POWER SPORT RECREATIONAL BELT APPLICATIONS

APPLICATIONS DES COURROIS POUR
VEHICULES RÉCRÉATIFS POWER SPORT

GET YOUR FIX WITH G-FORCE C₁₂

The first belt of its kind, the Gates G-Force® C₁₂® CVT belt sports a carbon tensile cord for incomparable strength, flexibility and durability. So now the only worry you'll have on your ride is trying to find the biggest, baddest, roughest trail.
Adrenaline junkies rejoice.

Caution

Use Gates products only on applications specified in Gates product literature. Install and maintain products according to the vehicle manufacturer's recommended procedures and with recommended tools. Failure to follow these instructions could result in injury or property damage. Gates Corporation disclaims all liability due to failure to follow these instructions.

WARNING!

Do not use Gates belts, pulleys or sprockets on any aircraft propeller or rotor drive systems or in-flight accessory drives. Gates products are not designed or intended for aircraft use.

Limited Warranty for the Life of the Merchandise

Goods are warranted to be free from defects in material or workmanship for the life of the Goods (or the published recommended replacement interval specified by Gates). Gates will replace or repair, at its option, any Goods proved defective in material or workmanship during the warranty period. This is the sole remedy for breach of warranty. Color fade and color difference is not warranted. This warranty is void if the defect is caused by improper installation, use or maintenance of the Goods, or used for racing or competition. Goods are not warranted to comply with laws that may apply to use of the Goods not stated in related materials, e.g., use in manned or unmanned aviation or life support applications.

ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE EXPRESSLY DISCLAIMED. FAILURE TO REPLACE TIMING BELTS OR OTHER GATES PRODUCTS AS SPECIFIED MAY RESULT IN CATASTROPHIC ENGINE OR EQUIPMENT DAMAGE. FOR WHICH GATES DISCLAIMS ALL RESPONSIBILITY, TO THE EXTENT PERMITTED BY APPLICABLE LAW.

This publication contains the latest information available to our engineers. If you require additional application or part number information, contact the Automotive Product Application Tech Line at 303-744-5651.

Mise En Garde:

Les produits Gates doivent être utilisés seulement pour les applications indiquées dans les documents et textes de Gates. L'installation et l'entretien des produits doivent être faits dans le respect des directives du constructeur du véhicule et à l'aide des outils recommandés par ce dernier. Le non-respect de ces directives pourrait occasionner des blessures ou des dommages matériels. Gates décline toute responsabilité à l'égard d'un problème dû au non-respect de ces directives.

AVERTISSEMENT!

Les courroies, poulies et roues dentées Gates ne doivent pas être installées sur les hélices, les systèmes d'entraînement de rotor ou les systèmes d'entraînement d'accessoires embarqués des aéronefs. Les produits Gates ne sont pas conçus pour un usage dans des aéronefs.

Garantie limitée valable pour la durée de vie utile du produit

Les produits sont garantis contre tout défaut de matériau et de fabrication pour la durée de vie utile du produit (ou pour l'intervalle de remplacement recommandé indiqué dans les documents de Gates). Gates remplacera ou réparera, à sa seule discrétion, tout produit présentant un défaut avéré de matériau ou de fabrication au cours de la période de validité de la garantie. Ceci constitue le seul et unique recours aux termes de la présente garantie. La décoloration et la différence de couleur ne sont pas garanties. La garantie est annulée si la défectuosité est causée par une installation incorrecte, un usage inadéquat ou un travail d'entretien ou de réparation inadéquat, ou si le produit est utilisé à des fins de course ou de compétition. Les produits ne sont pas certifiés conformes aux règlements qui peuvent s'appliquer pour des usages dans un domaine non connexe, c.-à-d. usage pour l'aviation avec ou sans équipage ou dans de l'équipement de survie.

TOUTE AUTRE GARANTIE EXPRESSE OU IMPLICITE, Y COMPRIS NOTAMMENT TOUTE GARANTIE DE QUALITÉ MARCHANDE OU D'ADAPTABILITÉ À UN USAGE PARTICULIER, EST EXPRESSÉMENT EXCLUE EN VERTU DES PRÉSENTES. LE NON-RESPECT DES DIRECTIVES DE REMPLACEMENT DES COURROIES DE DISTRIBUTION OU DES AUTRES PRODUITS DE GATES PEUT OCCASIONNER DES DOMMAGES MAJEURS AU MOTEUR OU À L'ÉQUIPEMENT, POUR LESQUELS, DANS LES LIMITES PERMISES PAR LA LOI, GATES DÉCLINE TOUTE RESPONSABILITÉ.

Ce document contient l'information la plus récente disponible pour nos ingénieurs. Pour obtenir des renseignements supplémentaires ou des numéros de pièces, veuillez communiquer avec le Service d'assistance technique, applications automobiles, au 1-303-744-5651.

G-FORCE® LIMITED WARRANTY

The Gates G-Force® belts are warranted to the original purchase from defects in materials and workmanship for one year for snowmobile belts and two year for ATV/UTV belts from the date of purchase under normal use. This warranty shall be automatically null and void if the belt is used under abnormal conditions including but not exclusive to racing or any competitive event, case of improper installation, alignment, application clutch case sealing, towing or poor clutch condition. Final authorization on warranted product to be by Gates Corporation.

GARANTIE LIMITÉE G-FORCE^{MD}

Les courroies G-Force^{MD} de Gates offrent une garantie à partir de la date d'achat, à l'acheteur d'origine, et en fonction d'une condition d'utilisation normale, d'une année sur les courroies motoneiges et de deux années sur les courroies VTT/ VUTT, contre les défauts de matériaux et de fabrication. Cette garantie sera automatiquement annulée si la courroie est utilisée dans des conditions anormales incluant sans être exclusif à la course ou à tout événement de compétition, cas d'installation inadéquate, alignement, application, scellage du boîtier d'embrayage, remorquage ou à une mauvaise condition de l'embrayage. L'approbation finale sur les produits garantis sera faite par Gates Corporation.

G-FORCE C₁₂

Gates continues to lead the way in CVT belt innovation, technology and development for today's recreational and utility all-terrain equipment with the latest addition to the G-Force[®] line, the all-new G-Force C₁₂ CVT belt. This belt is engineered for drop-in performance, featuring exceptional strength, flexibility, and durability.

Gates continue d'être le chef de file en matière d'innovation, de technologie et de développement de courroies CVT pour les véhicules tout-terrain récréatifs et utilitaires d'aujourd'hui, grâce à la plus récente addition à la ligne des courroies G-Force^{MD}, la toute nouvelle courroie de transmission à variation continue G-Force C₁₂. Conçue pour assurer un remplacement direct, cette courroie offre une résistance, une flexibilité et une durabilité exceptionnelles.

Gates G-Force - The Genius of Continuous Evolution.

Gates G-Force - Le génie de l'évolution continue.

Gates.com/gforce

STRENGTH

The first CVT belt utilizing a carbon tensile cord, combining minimal stretch with extraordinary strength.

FLEXIBILITY

High performance neoprene with a trapezoidal top-notch and rounded bottom cog design maximizing heat control and flexibility.

DURABILITY

Carbon tensile cords are bonded with specially formulated adhesion gum to aramid fiber loaded rubber resulting in increased side-load resistance which prevents belt distortion and edge cord pullout.

PERFORMANCE

Carbon tensile cords provide optimal power transmission resulting in faster acceleration, improved throttle response and consistent shifting performance.

RÉSISTANCE

La courroie G-Force C12 est la première courroie de transmission à variation continue dotée de cordes de traction en carbone. Elle possède une résistance exceptionnelle et présente un allongement minimal.

FLEXIBILITÉ

Le néoprène haute performance des crans en V de la face externe et des crans arrondis de la surface interne maximise la dissipation de chaleur et la flexibilité.

DURABILITÉ

Grâce à une résine spécialement formulée, les cordes de traction en carbone adhèrent au caoutchouc renforcé de fibres aramides, ce qui accroît la résistance de la courroie aux charges latérales, prévient la déformation et réduit l'effilochage des cordes de traction latérales.

PERFORMANCE

Les cordes de traction en carbone procurent une transmission de puissance optimale, ce qui permet des accélérations rapides, une meilleure réponse de l'accélérateur et des changements de rapport d'une performance constante.

Featured Products Produits Présentés

A Breakthrough in CVT Belt Design

This new high-performance Neoprene (CR) and aramid fiber loaded rubber belt offers Original Equipment (OE) technology featuring trapezoid top-notch and rounded cog design for superior flexibility and heat dissipation. G-Force® belts are engineered for drop-in performance utilizing aramid reinforced fiber loaded rubber and advanced aramid tensile cords surrounded by specially formulated adhesion gum to reduce edge cord pullout and increase belt life.

Une avancée en matière de courroies CVT

Cette nouvelle courroie haute performance fabriquée de néoprène (CR) et de caoutchouc renforcé de fibres aramides offre une technologie conforme à celle des pièces d'origine. Sa face externe crantée et ses dents arrondies procurent une flexibilité et une dissipation de la chaleur hors pair. Les courroies G-ForceMD sont conçues pour la performance grâce au caoutchouc renforcé de fibres aramides et aux cordes de traction fabriquées de fibres aramides de première qualité et enveloppées d'un adhésif spécialement formulé. Cet adhésif réduit l'effilochage des cordes de traction latérales, ce qui augmente la durée de vie de la courroie.

Featured Products Produits Présentés

Perfect Fit; Paramount Performance and Durability; Drop-In Installation

Gates new G-Force® belts are the first of a new generation of Continuously Variable Transmission (CVT) belts. Building upon 100 years of manufacturing and materials success, Gates has brought this technology to both the Original Equipment Manufacturer (OEM) and aftermarket CVT belt markets.

G-Force® drive belts are designed with proprietary measuring technology assuring exact fit. Advanced aramid tensile cords surrounded by specially formulated adhesion gum to reduce edge cord pullout and reinforced fiber loaded undercord are used in construction for dependability, performance and durability for today's recreational and utility all-terrain equipment. Double or single cog design construction matches the OEM belt design, maximizing heat control and flexibility.

Extreme real-world testing has proven the G-Force® belt to be high performing and durable, with no clutching adjustments necessary at installation. Whether trail riding, farming, ranching or extreme riding, G-Force® belts are engineered for demanding off-road conditions. Just drop in a G-Force® belt and be on your way for work or play.

Ajustement parfait; Performance et durabilité hors pair; Installation facile

Les courroies G-Force^{MD} de Gates sont les premières d'une nouvelle génération de courroies de transmission à variation continue (CVT). Avec 100 ans de savoir-faire et de produits éprouvés, Gates offre maintenant sa technologie des courroies CVT sur le marché des pièces d'origine et des pièces de rechange.

Les courroies d'entraînement G-Force^{MD} sont conçues au moyen d'une technologie de mesure exclusive qui assure un ajustement parfait. Les cordes de traction, fabriquées de fibres aramidées de première qualité et enveloppées d'un adhésif spécialement formulé qui réduit l'effilochage des cordes de traction latérales, et le renforcement textile sous les cordes procurent à nos courroies une durabilité, une performance et une fiabilité exceptionnelles pour les véhicules tout-terrain récréatifs et utilitaires d'aujourd'hui. Qu'elles soient à double ou simple face dentée, nos courroies sont conformes aux produits d'origine tout en offrant une flexibilité et une dissipation de la chaleur maximales.

Des essais dans des conditions extrêmes ont montré que les courroies G-Force^{MD} sont hautement performantes et durables, et qu'aucun réglage de l'embrayage n'est nécessaire lors de leur installation. Que ce soit pour la randonnée, l'agriculture, l'élevage en ranch ou les sports motorisés extrêmes, les courroies G-Force^{MD} sont conçues pour les conditions hors route exigeantes. Installez facilement et rapidement une courroie G-Force^{MD}, et vous voilà prêt pour le travail ou les loisirs.

Featured Products Produits Présentés

Proper Gates G-Force® CVT Belt Installation & Break-In

To ensure optimal operation of newly installed belts, the CVT sheaves must be cleaned of all old belt residue, glazing, and oils. Cleaning can be accomplished by carefully scuffing belt contaminants off the sheave/belt contact area with a mild abrasive such as 220-400 grit sandpaper, Scotch Brite® pad, or steel wool. Follow-up by cleaning surfaces thoroughly with soapy water and/or brake cleaner until all impurities have been removed. **Cleaning the sheave surface until all contaminants have been removed is vital to future belt and CVT operation.** If any particles remain, belt slip and a noticeable drop in vehicle performance can occur. If a belt is to be removed and reinstalled during future maintenance, it is highly recommended that the belt is reinstalled in the same direction as before to match belt wear profile to contact with the corresponding sheave profile.

Installation et rodage adéquats de la courroie CVT G-Force^{MD} de Gates

Pour assurer le fonctionnement optimal de la courroie nouvellement installée, les poulies de transmission à variation continue doivent être exemptes de tout résidu provenant de la vieille courroie, d'endroits luisants et d'huile. On peut éliminer les contaminants en ponçant légèrement la surface de contact poulie-courroie au moyen d'un abrasif doux, comme un papier abrasif de 220 à 400 grains, un tampon Scotch Brite^{MD} ou une laine d'acier. Ensuite, nettoyer à fond la surface avec de l'eau savonneuse ou une solution nettoyante pour freins afin de faire disparaître tous les contaminants. **Il est essentiel d'éliminer tous les contaminants de la surface des poulies pour assurer le bon fonctionnement de la courroie et de la transmission à variation continue.** Si des particules demeurent, cela peut entraîner un glissement de la courroie et une baisse importante de la performance du véhicule. Si une courroie doit être retirée et réinstallée lors de futurs services d'entretien, il est hautement recommandé de la réinstaller dans la même direction que la direction initiale, et ce, afin que le profil d'usure de la courroie corresponde à celui de la poulie.

Although G-Force® belts are not directionally biased, it is recommended to install them with the label lettering facing toward the user to keep belt reinstallation consistent

Même si l'installation des courroies G-Force^{MD} peut se faire dans une direction ou dans l'autre, il est recommandé d'installer les courroies de façon à ce que la marque soit face à l'utilisateur et de la réinstaller ultérieurement de la même façon.

Dirty Sheave Plates / Poulie sale

Clean Sheave Plates / Poulie propre

Dirty sheaves should be cleaned with a mild abrasive to remove rubber and other wear contaminants, as shown above by Dirty Sheave Plates. Dark wear patterns must be removed from the surface then cleaned off with an alcohol agent or brake cleaner to remove fine particulates.

Une poulie sale, comme celle illustrée ci-dessus, doit être nettoyée à l'aide d'un abrasif doux afin d'éliminer les résidus de caoutchouc et tout autre contaminant. Les traces d'usure foncées doivent être éliminées de la surface, puis les fines particules doivent être nettoyées à l'aide d'un agent nettoyant à base d'alcool ou d'une solution nettoyante pour freins.

New Belt Break-In Process

New CVT drive belts require a break-in period of at minimum 30 miles to maximize belt life and performance. The goal of the break-in period is to properly wear-in the belt to match the sheaves before applying maximum engine torque. By conservatively running through the entire shift range, proper belt contact over the entire sheave/belt contact path is optimized to eliminate belt slippage and drastically increase the belt's lifespan.

Follow these guidelines to accomplish proper belt-break in:

- > Vary vehicle speed and engine RPM to shift belt through normal operational range.
- Do not exceed 3/4 throttle within the first 30 miles of installation.
- > Stop engine and allow belt to cool down every 15 minutes of use.

During break in period, the following activities **SHOULD BE AVOIDED**:

- > Aggressive acceleration or 'jerky' throttle movements at low speeds
- > Holding engine/vehicle speed constant for extended time periods
- > Pulling heavy loads
- > Long run times without complete CVT/belt cool down

By following the break-in process carefully, the belt surface will wear-in to match the individual CVT sheaves to maximize grip performance and dramatically reduce heat, glazing, and future wear.

Processus de rodage d'une nouvelle courroie :

Une période de rodage minimale de 48 kilomètres [30 miles] est requise pour maximiser la durée de vie et la performance des nouvelles courroies d'entraînement CVT. L'objectif de cette période de rodage est d'utiliser la courroie pour qu'elle s'adapte correctement aux poulies avant d'appliquer un couple moteur maximum. En passant en douceur par toutes les vitesses, on assure un contact optimal de la courroie sur toute la surface de la poulie, ce qui élimine le glissement de la courroie et prolonge grandement sa durée de vie.

Veillez suivre ces directives pour une période de rodage adéquate :

- > Varier la vitesse du véhicule et le régime moteur pour faire passer la courroie par toutes les plages de fonctionnement habituelles.
- > Ne pas enfoncer l'accélérateur plus qu'au 3/4 pendant les premiers 48 kilomètres [30 miles] suivant l'installation.
- > Éteindre le moteur toutes les 15 minutes d'utilisation pour permettre à la courroie de refroidir.

En période de rodage, les actions suivantes **DOIVENT ÊTRE ÉVITÉES** :

- > Accélérer rapidement ou effectuer des mouvements brusques de l'accélérateur à basse vitesse
- > Tenir le moteur/véhicule à une vitesse constante pendant de longues périodes
- > Tirer des charges lourdes
- > Faire fonctionner le moteur sur des périodes prolongées, sans laisser refroidir la courroie CVT.

En suivant attentivement le processus de rodage, la surface de la courroie s'utilisera afin de mieux correspondre aux poulies CVT individuelles, ce qui maximisera l'adhésion et réduira grandement l'échauffement, le glaçage et l'usure.

Power Sport Products

Produits Power Sport

POWERLINK® CVT Belts

Powerlink® drive belts are specially designed for a variety of motorized continuously variable transmission (CVT) applications including street-legal, step-through scooters and go-karts. Powerlink belts are available as a conventional belt that offers OE-equivalent performance and durability, and a premium belt that provides longer durability for high-performance applications.

Courroie CVT POWERLINK^{MD}

La courroie d'entraînement POWERLINK^{MD} de Gates est spécialement conçue pour une variété d'applications de transmission à variation continue (CVT), telles que : scooters de ville et Go-Karts. La courroie POWERLINK^{MD} est offerte en modèle standard qui offre une performance et une résistance identiques à celles des courroies d'origine, et en modèle haut de gamme pour les applications haute performance qui nécessitent une durabilité accrue.

Marine Barricade® Hose

With a 35-psi pressure rating, this CARB and EPA compliant hose is multi-fuel and bio-fuel compatible. It has a temperature rating of -4°F to 212°F [-20°C to 100°C] and is available now in IDs ranging from 1/4" to 3/8".

Boyaux Barricade pour applications nautiques

Ce boyau, d'une pression nominale de 35 lb/po2 et conforme aux normes CARB et EPA, est compatible avec plusieurs carburants, dont les biocarburants. Sa plage de température de fonctionnement s'étend de -20 °C à 100 °C [-4 °F à 212 °F]. Il est maintenant offert en diamètre intérieur de 1/4 po à 3/8 po.

Barricade® Fuel Injection Hose

Barricade® fuel injection hose is a low-permeation, premium hose for use on all fuel systems, including fuel injection (MPI). It's approved for use with gasoline, diesel, bio-diesel including soybean methyl ester (SME), rapeseed methyl ester (RME), palm methyl ester (PME) per ASTM D6751, E-85, methanol, ethanol, ethanol extended gasoline, and gasohol fuels. A patented five-layer Greenshield® barrier technology keeps fuel out of the environment while delivering peak fuel efficiency.

Boyaux Barricade^{MD} pour système d'injection

Le boyau Barricade^{MD} pour système d'injection est un boyau à faible perméation de qualité supérieure qui convient à tous les systèmes d'alimentation, y compris les systèmes d'injection multipoint (MPI). Il convient aux carburants suivants : essence, diesel, biodiesel avec ester méthylique de soja (SME), biodiesel avec ester méthylique de canola (RME) et biodiesel avec ester méthylique de palme (PME) selon la norme ASTM D6751, E-85, méthanol, éthanol, mélange essence-éthanol à teneur élevée en éthanol et gasohol. Constitué de cinq couches, ce boyau doté de la technologie brevetée Greenshield^{MD} prévient les pertes de carburant dans l'environnement et procure un rendement énergétique optimal.

Barricade® Carburetion Fuel Line Hose

Low-permeation, premium hose for use on carbureted engines, PCV and EEC systems, and for fuel return hose on fuel injection systems. Not for use on the pressure-side of fuel injection systems. Approved for use with leaded and unleaded gasoline, diesel, bio-diesel, E-85, methanol, ethanol, and gasohol fuels. A patented five-layer Greenshield® barrier technology keeps fuel out of the environment while delivering peak fuel efficiency.

Boyaux Barricade^{MD} pour applications avec carburateur

Boyaux à faible perméation de qualité supérieure pour les moteurs à carburateur, les systèmes de recyclage des gaz de carter (RGC) et de contrôle des émissions (EVC), ainsi que pour les applications de boyaux de retour des gaz des systèmes à injection. Ne pas utiliser pour les conduites sous pression des moteurs à injection. Convient aux carburants suivants : essence avec ou sans plomb, diesel, biodiesel, E-85, méthanol, éthanol et gasohol. Constitué de cinq couches, ce boyau doté de la technologie brevetée Greenshield^{MD} prévient les pertes de carburant dans l'environnement et procure un rendement énergétique optimal.

Safety Stripe® Heater Hose

Safety Stripe® heater is an EPDM hose constructed for extra-long service life. This amazing hose is unaffected by most coolants and non-oil based coolant additives as well as by high cooling system pressures. It has a good resistance to high temperatures for extended periods of time.

Boyau de radiateur de chauffage Safety Stripe^{MD}

Le boyau de radiateur de chauffage Safety Stripe^{MD} est en EPDM, pour une durée de vie prolongée. Ce boyau haute performance est résistant à la plupart des liquides de refroidissement et additifs sans huile, ainsi qu'à la haute pression des systèmes de refroidissement. Il tolère bien une exposition prolongée à des températures élevées.

PowerGrip® SB® Clamps

These maintenance-free clamps retain dynamic tension and never need retightening. They stop leaks, even on out-of-round applications. Even in the most extreme conditions and temperatures, they clamp down better than any others. As an added bonus, they are environmentally friendly by eliminating antifreeze leaks and ground water contamination. These are easy to install with an ordinary heat gun, and conform to any shape of hose and housing, even out-of-round fittings.

Colliers PowerGrip^{MD} SB^{MD}

Ces colliers sans entretien conservent leur tension dynamique. Nul besoin de les resserrer par la suite. Ils arrêtent les fuites, même sur les boyaux qui ont un faux rond. Ils offrent une meilleure performance que tous les autres colliers, même dans les conditions et les températures les plus extrêmes. De plus, ils sont écologiques, car ils préviennent les fuites d'antigel qui contaminent l'eau souterraine. Ils s'installent facilement avec un fusil à air chaud, et conviennent à toutes les formes de boyau et de logement, même aux raccords avec faux rond.

Fuel Injection Hose Clamps

Fuel injection clamps are designed to provide the uniform sealing pressure required on fuel injection hoses. These clamps feature a solid band with rolled edges and a special nut and bolt design. The screw is a 7mm hex slotted, clear zinc-plated carbon steel, and a 9mm band width, with clear zinc-plated carbon steel.

Colliers pour boyaux d'injection de carburant

Les colliers pour boyaux d'injection de carburant procurent une pression constante, qui assure l'étanchéité des canalisations de carburant. Ils sont dotés d'une bande solide aux bords laminés, ainsi que d'un écrou et d'un boulon spécialement conçus. Ils comportent une vis à tête hexagonale fendue de 7 mm et une bande de 9 mm de large en acier au carbone avec placage au zinc clair.

32285	15	5/16"
32286	16	3/8"

Super Hex/Minex Clamps

Top quality clamps with extra-strength construction features. Super Hex clamps feature a 1/2" wide band, while the Minex band is 5/16". These are durable clamps: 200 series stainless steel band and screw housing, and can tighten to 30 in./lbs.

Colliers Super Hex/Minex

Ces colliers de première qualité sont fabriqués pour offrir une grande robustesse. La bande des colliers Super Hex est d'une largeur de 12,7 mm [1/2 po] et celle des colliers Minex, d'une largeur de 8 mm [5/16 po]. Ces colliers très durables sont dotés d'une bande et d'un boîtier en acier inoxydable série 200, et peuvent être serrés à un couple de 30 lb-po.

NaviGates®

NaviGates® is a next-generation catalog system that enables users to easily search for Gates OE quality aftermarket parts, belt routing diagrams and store locations. Optimized for web and smartphones, allows access to Gates wherever you work.

The Performance Center

Gates Performance Center offers interactive, self-directed online courses available any time of day, covering a wide range of topics within the automotive aftermarket.

Gates GAS

Connect with the Gates Team of ASE Certified Technicians online with the Gates Aftermarket Solutions [GAS] forum to find repair and replacement information, share best practices and contribute to the advancements in automotive technology.

Online

Gates provides customers, educators, technicians and consumers with the latest product and industry information in real-time.
