Задание 6

Task 2

Read the text below. Choose from (A—H) the one which best fits each space (6—11). There are two choices you do not need to use.

Why You Forgot Everything You Learned At School

Tired of forgetting all that vocabulary you just crammed? Then some memory training is probably a good idea.

Let’s try a small thought experiment. Take a minute to think back to your science classes in high school, and see (6) \_\_\_\_\_ .

Can you explain the elements that make up an atom, or the basic principles of plant biology? How about physics, or simple chemistry? Do facts and procedures come rushing back, or do you remember your teacher’s face, or (7) \_\_\_\_\_ after an experiment?

Everyone will have a different set of memories, and they may have very little to do with (8) \_\_\_\_\_. You mightn’t remember anything at all. It’s extraordinary how quickly we manage to forget what we crammed during all those long hours of study. Algebra. Long division. Verbs, adverbs and relative clauses. The causes of World War I. Where did it all go, we muse, years later?

It is extraordinary that so many of the world’s education systems, which are usually based on testing (9) \_\_\_\_\_ and apply information, should be designed without any real thought of how our memories work. Memory is perhaps the most fundamental factor in (10) \_\_\_\_\_. It should inform all aspects of education; instead, it’s an afterthought.

Ask any teacher and they’ll tell you about a class where the students seemed to completely master a topic, and yet after a couple of weeks they had forgotten it. “But they knew it last week!” comes the cry of dismay. Curricula are often designed (11) \_\_\_\_\_ : you do fractions in Grade 5, and then a year later in Grade 6, by which time you’ve forgotten most of what you learned the previous year.

## Задание 12

### Task 3

Read the text below. For questions (12—19) choose the correct answer (A, B, C or D).

#### Music

Can you think of a day without music? We can hear music everywhere: in the streets and at home, over the radio and on TV, in the shops and in the parks. People all over the world are **(12)** \_\_\_\_\_ of music. They listen to music, they dance to music, they learn to play musical instruments.

But what is music? Specialists explain that music isn't only a **(13)** \_\_\_\_\_ of pleasant sounds. It is an art which reflects life. There are a lot of different kinds of music. Some of them appeared long ago, and some are modern. For example, folk music appeared long ago, but it is still alive. There are many **(14)** \_\_\_\_\_ performers, choirs and folk groups in Ukraine. Folk songs are very tuneful and pleasant to listen to. Classical music is often associated with the music of the past. However, this style also includes music being written now, and we may speak of modern classical music. Rap is a modern musical style **(15)** \_\_\_\_\_ the singer speaks or shouts the words in time to music with a steady beat.

Great Britain has produced more popular music stars than any other country. British groups often **(16)** \_\_\_\_\_ new trends in music. New styles, groups and singers continue to appear. Many of the new bands have been able to use the changes in technology to develop their music.

Tastes differ. So people's musical interests range from pop and rock music, which are **(17)** \_\_\_\_\_ popular nowadays, especially with young people, to classical music and opera.

It goes without saying that music plays a very important role in people's lives. It **(18)** \_\_\_\_\_ our moods and emotions. Music appeals to our hearts and transforms our feelings. It conquers our souls and enriches our minds. Besides, listening to music is the perfect way to spend free time and not to feel bored. You can hardly find a person who doesn't like or need music and who never sings or dances. Music is beauty in sounds; it is our magic source of **(19)** \_\_\_\_\_ .
