TECHNOLOGIES DEVELOPMENT HISTORY

Tatyana Petrovna Konopleva is the managing director and founder of DEHolding, and a leading expert in bio-resonance. Dr. Konopleva has run the company for more than 20 years. Under her management many new compact and simple devices have been produced and the Company is now represented in Europe and Central Asia. She has elevated the application of bio-resonance technologies to a new level. Her belief in the comprehensive approach to health protection and recovery has made the technology more accessible for ordinary people. Dr. Konopleva continues to teach, educating the public in the correct and efficient use of bio-resonance technologies.

ABOUT THE TECHNOLOGIES

DeVita technologies are based on bio-resonance therapy methods developed by Russian and foreign scientists. They work on two basic principles:

• The Recovery principle is embodied in the devices DeVita Ritm Base, DeVita Energy and DeVita Cosmo. These devices generate electromagnetic field impulses in the low frequencies range, which coincide with physiological and regulatory frequencies of our body. Each of the programs creates the resonance in the relevant organs and systems.

• The Antimicrobial principle is embodied in the device DeVita AP Base. Its action is based on the emission of electromagnetic waves which resonate with the vibrations of various parasites: from viruses to helminthes. DeVita AP Base acts against pathogens that gives the body the opportunity to function naturally unaffected by external factors or conditions.

SCIENTIFIC DEVELOPMENT

DEHolding Company has been in development for more than 20 years. The company began its exploration of the devices based on the research of the following esteemed scientists:

Alexandr Gavrilovich Gurvich

The scientist who established the fact that any organism consisting of many cells has an electromagnetic field generated by those cells. As a result, the electromagnetic field of the individual organism comes into existence, and this field is essential for the organization of physiological processes/

Royal Raymond Rife

Fixing individual frequencies of various pathogens and inserting them into resonance, Rife showed a new method of struggle against dangerous microorganisms. It is worth noting that such exposure is safe for human cells. The scientist has created an extensive list of frequencies of microorganisms affecting the human body.

Reinhold Voll

Voll found that therapeutic effect of electrical currents at acupuncture points depend on their frequency. And even the slightest change in frequency may have different therapeutic effects. Contributions to the development of this study were also made by such scholars as F. Kramer, D. Klaus and P. Schmidt.

Helmut Schimmel

Schimmel, the founder of the modern BRT-method, diminished the number of working points down to one and transformed the principle of measurement “placing the organs into ampoules”. Before Schimmel, conditions of the organs were measured via different points. Now only one “reproducible” point is the source of information and the drug-indicators are tested directly at this point.

DeVita technologies – we create our healthy future together!
The Homo-Toxicosis Theory of Dr. Reckeweg

Heinz Heinrich Reckeweg,
MD, researcher.

Dr. Reckeweg created the homo-toxicosis theory which considers toxins as the main source of health problems. Dr. Reckeweg was the founder of the new direction in health improvement and recovery, which puts at the forefront the body's cleansing and detoxification.

Dr. Reckeweg identified 6 phases of the passage of homo-toxic reactions. Each phase reflects a lesion of deeper structures of the body and more severe changes. For the first two phases the body detoxifies itself adequately without harm for its livelihood. During the third and fourth phases the toxins accumulate in the body tissues which become super-saturated with them. At the fifth phase irreversible consequences begin which can lead to very sad circumstances.

The Six Phases of Development of the Body’s Reaction to Toxins

**Humoral Phases**
- **Phase One**: The natural elimination of toxins through body orifices
- **Phase Two**: Beginning of inflammation and increased release of toxins

**Matrix Phases**
- **Phase Three**: Accumulation of toxins and occurrence of secondary infections
- **Phase Four**: Penetration of toxins inside the cells

**Cellular Phases**
- **Phase Five**: Destruction of cells and formation of decomposition products
- **Phase Six**: Occurrence of malign tumors

HOW THE TECHNOLOGIES WORK

According to the homo-toxicosis theory the recovery process follows in reverse order. It is very important not to miss all the “points of the recovery”. DeVita technologies allow the implementation of maximum deep cleansing of the body which not only withdraws the symptoms but leads to the complete elimination of the problem.

ADVANTAGES OF THE DEVICE

- SAFETY: it has a minimum of contraindications
- EFFECTIVENESS: the technologies are recognized by leading scientific organizations
- PORTABILITY: an accessible device always at hand
- VERSATILITY: use the device for whole-body wellness
- SIMPLICITY: easy interface and patterns of use
- RELEVANCE: downloaded additional programs that are right for you

PRINCIPLE OF OPERATION

DeVita technologies are based on radiation of super-weak electromagnetic waves which influence the whole body and individual organs due to the bio-resonance effect. The bio-resonance is strengthening the natural oscillations of organs due to electromagnetic waves of the same frequency. Bio-resonance radiation of the DeVita devices can be estimated by an oscillograph, the instrument for monitoring and measuring the electromagnetic waves.

ELECTROMAGNETIC ACTION OF DEVITA AP BASE

The action is adjusted to oscillations of pathogenic microorganisms. Anti-parasite eradication deactivates pathogenic microbes and ensures their safe removal from the body.

BIORESONANCE ACTION OF DEVITA RTM BASE

This is similar to electromagnetic oscillations of healthy organs. The organs of our body are constantly affected by pathogenic oscillations and lose their healthy rhythm. DeVita RTM Base ‘readjusts’ the organs to the healthy oscillations.

ELECTROMAGNETIC ACTION OF DEVITA ENERGY

The action of this device is based on the principle of ‘floating frequencies’. Such radiation is quickly and efficiently perceived by the body. That’s why the DeVita Energy program after just 10 minutes returns to the body its energy and tone.
**DEVITA ENERGY**

DeVita Energy is the culmination of the extensive experience of DEHolding’s best experts, who united in one program the most efficient frequencies neutralizing stress, increasing body tone and improving the state of the whole body. The principle of ‘floating frequencies’ was used in the creation of DeVita Energy. Unlike other devices of the DeVita series, which operate at a fixed frequency, DeVita Energy uses variable frequencies which are preferable from the physiological point of view and are better accepted by the body. Within just 10 minutes you are full of cheerfulness and positive vitality. Portability of the device allows its use in practically any situation.

**RECOMMENDATIONS FOR USE**

DeVita Energy device is a generator of weak electromagnetic radiations identical to the radiations present in natural organic systems. It is intended to strengthen the body’s own protective abilities and to correct the natural electromagnetic radiation of bio-systems. The principle of corrective action is based on the use of the relevant frequencies in accordance with the methods of R. Rife, R. Volli and F. Morel.

**DEVITA ENERGY IS USED TO HELP:**

- Frequent stressful situations
- Long distance traveling
- Meteor-sensitivity
- Physical and mental workloads
- Negative impact from home appliances

**FEATURES OF THE EFFECT**

DeVita Energy is the device that helps with struggle stress, awakening energy and improving all body functions. The basic program of the device consists of several frequencies aimed at harmonizing bodily functions, neutralizing stress, offering protection from domestic pathogenic factors.

The capabilities of DeVita Energy:
- reduces the stress level, improves mood;
- energizes, gives cheerfulness;
- increases mental and physical capacity;
- protects from harmful radiation of household appliances and unfavorable environmental conditions.

DEVITA RITM BASE

DeVita Ritm Base action is based on scientific research of R. Voll and A. Kramer, who studied electromagnetic radiation of the human body. According to their scientific research every organ of the body has its own electromagnetic oscillations. The oscillations of weakened organs differ from healthy ones. Bio-resonance frequencies of low intensity imitate the oscillations of healthy organs and ‘tune up’ the organism to a ‘healthy wave’. As a result the body rehabilitates itself. DeVita Ritm Base has certain frequencies for different organs and harmonizes their functioning. The basic programs are aimed at solving the most common problems; it is possible to install additional programs.

DeVita Ritm Base helps to maintain a natural hormonal balance, improves functioning of organs and prevents premature age-related changes.

RECOMMENDATIONS FOR USE

DeVita Ritm Base is a generator of weak electromagnetic radiations identical to the radiation of natural organic systems. It is intended to strengthen the body’s own protective abilities and to correct the natural electromagnetic radiation of bio-systems. The principle of corrective action is based on the use of the relevant frequencies discovered by R. Rife, R. Voll and F. Morell.

DEVITA RITM BASE IS USED TO HELP:

- INCREASED MENTAL WORKLOADS
- REDUCED IMMUNITY
- GENERAL FATIGUE
- HEAVY PHYSICAL EXERCISES
- SKIN AND HAIR PROBLEMS

FEATURES OF THE EFFECT

DeVita Ritm Base – is an electromagnetic device harmonizing activity of organs and systems of the body. The device generates electromagnetic field impulses in the low frequencies range which fit physiological and regulatory frequencies of our body. Each of the programs creates resonance in the relevant organs and systems giving them additional energy for harmonization and recovery.

Capabilities of DeVita Ritm Base:
• ‘tunes up’ the internal organs on a ‘healthy wave’, increases immunity;
• improves blood circulation, removes stress from the spine and joints and regulates digestion;
• good for students: improves memory, concentrates attention and reduces eye fatigue;
• supports muscular tone, restores the body after a heavy workout.

THE MOST DANGEROUS HEALTH PROBLEMS

- Cardio-vascular system problems: 61%
- Respiratory tract infections: 26%
- Stomach and intestine diseases: 9%
- Other: 4%
DEVITA RITM BASE FREQUENCIES

DeVita technologies are based on super-weak electromagnetic radiation which has a positive effect on the body and its organs owing to the bio-resonance phenomenon. DeVita RITM Base device radiation works as a fading sinusoid. Such kind of radiation is the most harmonic for health of internal organs.

The electromagnetic waves used in DeVita devices are protected with patents of Deva-Elis Holding.

DEVITA COSMO

DeVita Cosmo is based on the research in the field of quantum theory of light. Visible light has a wide color spectrum constituted of electromagnetic radiations of different wave-lengths and frequencies. Each color can influence the specific organs or systems through skin receptors. Thus, such coercion is implemented according to reverse-reflex connection on the Zakhanyin–Ged zones located on different parts of human body, including face, neck etc. Due to the reflex effects on the nerve endings and activation of the synthesis of biologically active substances, quantum radiation restores the balance of body systems and helps to restore their functions.

RECOMMENDATIONS FOR USE

DeVita Cosmo – aims to improve health by integrating bio-resonance technology and quantum properties of light. Unlike conventional cosmetic devices, DeVita Cosmo acts on the deep skin layers, improving skin from the inside. The programs of general health improvement could be used for all family members.

DEVITA COSMO IS USED TO HELP:

- Preserving the youthful skin
- Strengthening the hair and nails
- Cleansing the skin and relieving inflammation
- General improvement of health
- Relieving fatigue

FEATURES OF THE EFFECT

DeVita Cosmo combines two effects: bio-resonance and quanta of light. The quantum radiation is one of the varieties of electromagnetic radiation. The effect is based on the fact that every human cell contains photo-acceptors which react on the light. The photo-acceptors keep healthy balance inside the cell, and under quantum radiation improve metabolic processes and exchange of energy. Quantum radiation has many positive effects: it improves color of the face, hair, and skin structure, strengthens nails, and helps to heal internal organs.

Advantages of DeVita Cosmo:

- Combines the effects of bio-resonance and quantum technologies;
- Fights signs of aging, tightens the skin;
- Relieves inflammation, helps with acne and rosacea;
- Has beneficial effects for the skin, hair, and nails.

CARDIAC RHYTHM AND BODY’S RESOURCES

CARDIAC RHYTHM — is a general body response to the external and internal irritants. From extreme antiquity, healers learnt to make a diagnosis using cardiac rhythm, to determine illness severity and to project its development. Pulse has four key indicators:

FREQUENCY is the number of cardiac beats within a certain period of time.
РЯДИМ is the regularity of consecutive pulse waves.
НАПОЛНЕНИЕ is the filling up of an artery with the blood ejected by the heart at heart contractions.
НАПРЯЖЕННИЕ is the value of applied force for complete compression of the artery.

Using these indicators, one can evaluate general state of health with high precision. So, cardiac rhythm health testing is therefore one of the most informative.
HOW THE FORMULAS WORK

They give you energy and vitality. Well-balanced vitamin and micronutrient complexes packed into an easy-digested formula relieve fatigue and stress.

They help your body to remove toxins and wastes. Natural sorbents and herbal antioxidants remove accumulated toxins and enable the organs to function more efficiently.

They maintain acid-alkaline balance of your internal environment. The food that acidifies your body such as meat, milk, baked products, etc. leads to early aging and progression of disorders and diseases.

The formulas preserve your inner and outer youth. Special formula with collagen and hyaluronic acid makes your skin smooth and healthy, your muscles and ligaments elastic and strong.

HOW THE INGREDIENTS FUNCTION

Collagen is one of the skin structural proteins. It acts like a skin supporting frame which preserves its elasticity. Collagen is vital for your joints and spine, it provides their flexibility and elasticity. Collagen content in a body decreases with aging, the skin becomes flabby and joints brittle.

DelixirCollagen + usage will enable you to normalize collagen losses and restore your inner and outer youth.

pH balance is the correlation of acids and alkalins in a body. It is crucial to keep acid-alkaline balance of your internal environment. However, most food that we consume over-acidifies our body. The most food product on our tables such as meat and fish, cheese, sweets, white bread and different sauces are acidic foods.

Over-acidification causes malfunctioning of a body and severe problems. DelixirpHBalance helps you to regain the balance.

Positive comment on DeVita technologies
from the Academician of the Russian Academy of Medical Sciences, Doctor of Medical Sciences, Professor, President of Gerontologists and Geriatricists Association of the Russian Federation Dr. Shabalin:

Health-saving technologies and series of DeVita electromagnetic (bio-resonance) therapy devices by the Russian company DETA-ELIS HOLDING are the perfect example of comprehensive health improvement innovations. Bio-resonance therapy is a new, rather promising trend in clinical and preventing medicine. The aim of the trend is to evaluate and adjust health state, functional activity and energy resources of human organs and systems. Strengthening of healthy and weakening of pathogenic electromagnetic oscillations in a human body is the efficient outcome of DeVita technologies which improve life quality. In order to intensify innovative development of health care system of the Russian Federation, to boost the availability and quality of high-tech medical care for ordinary people including elderly persons, to promote the advancement of national innovative projects, also considering the experience and the positive results of DeVita electromagnetic therapy innovative technologies, it is essential to develop scientific research facilities and manufacture of DeVita bio-resonance therapy devices by DETA-ELIS HOLDING for their extensive application.

Positive comment on DeVita technologies
from the President of the Russian Academy for Medical and Technical Sciences, Doctor of Engineering Sciences, Professor, Honored Scientist Dr. Leonov:

Health improvement innovations based on bio-resonance therapy are the promising trend in medical rehabilitation. The principle of the method consists of improvement of body functions by means of influence of resonance electro-magnetic oscillations. These oscillations are attributable to eradication of live organisms intended to both neutralization of pathogens and regeneration of healthy oscillations which were impaired at pathogenic conditions, in other words for harmonization of wave processes in a human body.

In this market segment DeVita electro-magnetic therapy technologies of the Russian DETA-ELIS HOLDING Company have very serious positions. DeVita devices are meant for the enhancement of genuine body defenses and correction of natural genuine electro-magnetic radiations of bio-systems. DeVita technology application is aimed at strengthening of healthy and weakening of pathogenic oscillations in a body, accomplishing health improvement function.

DeVita bio-resonance therapy technologies of DETA-ELIS HOLDING can be widely used for preventive and health improvement purposes. It can be used as an effective extra tool for rehabilitation medicine.

Positive comment on DeVita technologies
from Doctor of Medical Sciences, Professor, Head of clinical diagnostic laboratory of Moscow Regional Research and Clinical Institute n.a. M.F. Vladimirsky (extract from the interview):

...Thank you for your gift; this device; now I’ll do it before the use, and only after that I will take a blood sample in-vitro and will check what it is. But I want to say, what is going on in general. Your operating modes, your waves that you streamline and the movement vector are perfectly right. And I admire the inventors of these modes <...> you’ve chosen the right vector. … Readjustment of both intra-molecular and inter-molecular interactions happens with the help of your oscillating processes.

Of course, I am fascinated by your inventions and devices. We have seen that morphologically. It was so wonderful because from the very beginning it was so unbelievable with some skepticism. But now we are so interested in that. You just sit and work; then you get surprised when see such regularity. The patients have different diseases, that’s why the results differ, but the regularity exists, absolutely, in the majority of cases.
Акт приёмки-сдачи продукции, полученной в результате Договора возмездного оказания услуг №_111_/Д-ИШ от "17" августа 2015 г. между ООО «ДЕТА-ЭЛС ХОЛДИНГ» (Заказчик) и ФГБНУ «НИИОП» (Исполнитель)
Москва, 04.09. 2015 г.
В соответствии с условиями "Договора", "Исполнитель" по заданию "Заказчика" провел оценку эффективности прибора «Devita RITM, Devita AP, Devita ENERGY».
Условия проведения исследования:
1. Для исследования взято 20 образцов сыворотки крови больных терапевтического, эндокринологического, педиатрического, дерматовенерологического и гастроэнтерологического отделений многопрофильного научно-клинического института г. Москвы.
2. Сыворотка крови каждого пациента разделена на 6 пробирок по 100 мл:
0 – контроль (без воздействия);
1 – общий режим;
2 – режим улучшения кровообращения;
3 – режим детоксикации;
4 – режим «Лимфодренаж»;
5 – режим повышения уровня энергии.
3. На каждый образец сыворотки крови (каждо 600) был оказан электроимпульсное воздействие аппаратом «Devita RITM, Devita AP, Devita ENERGY» по заданным в нём различным программам.
4. После электроимпульсного воздействия, методом клинико-диагностической оценки тяжёлые структуры сыворотки крови, в которых оценивали системно и локально организму нано- и микроволны, влияющие на функционирование и клеточные процессы после воздействия электромагнитных полей, и спустя сутки после воздействия.
