

Unity Deck

Size 6.2" X 22" 6.2" X 23"

Available Colors Matte Black

A Hybrid of both the Horizon and Willow deck, with enough changes to create something entirely new.

Along with utilizing our previous decks best parts, the Unity also features an all new steertube, stainless steel rear axle assembly and bottom deck cutout, making these our lightest and strongest decks to date. We also offer replacement deck ends for the Unity to ensure your deck has the longest life possible.

Signal V3 Wheels

Size

- 110×24 mm
- 115 x 30mm

Available Colors

- Matte Black / Black PU
- Silver / Black PU

Now a staple in the North lineup, The Signal wheels are back and completely re-imagined for a third version.

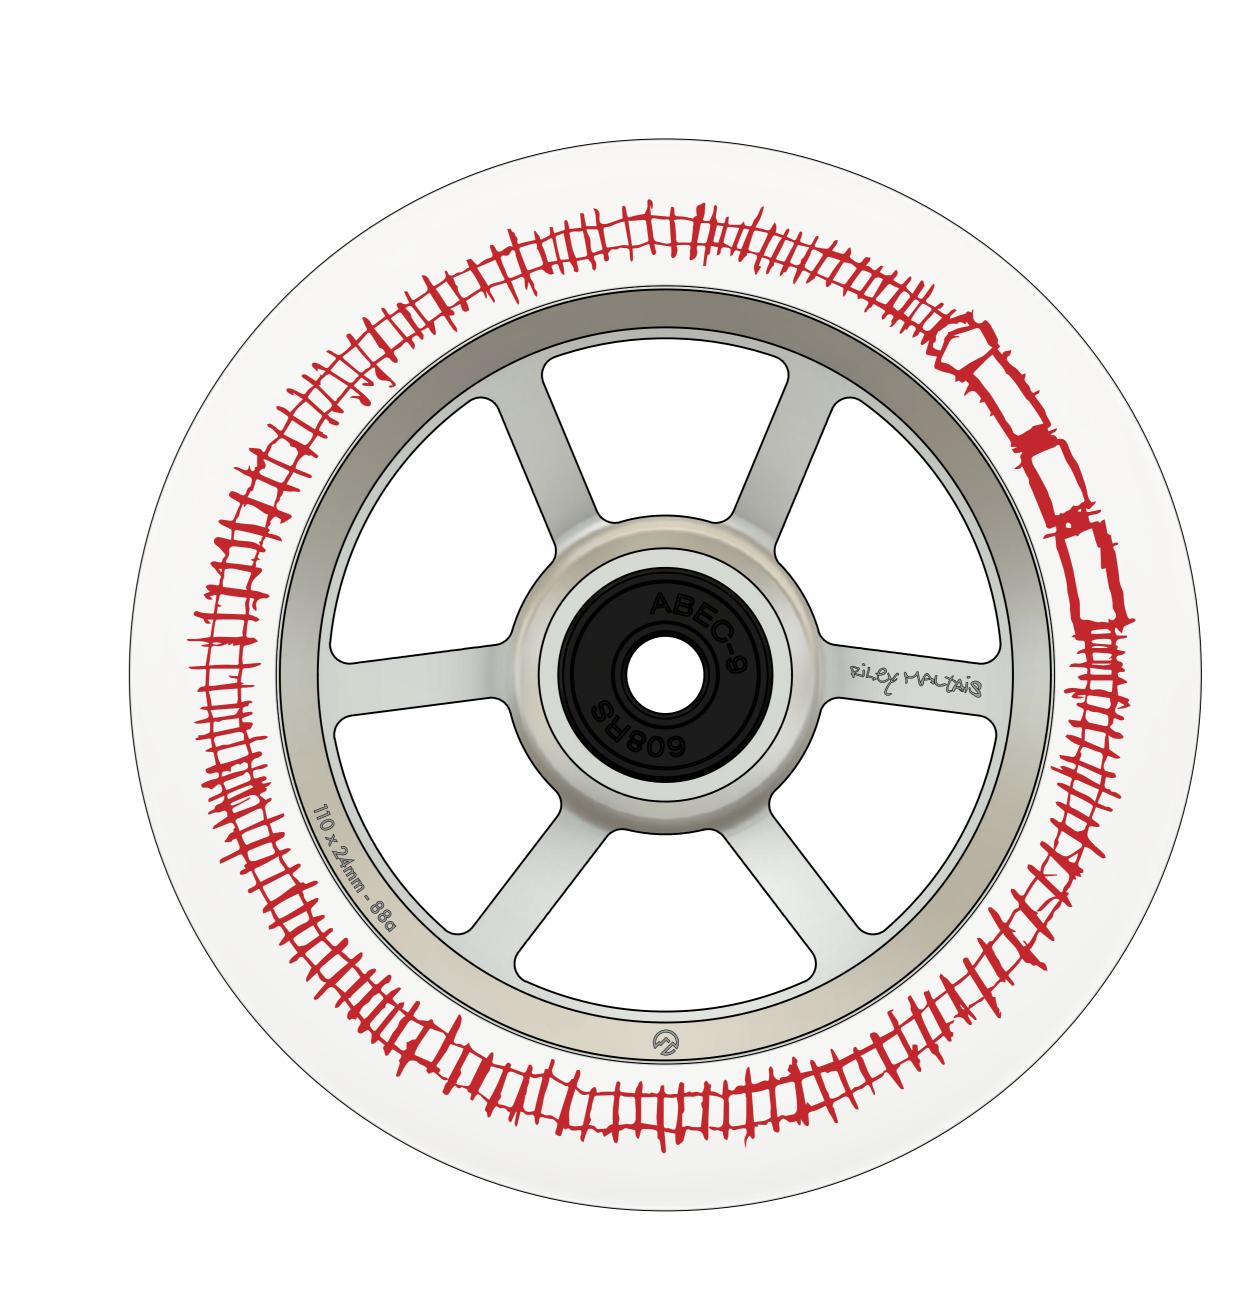

Now using a premium 7075 aluminum and high speed machining process along with what we feel is the best PU formula to ever hit the market, the Signal V3 is sure to be the best version of this design yet. Once again improving on products that were already great to begin with.

Seam SCS

34.9mm Oversized

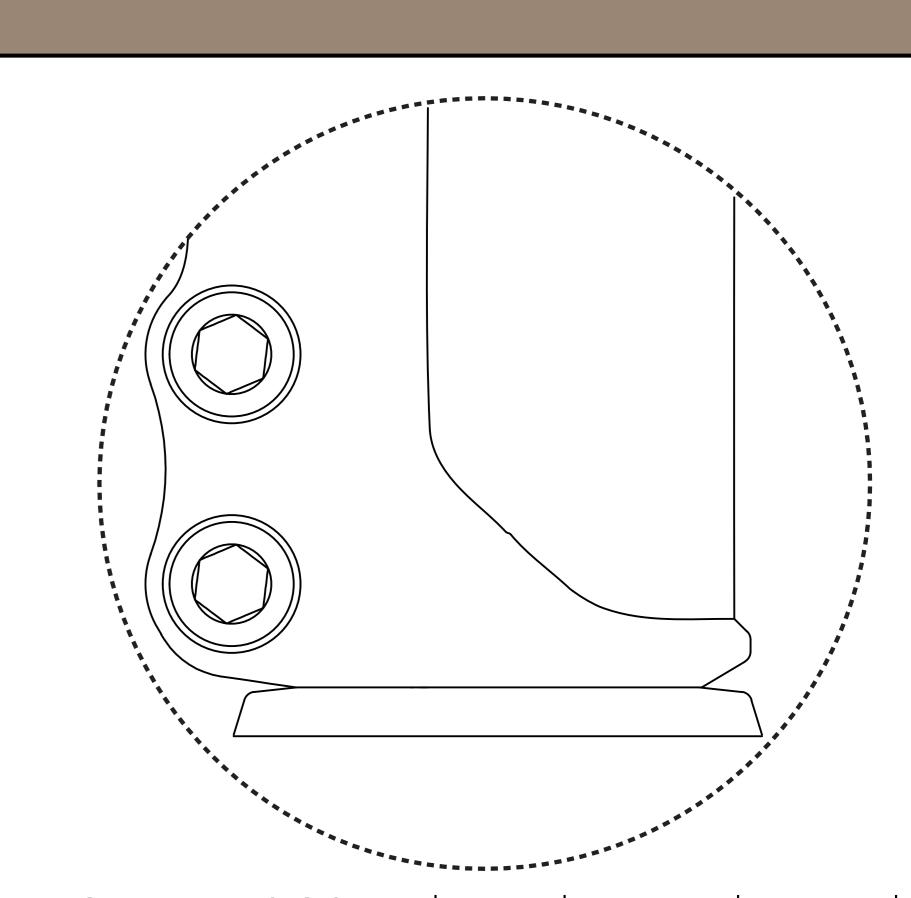

Available Colors

Matte Black Silver

An all new SCS from North. We kept this one fairly simple, added some unique cnc work for a slim look and ended up with a design that feels modern.

To ensure compatibility, the removable shim allows use with both standard and oversized handlebars.

Our new SCS and Headset are designed to fit together seamlessly

Tree Grips

155mm x 30.5mm

Available Colors

Black Gum

Back to the basics! This is North simplest and softest grip

With extra thin ribs and increased spacing paired with a new formula, these grips are guaranteed to have incredible bar feel and comfort. This is the also slimmest grip we have made, with a diameter of 30.5mm.

Topped off with a signature tree icon, these grips are sure to become a staple in our lineup.

Echo Headset

Available Colors

Matte Black Silver

It's a headset, and it most definitely spins.

Jokes aside, this is our best headset yet. This new top cap is so low profile it practically blends in with your scs. Along with the top cap we are also using new bearings which we guarantee to be our best yet.
