Steering Systems

2011

Version 03.2011

EXCLUSIVELY NEW PARTS

BILSTEIN SteerTec® – Steering you directly to your destinations.

Introduction

When you select our rack-and-pinion or recirculating ball steering gear you are selecting absolutely reliable products: long-life steering systems that meet the very highest technological standards.

BILSTEIN SteerTec®, one of the leading OE manufacturers of hydraulically and electronically assisted steering systems, offers you cutting-edge technology to highest quality standards.

Our slogan, „Steering you directly to your destinations“, sums up our way of thinking: Our excellent knowledge of steering technology puts us a step ahead of the state of the art. And guarantees our customers continuous innovations for maximum safety and best possible driving comfort.

Innovative high-end technology

Made in Germany

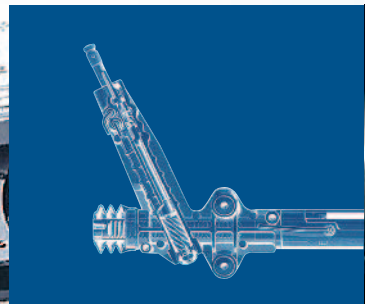

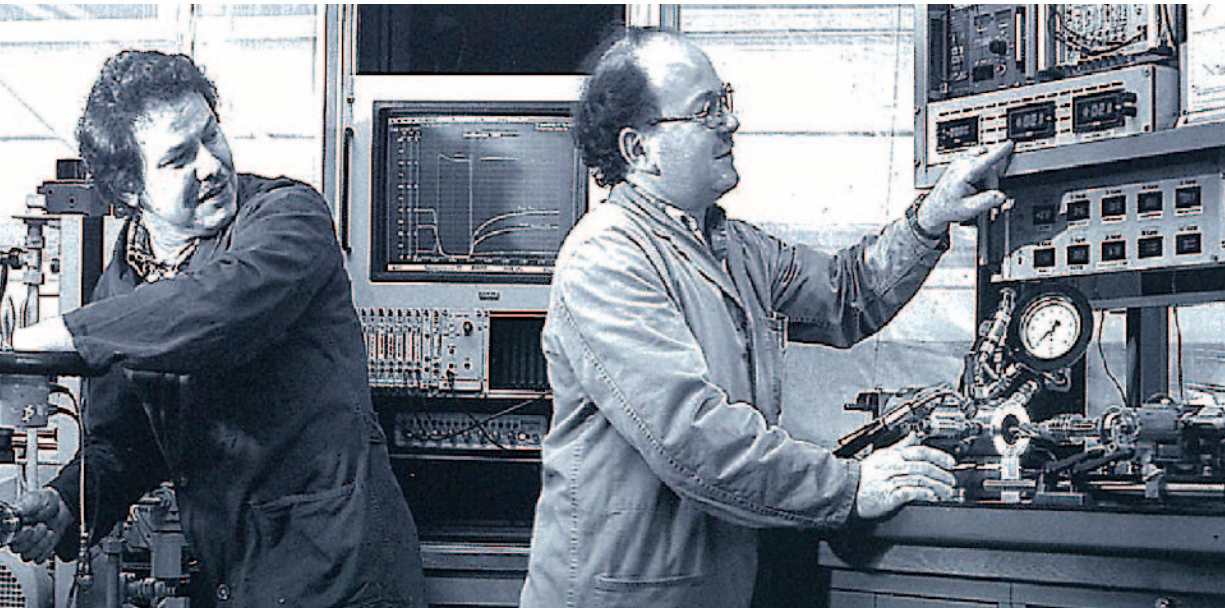

The permanent innovation process is the business basis that has made ThyssenKrupp Presta SteerTec one of the leading global players in the field of steering systems.

BILSTEIN steering systems are manufactured in a modern, highly automated production with in-house production technology. Decades of expertise in the development and in the selection of materials, combined with highest safety standards guarantee that our products are always of excellent quality.

Long-life, safe, economic and comfortable: Our requirement is to manufacture steering gears for passenger cars and commercial vehicles that offer optimum performance in terms of mileage, precision and economy. This is why we supply only newly manufactured steering gears for the aftermarket.

Leading the way for half a century

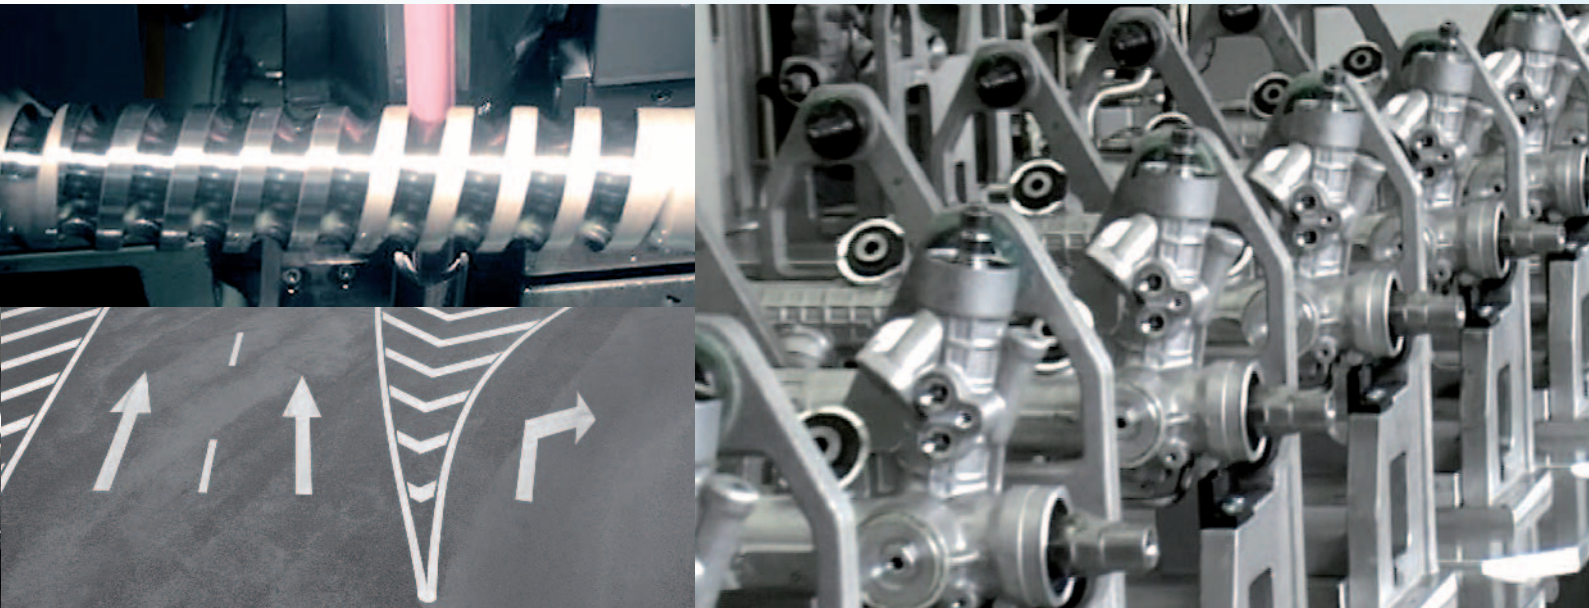

1962

Our competence in the steering segment is based on our wealth of experience: We have been manufacturing steering gear since the 60s – Daimler-Benz started the production in Duesseldorf in 1962. Ten million steering systems had been produced by 1981, by 1994 this figure had risen to 20 million, by 2003 to 30 million and the 40 million mark will be achieved milestones in 2011.

Milestones of ThyssenKrupp Presta SteerTec GmbH

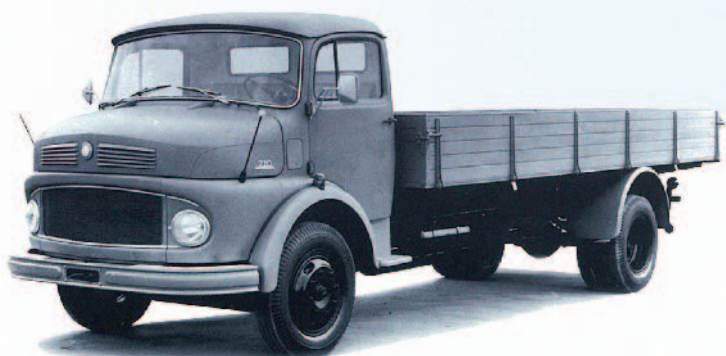

- 1962** Daimler-Benz starts production of recirculating ball steering gear at the location Duesseldorf
- 1994** Production start of rack-and-pinion steering gear for passenger cars and vans
- 2000** Start EPAS Systemhaus (systems vendor) Esslingen for electromechanical steering systems
- 2002** Production start of electromechanical steering gear in Schoenebeck
- 2005** ThyssenKrupp becomes sole shareholder of SteerTec GmbH (all business locations)
- 2010** Production start of electromechanical steering gear in Muelheim
- 2011** Start of sales of BILSTEIN steering systems in the aftermarket

Our customers point the way forward

Reliable service for pioneering products: Customer-oriented thinking and close cooperation with our partners are cornerstones of our thinking.

Our goal is to continuously increase customer satisfaction. How do we achieve this? Through very competent and highly motivated employees, in both production and in service. And, of course, through our established production system, which we offer you for our quality products.

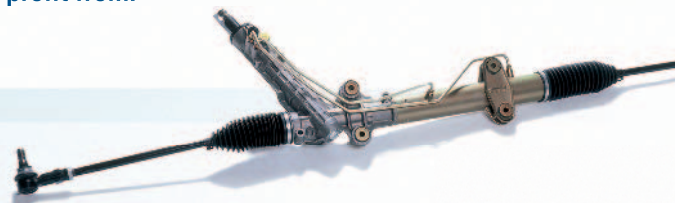

Rack-and-pinion steering systems – Your driving comfort is our motivation

Our answer to the continuously increasing requirements in automotive engineering: high manufacturing expertise. BILSTEIN rack-and-pinion steering systems for passenger cars and vans combine experience and quality to most modern systems with numerous innovative features. You can rely on safety and driving comfort in the passenger car and van sector.

With our hydraulically controlled rack-and-pinion steering systems, you profit from:

- Exclusively newly manufactured steering gear to OEM specification
- Steering gear with completely pre-assembled tie-rod kits
- Stringent inspection to strict OEM quality standards
- Products for front-axle loads up to 3000 kg (vans)
- An optimum transfer of steering forces
- A variable steering ratio to reduce the steering effort and improve vehicle handling

BILSTEIN SteerTec® rack-and-pinion steering systems (ZS 045/048/050/054, LZS 1/2/3) for the following vehicle types:

Compact class	 	Vans	
Mid-size class	 	Bus	 
Luxury class	  	Wide-body vans	

MB S-/CL Class	BR 220/215	MB Sprinter	BR 901 - 905
MB SL Class	BR 230	VW LT 2	LT2
MB C-/CLK Class	BR 203/209	MB Vito/Viano	BR 639
MB SLK Class	BR 171	MB Sprinter	BR 906
MB E/CLS Class	BR 211/219	VW Crafter	LT3
MB S-/CL Class	BR 221/216		

Recirculating ball steering systems – System modules for highest commercial vehicle standards

Modern recirculating ball steering systems for commercial vehicles are intended to make steering and manoeuvring easier for the driver. Furthermore, the mechanisms themselves ought to be as lightweight as possible and thus contribute to weight reduction. The modular construction system of BILSTEIN SteerTec® meets these requirements and guarantees excellent handling characteristics.

With our recirculating ball steering systems we offer you:

- Exclusively newly manufactured steering gear to OEM specifications
- Stringent inspection to strict OEM quality standards
- Strong solutions for front-axle loads 4000 kg - 9000 kg
- The best ratio between weight and hydraulic torque
- High mechanical efficiency through tension-free, low-friction design
- High steering precision and optimum road-holding combined with reduced manual effort during manoeuvring thanks to the variable steering ratio
- A modular system for different vehicle manufacturing designs

BILSTEIN SteerTec® recirculating ball steering systems (LS4/6/8 Bk, LS 8/2) for all models of the following commercial vehicles:

Light duty class		MB Vario MB Atego
Medium duty class		MB Axor MB Actros MB Unimog
Heavy duty class		MB Econic MB Zetros
Special vehicles
