

Centro FOCUS

The Centro
magnetic lock
with bolt

Centro FOCUS - The Centro magnetic lock with bolt

Centro FOCUS is a remarkably silent central lock with magnetic movement.

The standard hole makes **Centro FOCUS** interchangeable with the **Mediana** and **XT** locks.

The magnetic latch ensures extraordinarily silent operation.

The bolt protects your privacy.

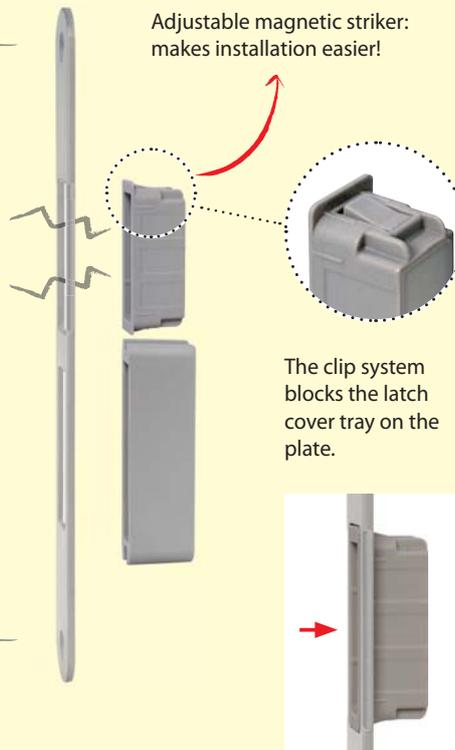

Available in 3 closings:

Easy-fix XT striker

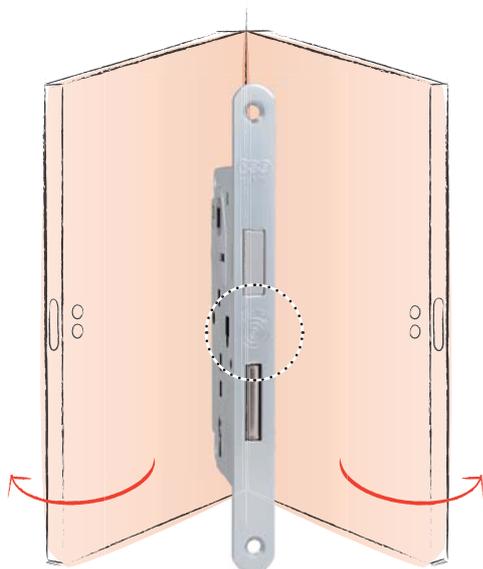

Adjustable magnetic striker: makes installation easier!

The clip system blocks the latch cover tray on the plate.

Centro ... symmetrical!

The position of the handle hub and the key, symmetrical in relation to the centre of the panel, make the lock non-handed. The number of panels in stock is considerably reduced.

Total quality

100% MADE IN ITALY

The fully automated production process ensures the testing of every single lock produced.
