ABOUT US

OUR HISTORY

We open offices in Vienna, Brussels, Kyiv and Moscow. The firm is featured in "TheLawyer" directory for the first time.

Dmitrij Pichugin, attorney-at-law, buys out the shares of all partners. He carries out the firm's re-branding and optimises its administrative processes, operational efficiency and customer interaction. The firm is repeatedly featured in the Banking & Finance section of the IFLR1000 ranking.

We represent clients in various interactions, and/or disputes, with banks, investment firms and other financial institutions.

We advise on compliance with international and national legislation governing tax information exchange, anti-money laundering and counter-terrorism financing, as well as on FATCA-related issues.

Any information disclosed by the client to the lawyer is confidential and is protected by the attorney-client privilege.

IMMIGRATION

We represent our clients in their interactions with the immigration and naturalisation authorities. We assist with all types of requests for temporary or permanent residence, citizenship, complex cases of migrant status changes, and residence permits in exchange for investments.

Our lawyers offer expert advice on the steps necessary in the circumstances, the procedure and the applicable requirements imposed by the relevant authorities. If you are looking for a second opinion after having obtained initial advice, we are there to help you.

We also help establish the applicant's tax residency and justify it to authorities both in the country of residence and the applicant's home country.

EMPLOYMENT

The range of our services related to employment law includes advising clients on staff hiring and firing conditions, prospective taxation of their salaries and compensations, voluntary or compulsory insurance against accidents and temporary/permanent or full/partial disability, as well as providing recommendations on various issues related to employer-employee relationships.

Where necessary, we can be instructed to take up the initial selection of candidates for a particular position, draft the required contractual documentation, and assist in carrying out of individual dismissals or staff layoffs in accordance with the applicable law.

Our lawyers can act as mediators in employment disputes involving employers, employees and trade unions.

We support clients in obtaining individual tax rulings and assessments as well as advise on international tax planning issues.

Tax audits and representation in disputes with tax authorities are also part of our key services.
