?

- 6 months acceleration with international bootcamp and support for new market entries.
- International expert, mentors and networks.
- Access to investors and financing instruments.
- Up to 10k€ support.
- Fast-tracked access to Baltic Sea Region markets.
