WARRANTY POLICY

US Motor Works, LLC

- USMW brand of US Motor Works, LLC products are warranted to be free from defects in material and manufacture, under normal use and service
- US Motor Works coverage will extend a full 12 months from the date of installation in an engine regardless of mileage or hours.
- US Motor Works will cover (replace free of charge or pay for) all labor and parts needed to repair the warrantable failure, including progressive damage to the engine concerned.

Conditions of the warranty are:

1. US Motor Works must be notified by the customer before filing a warranty claim.
2. All warranty claims must be in writing and US Motor Works reserves the right to examine every single engine or part subject to a claim under this warranty
3. Price of parts will be based on the US Motor Works current price list or other accepted suppliers at US Motor Work's option. Cost of labor will be of reasonable hourly flat rate (overtime or holiday rates are not accepted).

The warranty is also subject to the following limitations:

1. The provisions of this warranty shall not apply to any US Motor Works (USMW) brand part altered from its original specification (including but not limited to alterations in packaging and/or markings) or which has been misused, exposed to weather conditions, negligence or damage by accident.
2. The warranty shall be null and void, if the engine or vehicle is not maintained to the suggested OEM level. All receipts and record should be accounted for in the event it is requested for the warranty analysis.
3. This warranty is provided solely to direct customers of the US Motor Works and not any other party. It is the only agreement or obligation of US Motor Works. All other warranties, expressed or implied, including the warranties of merchantability and/or fitness for a particular purpose, are excluded.

HEAVY DUTY

USMW Heavy Duty Water Pumps are designed to the latest OE specifications. All product applications have been designed and tested to meet or exceed original equipment specifications. Our advanced research has implemented the use of the latest designed impellers, hubs, bearings and seals that will provide optimum cooling with performance and longevity. We use the highest quality material to create a stronger body design with less corrosion.

GENERAL FEATURES:

- * 100% Leak tested and hub-pull tested to our high quality standards.
- * Designed and manufactured with the best NEW unitized seals to ensure long, trouble-free performance.
- * Each unit uses bearings designed as specified by the original equipment manufacturer to meet specific radial torque and axial load requirements of each application to give long bearing life.
- * Every Water Pump is supplied with a quality mounting gasket and other accessories (seals/gaskets) necessary to properly complete the installation.
- * Manufactured to original casting specifications for proper fit, easy installation and proper water flow for maximum cooling.
