

EXPLORE

TRD PERFORMANCE

Think about everything you love about your Toyota or Scion. Style. Quality. Reliability. Now imagine it sleeker. Meaner. Faster. With the addition of TRD performance accessories, your Toyota or Scion is transformed with a rush of adrenaline. TRD knows a thing or two about fast. From the conception of Toyota Technocraft in 1954, racing has been integral to Toyota's DNA. And whether we're competing in off-road races, or any competition in between, every part must perform to its peak under extreme conditions and duress in order to win. All that we've learned over the past five decades goes into the development of TRD's high-performance parts and accessories. We start with OEM engineering drawings and specs so that each part can integrate seamlessly into your vehicle. Every piece is designed for maximum effect and efficiency, then tested rigorously for ruggedness and durability. It all is designed to help you to accelerate quicker, stop shorter with enhanced handling. But the proof of engineering excellence is on the street, on the circuit or on the trail. So let your right foot do the talking, with a little help from TRD.

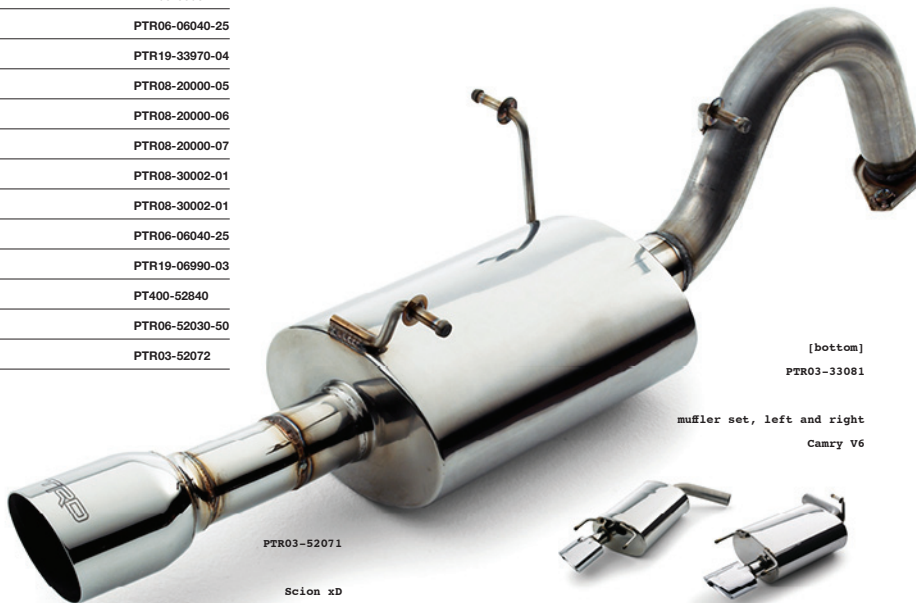

street cred **UNPARALLELED ENGINEERING**

sport **MUFFLERS**

Constructed entirely of stainless steel, TRD Sport Mufflers deliver a measurable boost in performance, while meeting emissions requirements and aftermarket noise standards in all 50 states. Uses OEM connector flanges and gaskets.

SUSPENSION

Increase the handling capabilities of your Toyota or Scion.

The precision-tuned TRD suspension complements the hallmark stability and security of every Toyota, allowing greater enjoyment of your vehicle's dynamics.

shocks & STRUTS

All shock valves are not created equal; inside each TRD Shock and Strut is aggressive valving to help reduce body lean when cornering and help maintain control while maneuvering. Because they're from TRD, they're designed to work well with the stock springs to provide enhanced handling. They're also the perfect complement to TRD Lowering Springs and high performance wheel/tire combinations, making them the ideal setup for more extreme street or competition applications.

lowering **SPRINGS**

How low can you go? Lower the center of gravity of your Toyota or Scion by 1- to 1 1/2-inches with TRD Lowering Springs, resulting in quicker turn-in, enhanced steering response and improved cornering ability. Tested rigorously through the slalom, on the skid pad and around a high-speed road course, the TRD Lowering Springs are engineered to not rattle, clunk or rub, even when pushed to the limit (when used with OEM or TRD wheel/tire combinations.)

sway **BARS**

Sway bars do the opposite of what their name suggests; they actually reduce body lean while cornering. TRD Sway Bars are 25- to 100-percent stiffer than OE sway bars, giving your Toyota or Scion a flatter, more stable cornering stance. They also reduce understeer, providing you with greater control while preserving the secure handling of the original steering and suspension systems. Constructed of the highest quality materials and coated with an attractive powder coat finish to prevent corrosion and road damage, they work with both stock or lowered suspensions.

strut **BRACES**

Increased chassis rigidity. Reduced flex. Enhanced handling during aggressive cornering. A tighter, more rigid overall feel. These are just some of the benefits of a TRD Strut Brace under the hood. Constructed of the finest materials and road-tested for durability, each strut brace is manufactured to fit perfectly into your Toyota or Scion the first time they're installed.

WHEELS

Wheel design can make or break the look of a car. That's why TRD studies the original design criteria for each vehicle and utilizes state-of-the-art CAD design techniques to create the optimal wheel. And, of course, every TRD wheel incorporates the proper weight, offset and brake clearance to ensure that you get proper fit, finish and reliability.

big brake **KITS**

Fast is fun. But you need to stop too. TRD Big Brake Kits include larger rotors and calipers that are designed and tested for full compatibility with ABS and vehicle stability control systems. Pedal feel and fade resistance are enhanced while maintaining proper balance and bias.

oil FILTERS

Get exceptional filtration, lower flow restriction and enhanced engine protection and durability with TRD Oil Filters. Using three plies of 100% synthetic glass/polyester blend filtration media for optimal efficiency, TRD Oil Filters feature a steel inner core that is used to increase the collapse strength of the filter, making them much stronger than standard filters.

air FILTERS

Air in. Dirt out. The free-flowing design of TRD High-Performance Air Filters allows the maximum amount of air into the engine with minimal resistance, providing unrivaled engine protection and potentially increased engine output. These 5-ply cotton gauze replacement filters are washable and reusable, and can last the life of your vehicle.

performance air **INTAKE**

Since cold air is denser than hot air, it makes sense that cold air translates into more power. Feed your engine colder air by adding a TRD Performance Air Intake System. They're dyno tested and deliver an increase in both horsepower and torque for superior acceleration and more pulling power*.

* Except where noted, all TRD intakes are covered by the TRD warranty. Please see warranty page for details. Also except where noted, TRD air intakes are emission legal in all 50 states for after-sale installation. TRD intakes cannot be sold on or financed with a new vehicle.

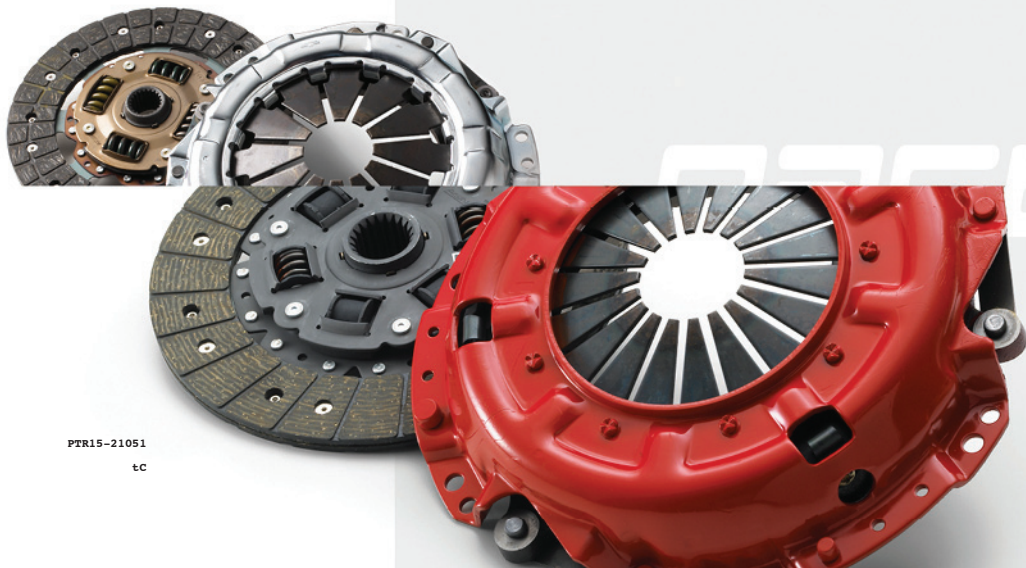

** For off-highway use only. A no warranty part. See warranty page for details.

performance **CLUTCH KITS**

The clutch is the means by which power is transferred from the engine to the transmission. Make sure you've got the ideal clutch for your specific engine. TRD performance clutch kits ensure positive engagement with smooth operation.

DIFFERENTIALS

When it comes to performance and handling, the greater the traction, the better. TRD Differentials distribute torque from the transmission to the appropriate wheels instantaneously to maintain better grip through corners or through slippery surfaces.

QUICKSHIFTERS

TRD's engineering expertise is quite evident in the design of our quick shifters—we know how to optimize the linkage and the location to shorten shift throw, giving your car that race-car-like feel—all without compromising the quality, fit and finish you've come to count on in your Toyota or Scion.

radiator **CAPS**

TRD High-Pressure Radiator Caps can make you perform better under the most intense circumstances. They release at higher cooling system levels than OEM radiator caps, making them perfectly suited for high-RPM or high-load operation. It's what we call looking good under pressure.

shift **KNOBS**

It's all about the feel: think about how many times you up and downshift during a drive. Whether driving a manual or automatic transmission, enhance the thrill of shifting gears with easy-to-install TRD Shift Knobs. Direct-fit screw threads assure a tight screw-on fit to any M12 x 1.25 metric Toyota shift lever.

TRD PRO

TESTED TO THE MAX

INTRODUCING THE ALL NEW TRD PRO ACCESSORIES

TUNDRA

TACOMA

4Runner

TRD PRO TOYOTA GRILLE

- Inspired by old-school front TOYOTA grilles of yesteryear
- Matte black finish

TACOMA '15

PTR54-35150

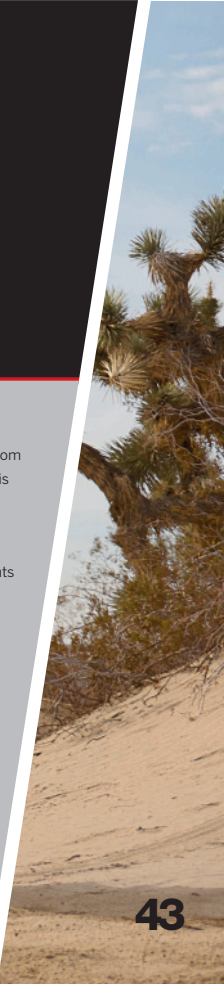

TRD PRO FRONT SKID PLATE

- Enhances Tundra's tough, capable stance
- Helps protect vehicle underbody from damage that can result from flying stones, branches, ice chunks and other types of road debris
- Made from stamped and formed 1/4-in.-thick silver powder-coated aluminum
- Skid plate won't interfere with or block the cooling system, while providing cut outs for unobstructed access to all maintenance points and vehicle tow hooks
- Rigorous CAD simulations conducted by Toyota engineers, in addition to real world testing, help to maximize protection and prevent vibration stress and noise issues
- Easy, no-drill installation uses vehicle's existing attachment mounts

TUNDRA 15-'16

PT938-34140

TRD STAMPED ALUMINUM FRONT SKID PLATE

- Enhances 4Runner's tough, capable stance
- Helps protect vehicle underbody from damage that can result from flying stones, branches, ice chunks and other types of road debris
- Made from stamped and formed 1/4-in.-thick silver powder-coated aluminum
- Skid plate won't interfere with or block the cooling system, while providing cut outs for unobstructed access to all maintenance points and vehicle tow hooks
- Rigorous CAD simulations conducted by Toyota engineers help to ensure against vibration stress and noise issues
- Easy, no-drill installation uses vehicle's existing attachment mounts

4RUNNER 15-'16

PTR04-00000-06

TRD 16-IN. OFF-ROAD BEADLOCK-STYLE WHEELS

- Off-road race-inspired 16-in. x 7.5-in. cast aluminum wheels with beadlock styling and six lug nut pattern
- +10 mm wheel offset widens the overall vehicle track width by 0.8 in. (20 mm) for more aggressive stance
- Incorporates the proper weight, offset and brake clearance to ensure proper fit, finish and reliability
- Extensive ride, handling and strength tests ensure wheels meet TRD's high-quality standards

TRD PRO BILSTEIN SHOCKS WITH REMOTE RESERVOIRS AND TRD- TUNED FRONT SPRINGS

- Large 2.5-inch TRD Bilstein shocks with remote (piggyback) reservoirs front & rear for increased oil capacity, cooling, and durability
- Zinc finish with multi-layer coating for extreme surface durability
- ZoneControlR technology® integrates internal hydraulic bump stops into progressive 3-stage position sensitive compression control for extreme off-road demands
- 60mm Digressive Pistons for improved ride comfort and more control at high speeds over rough terrain
- Red TRD-tuned front Eibach® coil springs with custom rates that are softer for a better ride both on- and off-road
- Engineered by TRD with unique components and tuned by TRD engineers to provide better ride quality and off-road performance

TUNDRA 14-'16

PTR13-34140

TRD PRO BILSTEIN SHOCKS WITH TRD-TUNED FRONT SPRINGS

- 2.5 in. front shocks and 2.0 in. rears with remote (piggyback) reservoirs
- Zinc finish with multi-layer coating for extreme surface durability
- TRD tuned Eibach® coil springs with custom rates
- Engineered by TRD with unique components and tuned by TRD engineers to provide better ride quality and off-road performance

TACOMA '15

PTR13-35150

TRD PRO BILSTEIN SHOCKS WITH TRD-TUNED FRONT SPRINGS

- 2.5 in. front shocks and 2.0 in. rears with remote (piggyback) reservoirs
- Zinc finish with multi-layer coating for extreme surface durability
- TRD tuned Eibach® coil springs with custom rates
- Engineered by TRD with unique components not found in aftermarket Bilstein shocks and tuned by TRD engineers to provide better ride quality and off-road performance

4RUNNER 15-'16

PTR13-89150

TRD SHIFT KNOB

- Delivers an enhanced shifting feel while providing an impressive addition to your interior
- Simple remove and replace installation with no drilling or special tools required

4RUNNER 15-'16

TRD WARRANTY

There are two separate categories of TRD Parts, TRD Sport Parts and Race or Off-Highway Use Parts. The warranty coverage for and lawful use of parts in each of these categories is very different. Warranty and use information for each category of TRD Parts is described below.

TRD PERFORMANCE PARTS

TRD PERFORMANCE PARTS INSTALLED BY A DEALER

TRD Performance Parts are warranted for 12 months or 12,000 miles from the date of installation or for the balance of the new car warranty in force on the date of installation, whichever is greater, when TRD Performance Parts are installed by an authorized Toyota or Scion Dealer. Superchargers carry the same warranty, but the coverage is 12 months or 12,000 miles from the date of installation or the balance of the new car 5 year, 60,000 mile powertrain warranty in force at the time of installation. This warranty does not cover maintenance services such as replacement of brake pads/linings and clutch linings. This warranty does not cover noise, vibration, cosmetic conditions and other deterioration caused by normal wear and tear. TRD customers are responsible for ensuring that the use of any TRD Performance Part complies with all applicable federal, state or local laws, regulations and ordinances.

TRD PERFORMANCE PARTS NOT INSTALLED BY A DEALER

TRD Performance Parts installed by anyone other than an authorized Toyota or Scion dealer are warranted for 12 months or 12,000 miles

from the date of purchase only and the warranty coverage is limited to the replacement value of the TRD Performance Part. Superchargers carry the same coverage. This warranty does not cover maintenance services such as replacement of brake pads/linings and clutch linings. This warranty does not cover noise, vibration, cosmetic conditions and other deterioration caused by normal wear and tear. Part failure caused by improper installation by anyone other than an authorized Toyota or Scion dealer may void the TRD Performance Part warranty, the new vehicle warranty or both. TRD customers are responsible for ensuring that the use of any TRD Performance Part complies with all applicable federal, state or local laws, regulations and ordinances.

RACE OR OFF-HIGHWAY USE PARTS

Race or Off-Highway Use Parts have no warranty. Should any Race or Off-Highway Use Parts shown in this catalog prove defective following their purchase, the buyer and not the manufacturer, distributor, dealer or retailer, shall assume the entire cost of all necessary servicing or repair of the defective part and of any damage that may have been caused by the defective part. The buyer assumes the entire risk as to the performance of such parts. To the fullest extent permitted by applicable federal, state, local or other law, TRD expressly disclaims the implied warranties of merchantability and of fitness for a particular purpose, even if this catalog or any other materials mention a particular purpose for a Race or Off-Highway Use Part. TRD also disclaims all liability for direct, indirect, special, incidental or consequential damages, including, but not limited to, damage to or loss of personal property, loss of profits or revenue, cost of purchase of replacement goods, or claims of customers of the purchaser that result from the use of any and all Race or Off-Road Use Parts contained in this catalog.

Race or Off-Highway Use Parts are for race or off-highway purposes only. Vehicles equipped with Race or Off-Highway Use Parts should not be operated on public roads. TRD offers Race or Off-Highway Use Parts for track or off-highway competitive or performance use only. Installation of any Race or Off-Highway Use Part on a vehicle operated on public roads may violate federal, state or local laws or regulations including, but not limited to, emission requirements and motor vehicle safety standards. In California these parts may legally be used only on a racing vehicle that will never be operated on public roads. In addition, federal statutes, regulations and laws in many states prohibit the removal, modification, alteration or disconnecting of any parts or elements of a vehicle's design affecting emissions or safety on vehicles intended for use on public streets or highways. TRD customers are responsible for ensuring that the use of any TRD Race or Off-Road Use Part complies with all applicable federal, state or local laws, regulations and ordinances.

Installation of Race or Off-Highway Use Parts may adversely affect the warranty coverage on your vehicle. The addition of Race or Off-Highway Use Parts on a vehicle is not covered by the vehicle warranty and any failure that they may cause is also not covered by the vehicle warranty.

Race or Off-Highway Use Parts may not be installed by a Toyota or Scion dealer on a vehicle intended for use on public roads. Race or Off-Highway Use Parts should not be sold or financed in conjunction with the sale of a new vehicle.

Race or Off-Highway Use Parts offered in this catalog are listed below:

PTRO3-21060	COLD AIR INTAKE	SCION TC '05 - '06
PTRO3-21070	COLD AIR INTAKE	SCION TC '07 - '10
