

A photograph of two healthcare professionals, likely nurses, sitting on a grey tufted couch. The woman on the left is wearing bright orange scrubs and has a white stethoscope around her neck. She is smiling and looking towards the camera. The woman on the right is wearing light blue scrubs and has a black stethoscope around her neck. She is also smiling and looking towards the camera. The background is a bright, out-of-focus indoor space with a window showing greenery outside.

# HOW TO MEASURE

## CHEST

- With arms relaxed at your sides, measure the fullest part of the chest.

## WAIST

- Measure under the natural waistline, loosely holding the tape measure.

## HIPS

- Standing with feet together, measure around the fullest part of the hips.

## INSEAM

- Select a pair of your best fitting pants of a similar material. Measure along the inside of the leg, from just below the crotch to the bottom of the pant.

## LENGTH

- We recommend petite for women up to 5'2", regular length for up to 5'6", and tall length for 5'7" and above.
