DESERT ROSE

System

Texture decorative system with sandblast effect.

DESERT ROSE is acrylic refinishing for interior decoration with satin sandblast effect. Its irregular texture creates designs similar to the signs the wind makes on the sand dunes. It is indicated for both, modern and classical environments.

DESERT ROSE is perfect for protection and decoration of internal walls of modern and antique prestigious buildings as villas, hotels, banks and offices.

Application

Spalter 1x10cm or Brush 3x10cm: Product diluted at 5-10% with water.

6-8 hours after PRIMER LISCIO application, proceed with application of DESERT ROSE with cross brush movements. To obtain a surface with more sand and shades it is possible to apply second coat of DESERT ROSE trying to fill the empty spaces. It is possible to have various effects of DESERT ROSE as oblique or simply vertical applying the product in one direction only.

Types

Desert Rose cool base — for creating cold colors

Desert Rose warm base — for creating warm colors

Desert Rose gold base — pure gold colorable other shades

Desert Rose exists in DIAMOND edition — is a basic sandblast finish with metallic nuances of gold and silver glitters. This effect reached by special additives— GLITTERS, which presented in different colors and shades. For creating DESERT ROSE DIAMOND edition you need 180 gm of glitters per 4 lt of DESERT ROSE BASE. If need covering from color chart, then before putting glitters you need to color DESERT ROSE BASE. Before application mix carefule created mixture.
