Warning about air-mass meters

fr

Attention, débitmètres massiques d'air!

Attenti nella scelta dei misuratori massa d'aria!

es

¡Cuidado con los medidores de masa de aire!

Nur mit den Original Bosch-Luftmassenmessern können die gesetzlich vorgeschriebenen Emissionswerte eingehalten werden. Eine Verwendung von fremden Luftmassenmessern führt zur Erlöschung der Betriebserlaubnis des Fahrzeugs. Darüber hinaus kann dies zu erheblichem Leistungsverlust des Motors und damit zu erhöhtem Kraftstoffverbrauch führen.

Only genuine Bosch air-mass meters ensure compliance with the legally prescribed emission values. The vehicle homologation will be invalidated if use is made of air-mass meters from other manufacturers. In addition, this can result in a considerable loss of engine power and thus higher fuel consumption.

Seuls les débitmètres massiques d'air d'origine Bosch garantissent le respect des valeurs d'émission prescrites. L'utilisation d'autres débitmètres massiques d'air annule l'homologation du véhicule. En outre, il peut en découler une perte considérable de puissance du moteur et une consommation accrue de carburant.

Solo l'impiego di misuratori massa d'aria originali consente di rispettare i valori di emissione prescritti dalla legislazione. L'utilizzo di misuratori massa d'aria non originali può determinare l'annullamento dell'omologazione del veicolo. Inoltre si può verificare una notevole perdita di potenza del motore e di conseguenza un aumento del consumo di carburante.

Sólo los medidores de masa de aire originales de Bosch permiten respetar los valores de emisiones prescritos por la ley. El uso de medidores de masa de aire de otras marcas causa la extinción del permiso de circulación del vehículo. Además se puede producir una importante pérdida de potencia del motor y, por tanto, un mayor consumo de combustible.

Cuidado com os medidores de massa de ar!

Os valores de emissões regulamentares somente podem ser respeitados com medidores de massa de ar originais da Bosch. A utilização de medidores de massa de ar de terceiros causa a cessação da homologação do veículo. Além disso, tal pode provocar uma perda considerável da potência do motor e, por conseguinte, a um aumento do consumo de combustível.

nl

Voorzichtig bij lucht-massameters!

Alleen met originele Bosch-luchtmassameters kunnen de wettelijk voorgeschreven emissiewaarden worden aangehouden. Bij gebruik van andere luchtmassameters is het reglementair niet meer toegestaan het voertuig te gebruiken. Bovendien kan dit een opmerkelijk vermogensverlies van de motor en daarmee extra brandstofverbruik veroorzaken.

pl

Zachować ostrożność w przypadku przepływomierzy masowych powietrza!

Tylko oryginalne przepływomierze masowe powietrza firmy Bosch umożliwiają utrzymanie ustawowych wartości emisji. Zastosowanie przepływomierzy powietrza innych firm prowadzi do wygaśnięcia dopuszczania pojazdu do eksploatacji. Ponadto może to spowodować znaczną utratę mocy silnika, a tym samym zwiększyć zużycie paliwa.

cs

Pozor u snímačů nasávaného vzduchu!

Zákonem předepsané hodnoty emisí je možné plnit jen pomocí originálních snímačů nasávaného vzduchu Bosch. Použití cizích snímačů nasávaného vzduchu má za následek zánik technického průkazu vozidla. Kromě toho to může způsobit značnou ztrátu výkonu motoru a tím vyšší spotřebu paliva.

ru

Внимание! Датчики массового расхода воздуха!

Только при использовании оригинальных датчиков массового расхода воздуха фирмы Bosch возможно соблюдение законодательно предписанных показателей эмиссии. Применение сторонних расходомеров воздуха ведет к утрате разрешения на эксплуатацию автомобиля. Кроме того, это может стать причиной значительной потери мощности двигателя и привести, тем самым, к повышенному расходу топлива.

**Funktion:**

Drucksensoren haben unterschiedliche Einsatzzwecke. Saugrohr-Drucksensoren und Ladedrucksensoren messen den Absolutdruck im Saugrohr bzw. den Ladedruck des Turboladers. Zusätzlich kommen Differenzdrucksensoren zum Einsatz, die u. a. den Beladungszustand von Dieselpartikelfiltern ermitteln.

Function:

Pressure sensors have different areas of use. Intake pressure sensors and boost pressure sensors measure the absolute pressure in the intake manifold or, resp., the boost pressure of the turbocharger. Additionally, differential pressure sensors are used to determine the load condition of diesel particle filters, among other things.

Fonction :

les capteurs de pression ont différents domaines d'application. Les capteurs de pression de conduites d'aspiration et les capteurs de pression de charge mesurent la pression absolue dans la conduite d'aspiration, respectivement la pression de charge du turbo-compresseur. Des capteurs de pression différentielle, qui déterminent entre autres l'état de charge de filtres à particules Diesel sont en complément utilisés.

Funzione:

i sensori di pressione hanno diversi scopi. I sensori di pressione del tubo di aspirazione e i sensori di pressione di carico misurano la pressione assoluta nel tubo di aspirazione o la pressione di carico dei turbolatori. In aggiunta vengono utilizzati sensori della pressione differenziale, che determinano, tra l'altro, le condizioni di carica del filtro antiparticolato diesel.

Función:

Los sensores de presión tienen diferentes finalidades de uso. Los sensores de presión de los tubos de aspiración y los sensores de presión de admisión miden la presión absoluta de los tubos de aspiración o la presión de admisión del turbocompresor. Además se usan sensores de presión diferencial, entre otras cosas para calcular el estado de carga del filtro de partículas diésel.

Gegenüberstellung**Cross-reference****Table de correspondance****Comparazione****Equivalencias****Benutzerhinweise**

Im nachfolgenden Katalogteil sind Bestellnummern von Herstellern anderer Marken, für die es einbaugleiche Bosch-Erzeugnisse oder -Teile gibt, aufgeführt. Da die verschiedenartigsten Bezeichnungssysteme angewendet werden, konnten die fremden Bestellnummern nur in einer einheitlichen, alphanumerischen Sortierfolge geordnet werden. Sie weicht bei einigen Herstellern von der dort üblichen Sortierfolge ab. Eine Rückumschlüsselung von Bosch- zu Fremdnummern ist nicht zulässig.

Notes for users

The following catalog section lists part numbers of non-Bosch equipment for which there are interchangeable Bosch products or components available. Since a wide range of different designation systems are used, we were forced to arrange the non-Bosch part numbers in a uniform alphanumerical order. This differs from the customary order employed by some manufacturers. Reconversion of Bosch numbers back to the numbers of other manufacturers is not permitted.

A l'attention de l'utilisateur

Cette section du catalogue reprend les références des fabricants d'autres marques pour lesquelles il existe des produits ou des composants Bosch de montage identique. De multiples systèmes de codage étant utilisés, les références des produits d'autres marques ne peuvent être reprises que suivant un classement alphanumérique uniforme. Pour certains fabricants, ce classement peut différer de celui qu'ils utilisent habituellement. La reconversion de références Bosch en références d'autres marques n'est pas autorisée.

Avvertenze per la consultazione

Nella seguente parte del catalogo vengono riportati i numeri di ordinazione di costruttori di prodotti d'altra marca, per i quali sono disponibili prodotti o parti di prodotti Bosch di corrispondente applicazione. Dato che vengono utilizzati i più diversi sistemi di denominazione, si è potuto ordinare i numeri di ordinazione di altra marca solo in una sequenza di classificazione unitaria ed alfanumerica. Per alcune case costruttrici si differenzia perciò dalla sequenza di classificazione normalmente usata. In questo confronto le sigle Bosch vanno considerate come dati indicativi. Non è ammessa una ricodificazione da numeri di ordinazione Bosch a numeri di altra marca.

Indicaciones para el usuario

A continuación se han relacionado números de pedido de fabricantes de otras marcas para los que existen productos o piezas Bosch de iguales características. Dado que se utilizan los más diversos sistemas de designación, los números de pedido ajenos han podido relacionarse tan sólo en un orden unificado, alfanumérico. En el caso de algunos fabricantes, el orden de esta clasificación difiere del que utilizan habitualmente. No es admisible la recodificación de los números de Bosch en números ajenos.

Hinweis

Aus wettbewerbsrechtlichen Gründen dürfen gegenüber Endkunden zur Kennzeichnung von Bosch-Teilen nur die Bosch-Teilenummern verwendet werden.

Note

The laws governing competition stipulate that only Bosch type numbers may be used vis-à-vis the final customer for the identification of Bosch parts.

Remarque

En raison des dispositions légales concernant la concurrence seules les références Bosch peuvent être utilisées vis-à-vis des clients finaux pour l'identification des pièces Bosch.

Avvertenza

Per motivi legati ai diritti che regolano la concorrenza, per l'identificazione dei componenti Bosch destinati all'utente finale, possono essere impiegati solo i codici Bosch.

Nota

Por aspectos legales relativos a la competencia, de cara a los clientes finales únicamente deben utilizarse los números de piezas tipo Bosch para identificar piezas Bosch.

Comparação**Instruções para o utilizador**

Na parte do catálogo que se segue, apresentam-se os números de referência de fabricantes de outras marcas e, em alguns casos, de fabricantes de veículos, para as quais existem produtos ou peças equivalentes aos da Bosch. Sendo os sistemas de designação dos mais variados tipos, os números de referência de fabricantes externos só puderam ser catalogados numa sequência alfanumérica única. Esta desvia-se da sequência de catalogação normalmente utilizada por alguns fabricantes. Não é permitido efectuar uma recodificação dos números Bosch para os números de fabricantes externos. Nesta confrontação as designações da Bosch devem ser tidas como valores de referência. As recomendações obrigatórias para as velas de ignição podem ser consultadas na parte B da utilização das velas de ignição.

Nota

Por motivos de direito sobre a concorrência, as peças Bosch só podem ser classificadas perante os clientes finais com referências Bosch.

Opzoektabel**Aanwijzingen voor de gebruiker**

In het hierna volgende deel van de catalogus vindt u bestelnummers van fabrikanten van andere merken, waarvoor identiek geconstrueerde Bosch-producten of -onderdelen bestaan. Aangezien de meest uiteenlopende nummeringssystemen in gebruik zijn, kunnen we de bestelnummers van andere fabrikanten slechts presenteren in één uniforme, alfanumerieke sorteervolgorde. In sommige gevallen wijkt deze volgorde af van de bij de betreffende fabrikant gebruikelijke sorteervolgorde. Omzettingen in de andere richting, van Bosch-nummers naar andere nummers, is niet toegestaan. In deze opzoektabel zijn de Bosch-typeomschrijvingen als richtlijnen te beschouwen. De bindende bougie-aanbevelingen vindt u bij de bougiestoepassingen, deel B.

N.B.

Vanwege wettelijke concurrentiebepalingen mogen tegenover eindverbruikers ter aanduiding van Bosch-onderdelen alleen de Bosch-referentienummers gebruikt worden.

Zastosowanie**Wskazówki dla użytkownika**

W dalszej części katalogu przedstawiono numery zamówień producentów innych marek, dla których dostępne są produkty lub części Bosch tego samego typu. W związku z tym, że stosowane są najróżniejsze systemy nazewnictwa, uporządkowanie obcych numerów zamówień było możliwe tylko przy użyciu jednolitej, alfanumerycznej kolejności sortowania. W przypadku niektórych producentów różni się ona od ich standardowej kolejności sortowania. Przeliczanie zwrotnie z numerów Bosch na numery obce jest niedozwolone.

Wskazówka

Ze względu na prawo dotyczące konkurencji, wobec klientów końcowych dopuszczalne jest oznaczenie części firmy Bosch wyłącznie przy użyciu numerów części Bosch.

cs

Převod**Pokyny pro uživatele**

V následujícím dílu katalogu jsou uvedena objednáčí čísla výrobců jiných značek, pro něž existují montážně shodné výrobky nebo díly Bosch. Protože se používají nejrůznější systémy označování, mohou být cizí objednáčí čísla uspořádána jen v jednotné, alfanumerické posloupnosti třídění. U některých výrobců se mohou vyskytovat odchylky od zde používané běžné posloupnosti třídění. Zpětná konverze čísel Bosch na čísla cizích výrobců je nepřipustná.

Upozornění

Z konkurenčně legálních důvodů smí být ve vztahu ke koncovým zákazníkům používána k označení dílů Bosch jen čísla dílů Bosch.

ru

Сопоставления**Внимание пользователей**

В следующей части каталога приводятся номера для заказов производителей других марок, для которых имеются идентичные изделия или запчасти компании Bosch. Поскольку используются различные системы обозначений, номера заказов других производителей располагаются в едином алфавитно-цифровом порядке. Для некоторых производителей они отличаются от используемого у них порядка классификации. Перекодировка номеров Bosch на номера других производителей не разрешается.

Примечание

Согласно законодательству в области конкуренции, конечным клиентам для обозначения запчастей компании Bosch разрешается указывать только номера Bosch.
