ECLISSE began producing sliding pocket door systems in 1989 in its factory near Treviso in Italy and became an immediate success.

This rapid success was based on highly innovative product design and advanced production techniques. Better products and better design quickly led to expansion throughout Europe where ECLISSE has become the largest producer of these systems. Its aim is to develop a construction technology characterized by innovation and excellence of quality standards. It took more than 30 patents to make ECLISSE frames revolutionise the way we think about sliding door systems.

Doors slide effortlessly inside the wall, opening up the room and changing your perception of space.

ECLISSE is a leading company in its sector in Italy and exports its products worldwide. With more than 2000 customers located in all areas, ECLISSE markets its products all over Europe and in the main non-European countries using a commercial network born in 1995 with the opening of the first sister company in Quimper, France.

Further subsidiaries were established in Poland, Austria, Czech Republic, Slovakia, Spain, Brazil, Germany and Romania. In all the other countries ECLISSE is present with distributors and/or agents.

Fax +39 0438 980 804
international.sales@eclisse.it

ECLISSE company designs and manufactures sliding pocket door systems, referring to electrical accessories and automations for pedestrian doors, complying with the regulation UNI EN 9001.

ECLISSE has its products tested wherever possible by independent testing laboratories such as the Milan based authoritative C.S.I. in order to openly demonstrate the quality and reliability of its products. ECLISSE also chose to voluntarily adopt a Management System for Safety and Health of Workers in accordance with OHSAS 18001.

OHSAS identifies an internationally recognized standard that aims to protect the safety and health of its employees and all those who come in contact with the business.

Durability

Test in accordance with the European norm UNI EN 1527.

After 100,000 opening and closing cycles (equal to 30 years of use) the runners showed no significant traces of wear or damage whatsoever.

The fully extractable track

It is made from the more expensive aluminium alloy 6600 (UNI 9006:1) and protected by a 10 µm anodic layer with a T5 thermic treatment.

Strong shock resistance

An ECLISSE pocket door system was left completely undamaged after passing the European recognised shock test (a 30 kg bag crashed into it from different heights in line with UNI EN 1629:2000 requirements)

Capacity load test for ECLISSE EWOLUTO® SLIDING

the pocket door ECLISSE EWOLUTO® has been tested in order to evaluate its static load bearing capacity.

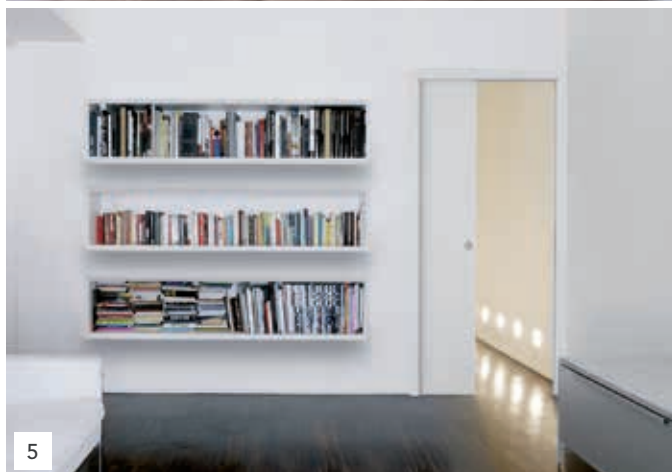

The load capacity of a wall unit with two fixing points is max 180 kg (close to the wall) when installed with rawl bolts, 360 kg when installed with chemical anchors. The load capacity of a handle with four fixing points (600 mm far from the wall) is max 100 kg when installed with chemical anchors and threaded rod.

Anti-corrosion resistance

An ECLISSE sliding door system showed no sign of rusting after 240 hours of salt spray test in a 95% humidity environment. C.S.I. Test.

ECLISSE CLASSIC COLLECTION

WITH ARCHITRAVES

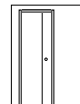

- 1. ECLISSE SINGLE

HOW TO CREATE THE CODE

TO IDENTIFY THE CODE SPECIFY:

ET 0600 0400 C 1 0

ET in the code

4 digits to identify
width in mm: **Width = L**

4 digits to identify
the height in mm: **Height = H**

1 letter to identify the type:

A= Single door
B= Double door
C= Top Hung Panel
D= Bottom Hinged Panel
E= Extractable door*

1 letter to identify the lock
0= Push-pull
1= "Pull Lever"
2= key

1 letter to identify the hinges
0= Extractable
1= 165° (no extractable door)

Example code: ET06000400C10

This code identifies a ECLISSE SYNTESIS® TECH model Width 600 mm and Height 400 mm single top hung panel with 165° hinge - Push-pull

* THE EXTRACTABLE DOOR DOES NOT REQUIRE HINGES

ECLISSE SYNTESIS® FLUSH COLLECTION

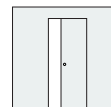

DOORS

To complete the ECLISSE SYNTESIS® COLLECTION products, ECLISSE offers a range of doors with different finishes, both for sliding and hinged versions, as well as various solutions for baseboards flush with the wall.

The door range includes finishes in different materials, from primer versions ready to be personalized with colors or with wallpapers, to trendy wood essences and the most versatile lacquered or glass doors.

From design to technical proposals, choose the most suitable for you.

LOCK KITS - HANDLES

ECLISSE offers a range of lock kits supplied for sliding pocket doors and for hinged doors, both for glass and wooden panels.

The EASY lock kits designed for pocket doors are equipped with the ECLISSE patented self-centering system which allows to reduce the installation time and ensures an optimal closure functionality.

The lock kits are available in different finishes, a feature that makes them easily matching with any type of door.

GENERAL SALES TERMS AND CONDITIONS

ORDERS

All orders shall be forwarded to our local agent together with the correct descriptions of the products. Any order forwarded directly to our offices shall be accepted only if sent by fax or email. All orders are subjected to our approval.

POCKET DOORS

Specify model, version (solid wall or stud wall), dimension, finished wall thickness, code.

PRODUCTION TIME

30 working days for ECLISSE CIRCULAR and ECLISSE EWOLUTO® models.

15 working days for all the other counterframes.

TRANSPORT

Goods are always dispatched EX WORKS at the buyer's own liability.

RETURNS and ALLOWANCES

Any return and allowance shall first be notified by e-mail, fax or letter and is subjected to our written authorisation.

Any complaint shall be notified within 8 days from the delivery of the goods.

CANCELLATION OF ORDERS FOR NON STANDARD COUNTERFRAMES

- Orders can be cancelled within 48 hours without charges
- After 48 hours, it will be charged 100% of the total amount

PAYMENTS

Any delay of the payments will result in arrears interests, amounting to the current prime rate, increased by 3%.

JURISDICTION

Any dispute shall be submitted to the Jurisdiction of the Court of Treviso "CURIA MERCATORUM" (Italy).

WARRANTY

ECLISSE gives a 12-years warranty on:

1. Galvanized steel components of the pocket door
2. Runners
3. Aluminium extractable track

All other products are guaranteed for 24 months, according to the existing laws for the consumer protection (Consumer Code).

The warranty is void if:

1. Assembly instructions are not respected
2. Defective parts have been tampered with or repaired
