PREFACE

Use only original parts or original spare parts when performing any replacements. After all maintenance interventions ensure all covers and panels are back in their original position. Always keep this manual in a safe place for further reference. If you contact us regarding your machine, whether by phone or in writing, please remember to always state its type, model and serial number. This information is shown on the rating plate located on the machine's rear panel.

The manufacturer reserves the right to carry out changes to the specifications stated in this manual at any time and without any previous notice. Thus, all the data included in this manual is to be considered as informative and non-binding. Please keep in mind that this catalogue is a compilation of general information, since it is not possible to specify a complete summary of the details of all machines produced by our company.

Machine version:

- COIN: machine with coinmeter
- OPL: version controlled with buttons situated on the control panel without the coinmeter
- CPS: Coin operated version with the payment system located outside the machine, so called central payment system
- Heating: electric, steam.
