# Our Commitment to Service & Quality

With a combined warehouse space of 2,500 square meters in both Taiwan and China, we can offer customers a wide range of product with relatively low minimum order quantity. This gives our customers the advantage to stock a wide coverage without excessive inventory. To minimize errors and maximize packing consistency, our products are also regularly inspected by our warehouse staff before shipment. At Nakamoto, it is our firm belief that products and service are inseparable.

To insure quality, all of our manufacturing partners are ISO 9000 or TS16949 certified and are regularly audited by our quality inspectors. We also work closely with independent laboratories to cross verify that our products are of the highest aftermarket standards. In 2005, Nakamoto was also awarded ISO 9001 for operational excellence as an exporter specializing in automotive spare parts.
